farm and Household.

The Husbandman.

Give fools their gold and knaves their power Let fortune's bubbles rise and fall: Who sows a field or trains a flower, Or plants a tree, is more than all.

For he who blesses most is blest; And God and man shall own his worth; Who toils to leave as his bequest An added beauty to the earth.

And soon or late to all that sow

The time of harvest shall be given; The flower shall bloom the fruit shall grow If not on earth, at last in heaven!

The Way Farms are Improv ed. (From the New England Farmer.)

Nathan K. Holbrook of Columbia, Conn. is the owner of eighty or more acres. Mr Holbrook commenced life as a carpenter and builder, but followed that but a little time. He spent some time in building the ture of ploughs, obtaining the castings this county. Thus at first he had but necessary out buildings. This was in the remote past-probably hadit has attained its present dimensions, and the whole tract would seem to indicate a condition similar to many structed in the elements of the farm. be reversed."-Sir William Gull. another New England farm, somewhat abandoned, as the only use put to nearly the whole was pasturage. And yet, as before stated, it was as well divided into fields, by substantial and well built walls. A portion adjoining the highway had been devoted to orcharding, as a forsaken mass of was nearly level, with a tendency to the natural conditions of a tract of of about two or three acres at a time. has made thorough work of it as far as he has gone. And when it is remembered that, having a rough stony surface, with innumerable weeds and bushes to subdue, it was no easy nor bushes were plentiful, stubborn withmaster, have "hawed" and "geeed" of it, a little fertilizer is applied and buckwheat is sown, and sometimes, if too large a section of surface is under treatment, a portion will be seed-

will admit of further treatment. The old orchard has gone down before the woedman's axe, the larger boulders raised from their beds and after field springs into existence.

This is not all that is being done; the fencing has been done in accordance with a matured plan and while a dided. This mass is applied with is ample under average conditions; in linseed oil. The principle of combining the assessment plan with a Safety Fund is rapidly superceding all other systems and is being endorsed by the leading authorities on life insurance.

The contract is at once simple, safe and inexpensive, and the protection of life insurance is forced as a safe and inexpensive, and the protection of life insurance is offered as a safe and incomplete the safe and ance is offered on a plan as fair and just as is a contract for fire insurance, while large ac-cumulations in the hand of the Company are rendered unnecessary and a member never rendered unnecessary and a member never has at risk more than the actual cost of one

assessment.

The interest from the Safety Fund is applied to the reduction of dues and assess-ments while the Fund itself guarantees along term endowment to persisting members with-out extra cost and, affords full protection to the last man. Expenses of Management
