STREET OBSTRUCTION. Robert Philips, in charge of the head-ing mill on Baldoon street, was before the magistrate this morning charged with obstructing an alley adjoining the mill. The charge was laid by street inspector Delahunty. Mr. Philips deposed that the bolts in the alley were not placed there by his orders; they were not his property until they were measured up and paid for. The magistrate dismissed the case without costs, holding that the fact of Philips' removing the bolts from the street was not sufficient proof of the fact that they were placed there by him or under

count the constant of this tariff cannot help the American lumberment and the American lumberment of the canadian more than the American lumberman? You think then that the proposed enactment will benefit the Canadian more than the American lumberman? Certainly. It cannot fail to do so when the Canadian government reciprocates with a duty on loge. I very much doubt, concluded har. Piggott, if they will pass it. Deputations have gone to Washington from Michigan and Minnessta to oppose it and it will be a strong fight—so strong as to make its passage very doubtful."

lic men. They were escoried by Representative Hitt of Illinois, who introduced them to the leaders of both Houses. They had a half hour's talk with Speaker Reed, which ended with the remark by Sir Richard Cartwright that it seemed to be the idea of people of each country that if they could build a high tariff wall around their own domains they could enrich themselves at the expense of their neighbors. Speaking for the new Canadian Administration, he said it was their hope that the United States would see that reciprocal commercial arrangements would benefit both peoples. The Canadians have encountered a barrier to the success of their mission in the Ways and Means Committee, which is framing the new tariff bill. They base their reciprocity scheme upon an exchange of concessions, by which Canada will admit the manufactures of the United States upon favorable tariff terms in return for tariff concessions to Canadian farm products. Members of the Ways and Means Committee have announced their intention to give particular benefits to the American farmers, and to March 4th to 8th.

products. Members of the Ways and Means Committee have announced their intention to give particular benefits to the American farmers, and to secure to the American farmers the entire home market for their products. Several of them said to-day that they would not consider any reciprocity scheme which would take any of the home market from the farmers. Their policy of giving the farmer ample protection is shown in the agricultural and lumber schedules of the new tariff bill, which have become known. The Canadians have met with another discouragement in the Immigration bill now before Congress, which excludes Canadian laborers from the United States.
