General Intelligence.

RHEUMATISM CONQUERED.

A GREAT ADVANCE IN MEDICAL SCIENCE.

A Discovery Which This Painful Disease Cannot resist—Mr. B. Blasdell, of Paris, Ont., Relates His Experience With the Cure.

Paris, Ont., Review.

Rheumatism has long baffled the medical profession. Medicine for external and internal use has been produced, plasters tried, electricity experimented with, hot and cold baths and a thousand other things tried, but without avail. Rheumatism still held the fort, making the life of its victims one of misery and pain. The first real step toward conquering rheumatism was made when the preparation known as Dr. Williams' Pink Pills for Pale People was discovered, and since that time thousands have testified to their wonderful efficacy in this, as well as in other troubles, the origin of which may be traced to the blood.

Among those who speak in the highest terms of Dr. Williams' Pink Pills is Mr. Blasdell, of this town, who is known not only to all our citizens but to residents of this section, and he is as highly esteemed as he is widely known. To the editor of the Review Mr. Blasdell recently said: 'I have reason to speak in terms of the warmest praise of Dr. Williams' Pink Pills, as they not only saved me a big doctor's bill but have restored me to health, which was impaired by rheumatism and neuralgia. These troubles were, I think, the after effects of an attack of measles. After the latter trouble had disappeared I felt an awful pain in my head, neck, and down my back. I tried a number of remedies, but without effect. I was then advised by Mrs. Horning, of Copetown, who had been cured of paralysis by the use of Dr. Williams' Pink Pills, to give them a trial. I followed her advice, and after using a box or two I began to feel much better, and with their continued use I constantly improved in health, and am now feeling better than I have done before in ten years. I am satisfied that but for the timely use of Pink Pills I would to-day have been a physical wreck, living a life of constant pain, and I cannot speak too highly of their curative powers, or recommend them too strongly to other sufferers. I cheerfully give permission to publish my statement in the hope that some other sufferer may read and profit by it.'

Dr. Williams' Pink Pills strike at the root of the disease, driving it from the system and restoring the patient to health and strength. In cases of paralysis, spinal troubles, locomotor ataxia, sciatica, rheumatism, erysipelas, scrofulous troubles, etc., these pills are superior to all other treatment. They are also a specific for the troubles which make the lives of so many women a burden, and speedily restore the rich glow of health to pale and sallow cheeks. Men broken down by overwork, worry or excesses, will find in Pink Pills a certain cure. Sold by all dealers or sent by mail postpaid, at 50c a box or six boxes for $2.50, by addressing the Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N. Y. Beware of imitations and substitutes alleged to be 'just as good.'

AT IT AGAIN.

OTTAWA, Sept. 6.—Prof. E. Stone Wiggins, referring to his prediction of a great storm in September, 1883, has the following prediction of a great storm during this month:

On looking over my calculations of this storm, made in September, 1882, I find reference to a sister storm on Sept. 21st, 1895, 13 years afterwards. On the 18th of the present month the moon will pass over the sun's disk, a few degrees west of San Francisco, causing a solar eclipse, the moon herself being in perigee, and two hours later, on the celestial equator Mars and Venus will both be in conjunction with her on that day. A great storm, therefore, will sweep the shores of all the continents from the equator to the poles as early as the 17th, but on the east coast of North America will reach its climax with high tides by the afternoon of Saturday, 21st inst. There is danger of volcanic upheavals on the meridian of Japan, and of earthquakes in South America and Mexico.

Correspondence.

Reasons for That Investigation.

To the Editor of the Union Advocate.

DEAR SIR:—

The great question that will shortly have to be decided in this county will be whether that portion of its inhabitants that are in favor of law and order or the contrary will rule and sway it. A number of years since a large majority of the Ratepayers of the County voted in favor of the Scott Act Law, and the result was that that law was endeavored to be enforced throughout the length and breadth of Northumberland, all that portion of the inhabitants of the county that were in the liquor trade who were law abiding citizens, retired from the business, but a stop was not put to it as it fell into the hands of a class of the community that had no respect for the laws of the land when money could be made by violating it. The result was that in a very short time liquor was for sale in shanties in all quarters of the country and it was no trouble for those who desired it to procure all they wanted. Although every effort has been made to stop it, still the trade goes on, but I am ready to admit, and pleased to learn not to half the extent it did a few years ago and this is due to the untiring efforts of the present Inspector to put a stop to the nefarious trade. The great majority of these offenders against the law have been tried before Police Magistrate McCulley, of Chatham, and many of them have been fined by that gentleman for a first, second, and some for a third offence. Many of these parties have been driven out of the business, but they did not give it up until after they had found by sad experience that they lost more than they gained by carrying it on.

The greatest opposition that the Inspector met with in enforcing the law was from the Social Club of Chatham. This Club imported the liquors which its clerk sold over its bar to the members of the Club and the friends that they introduced who were not residents of Chatham. The Inspector laid information before Mr. McCulley against the Club, for violating the Scott Act Law, and after a lengthy trial, that gentleman gave his decision which was to the effect that the Club was guilty of the charges that had been laid against it. The case was then carried by the members of the Club to a higher Court, but Mr. McCulley's decision was sustained and the result was the Chatham Social Club was closed as a liquor vending institution. Some of the members of the Club, were highly indignant with Mr. McCulley for the part he had taken in having it closed and two of them, who happened to be lawyers, assisted by another lawyer who considered he had a grievance against Mr. McCulley, drew up the present charges against him and got two men to sign the document who had been tried and convicted before him as violators of the Scott Act. The evidence against him has been published and is now before the public. His defence, as yet, has not been given as the court has been adjourned until the 8th Oct. when, I presume, he will be able to give a satisfactory reason for his official acts.

Let the law abiding citizens of the country watch this investigation closely, as they are deeply interested in its decision. If Mr. McCulley's opponents gain their point by having that gentleman removed and a new Police Magistrate appointed it will unmistakably prove that the petition of two convicted violators of the Canada Temperance Act have more influence with the Local Government of this province than the whole of the temperance body throughout this county. With this fact before him as well as the fate of his predecessor, who was sacrificed to satisfy the demands of the all-powerful liquor party of the county, it is reasonable to suppose that the new Police Magistrate will be very careful how he decides when violators of the Canada Temperance Act are brought before him to be tried.

It is a well known fact throughout this county that the members of the Social Club, who are so bitterly hostile to the Police Magistrate of Chatham for the part he took in making that institution conform to the law are a few Dominion Officials and a member of the Local Government of this Province. These gentlemen may consider that they are strong, and powerful and able to mould public opinion upon all questions, whether they be of a political, or social nature; but friends of law and order here have their doubts that the crusade they are at present embarked in will increase either their popularity or influence among the respectable and law abiding inhabitants of this County.

CARD.

To the Electors of the Parish of Newcastle, Northumberland County.

Ladies and Gentlemen,

At the request of a large number of the Electors of the several polling divisions of the Parish, I have consented to offer for the position of Councillor.

It is the general belief that the affairs of the Parish are not as ably conducted as might be and a want of attention displayed in regards Local matters. I am of the belief that if a Scrutiny of the Taxation of the parish were made, a more marked improvement would be observed than now exists generally. I promise, if elected, to give personal attention to all local affairs and not confine my attention alone to the Session.

Soliciting your support

I am yours,

THOS. RUSSELL.

Newcastle, Sept. 17, 1895.

RUNNING

is the man who buys the cheap and poorly made clothing simply because it is cheap. There are just as good bargains to be had in good grades of goods, such for instance as our
