

Bale Your Hay and Sell It

THERE is always a ready market at a good price for baled hay. It occupies only about one-fifth the space of loose hay. It can be handled easily. It prevents waste and it retains its full food value. Many farmers are making hay the big cash crop of their farms, not only because of the high profits it brings at the present market value, but because as a rotation crop it renews the richness of the soil. These farmers make all the profit themselves. They get a price for baled hay which far more than covers the cost of baling. They are able to ship it to the markets where the price is highest. A big majority of these farmers

Use IHC Hay Presses

the only presses on the market today which fill the need of the individual farmer. Like all other IHC machine lines, our hay press line is complete. You can get IHC pull power presses requiring either one or two horses; IHC motor presses using 3, 4, or 6-horse IHC engine. Both styles have three separate bale chamber sizes, 14 x 18 inches, 16 x 18 inches and 17 x 22 inches. The IHC pull power press has a greater capacity than any other horse press of its size. It is also easier on the

horses; the steppover is the lowest and narrowest made and the horses are pulling no load when they cross it. The IHC hay press has an adjustable bale tension which insures compact bales. It is fitted with a roller tucker that turns in all straggling ends, so that the bale is neat and smooth in appearance. The bale chamber is so low that the attendant can tie the bale without walking round the machine.

The IHC motor press consists of a bale chamber and an IHC engine, mounted together on substantial trucks. It is easily moved from place to place, can be backed to the stack or barn and is always ready for work. The engine does not need a man to watch it. Give it a supply of fuel and water and see that it gets plenty of oil and it needs no other attention. There is no danger of fire because there are no flying sparks, nor is there any smoke or soot to interfere with the comfort and efficiency of the workers. The engine is detachable. Two extra wheels, an axle, and a belt pulley are furnished, so that when not baling hay you have a regular portable IHC engine, which can be used the year around to run a small thresher, saw wood, pump water, generate electric light, grind feed, or separate cream or to run any farm machine for which it supplies sufficient power. Two perfect machines in one. Now is the time to get ready for your haying. Make it a big money crop. Call on the IHC local agent in your town or write the nearest branch house for an IHC hay press catalogue.

IHC Service Bureau

The purpose of this Bureau is to furnish, free of charge to all, the best information obtainable on better farming. If you have any worthy questions concerning soils, crops, land drainage, irrigation, fertilizer, etc., make your inquiries specific and send them to IHC Service Bureau, Harvester Building, Chicago, U.S.A.

The roof that stays proof

THERE is one way to make your roof lastingly waterproof—lay roofing made of Trinidad Lake asphalt.

This natural asphalt, endowed by Nature with permanent oils, has never been successfully imitated by any man-made substance.

The natural oils of this asphalt give life to

Genasco THE TRINIDAD-LAKE-ASPHALT Ready Roofing

That is why Genasco lasts. It is real economy to use it on the roof of every farm-building. Comes in rolls, easy for anybody to lay. Mineral or smooth surface.

Ask your dealer for Genasco. Write us for the helpful Good Roof Guide Book and samples—free. The Kant-leak Kleet, for smooth-surface roofings, makes seams water-tight without cement, and prevents nail-leaks.

APPLE TREES

We are specialists in the production of hardy varieties for the north and cold climates. Our apple trees are budded on whole roots and grown on our nurseries (170 acres) at Pointe Claire, Que., under the rigorous climatic conditions of this section, and they are, therefore, superior as a stock for northern planters, both in the garden and the orchard.

Hardy Trees are what you want—what you must have if you want to make a success of your planting. At present we have a full line of all the best standard varieties on hand, and intending purchasers are urged to place their orders now while we have a full selection on hand.

AGENTS

Amazing Invention

Entirely new kind lamp burner; generates gas; makes extremely large powerful white light. Smokeless, odorless. Sells everywhere. Nothing like it. Exclusive territory contracts granted. Positively not sold in stores. Agents making big money.

Experience unnecessary. Sample outfit 35c, post-paid. Particulars FREE. Great White Light Co., Dept 302, Windsor, Ont.

INVENTIONS Thoroughly protected in all countries. EGERTON R. CASE, Registered Patent Attorney, DEPT. B, TEMPLE BUILDING, TORONTO. Booklet on Patents and Drawing Sheet on request.

SYNOPSIS OF DOMINION LAND REGULATIONS.

ANY PERSON who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency of the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price, \$3.00 per acre.

Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price, \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

W. W. CORY,

Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

"Go North Young Man!"

WHY?

Because there are millions of acres of agricultural land in Northern Ontario in some cases free, and in others at 50 cents per acre, excelling in richness any other part of Canada, blessing and waiting to bless the strong, willing settler, especially the man of some capital.
