		203.5	90.5	32.0	99.0	504.5	281.0	520.0	513.5	435.0	290.0	524.0	430.5	523.0	630.5	341.0	433.0	639.0	513.0	7321.0

* It should be noted that the total yield of No. 4 should not be compared with the total of others as it had to be removed in 1912 to permit a road going through.

† The trunk of No. 7 is now diseased hence this tree should not now be compared with the others, but it has been a relatively poor yielder since 1898.

APPLES, McINTOSH.—Planted, 1890. Yield in Gallons.
