

ORIGINAL

The Halifax Convention, in discussing the prospects of P. E. Island and Newfoundland becoming members of the Union, through Imperial coercion or Legislative deception, says:—

Our city and harbor present quite a business aspect this week. Besides Her Majesty's War Ship Sparhawk several new vessels, a large number of coasters, and the three British Traders whose arrival we have already chronicled, the L. C. Queen from Liverpool, and the Empress from Glasgow have, during the past few days, been added to the shipping in port.

News by Telegraph.

FLORENCE, Oct. 15. The revolutionary party which entered the Papal States at different points in the eastern and southern frontier, have concentrated in Frosinone under the leadership of General Garibaldi. The report that Minotti had been arrested, proves to be without foundation.

Exciting news from the South has just been received that battle was fought near Veroli, in the Province of Rome, between the Garibaldians and the Pontifical troops in which the former were victorious. A strong detachment of the Papal service was sent from Rome during the night to meet the Garibaldians at the junction of the insurgent bands in Frosinone, with the party under Minotti Garibaldi, who were unsuccessful.

When the Sheffield Trade Outrage was under investigation, it was frequently contended that the atrocious were exceptional, and were unanimously condemned by the other Trade Unions of the mother country. The inquiries of a Commission similar to that which sat at the Sheffield outrage before the public, now sitting at Manchester, have we are sorry to say, proved the latter to be not exceptional, but general.

Despatches received from Italy this evening are very important. The entire press of Italy almost without exception have the seizure of Rome by the Government. The strength of the party of action increases hourly, and the recent successes have given them renewed courage; sharp fights have occurred near Forme and Albano, as well as other points in the Province of Viterbo, in all of which the insurgents have been successful.

The Pope has called an immediate meeting of the Cardinals to consider the situation. Turin, Oct. 17. The weekly returns from the Bank of England show the amount of specie in the vaults decreased £241,000, since the last statement made Oct. 10th. Large amounts of specie have been shipped from London to Paris during the past week, and the current still continues in that direction.

The following despatch has been received from Florence direct, dated to-night. It is reported that Gen. Garibaldi has again escaped from Capua, and that he left the Island on board of an American ship. Garibaldians have re-appeared in the Western district, between Rome and the Sea, and have taken possession of the Railroad running between Rome and the seaport of Ostia, and torn up the rails, preventing communication. It is also reported in Florence that the Government of Italy and France have an understanding with each other, and are really associated together in the treatment of the Roman question.

At a dinner to Earl Derby at Manchester last night, Derby defended the action of the Government in the Reform question, and replied to some of the attacks on the Reform bill. Lord Stanley, Secretary of foreign affairs, spoke of the disturbed condition of Europe, but declared that notwithstanding the threatened condition of affairs, he still entertained hopes that peace would be preserved.

Napoleon has made an imperative demand upon the Italian Government for a strict observance of the Convention of September. The expedition of Toulon is ready to sail for the relief of Rome. It is believed the Italian Government will yield.

There is a wild rumor that the Fenians are planning an attempt to seize the person of the Queen at Balmoral, and, although little credence is given to the report, precautionary measures have been taken, and the household guard at Balmoral is doubled. The last advices received from the Roman territory report that the Papal forces are falling back towards Rome. It is reported that Marshal Narvaez, the Spanish Minister, has offered to the Emperor Napoleon the assistance of Spain in sustaining the temporal power of the Pope. The Emperor Napoleon accompanied by Eugenie, has arrived at St. Cloud from Biarritz. The Fenian alarm is spreading. The Government is in possession of many despatches announcing the possible plans of the Brotherhood. Troops and gunboats have been despatched to Ireland, and the entire Western coast of that Island is guarded with extraordinary vigilance.

The Emperor of Austria has referred to his Council of Ministers for their consideration the address received by His Majesty from the congregation of Roman Catholic Bishops of the Austrian Empire, which recently assembled at Vienna, in which they protest against the adoption of a new concordat, and strongly urge the Emperor not to make any revision in the sacred treaty now established between Austria and Rome. In his communication to the Ministerial Council, the Emperor reproves the Austrian Bishops for adopting a paper which is a public excitement at a time when tranquillity is indispensable for the restoration of the country, and he takes the occasion to remind them that the Emperor of Austria is a constituted Prince as well as a true son of the church. The Paris Monitor this morning asserts that the inhabitants of Rome and the Papal provinces are loath to receive the Emperor's assistance to drive the Italian invaders from the soil.

Latest. Paris, Oct. 20th. All the official journals of Saturday concur in declaring that which was reported in the Herald of the 19th, her determination either to support the revolutionary movement in Rome, or to faithfully execute the provisions of the September Convention. France must needs for peace or war accordingly.

A delegation, consisting of members of the Roman Municipal Council, and headed by a Senator of Rome, was presented, praying His Holiness to give his consent to the occupancy of Rome by the troops of Victor Emmanuel. The Fenian alarm does not abate. Last evening repeated efforts were made by the Fenians to burn the Police Station at Manchester, and thus relieve some of their comrades there confined. The fire was extinguished before any damage was done. The Government is on the alert, and precautionary measures are everywhere taken to guard against surprise. More fighting is reported in Italy. The invaders were routed by the Pope's troops. Gold 144.

Medical Notices. Holloway's Ointment.—In bad legs, ulcers, scrofulous sores, and glandular swellings the Ointment operates very gently, but very surely, and with a rapidity that resembles magic. It should be rubbed into the parts affected after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous ointment have never been disputed by any one who has given it a trial. It contains no particle of any substance of a noxious nature, nor is there a case on record in which it has done the slightest harm, while there are authentic reports of innumerable cures effected by it in all countries, even after every other means had been tried in vain. It is as well in its action as it is powerful and beneficial in its effects. The remarkable Properties of Holloway's BROMOCAL TROCHES for Coughs, Colds, and Bronchial Affections, now stand the first in public favor and confidence; this result has been acquired by a test of many years. Its merits and extensive use have caused the Trochets to be counterfeited, and we would caution purchasers to be on their guard against worthless imitations. The poor little sufferer will be immediately relieved by using Mrs. Winslow's SOOTHING SYRUP for children teething. It softens the gums, reduces inflammation, cures wind colic, allays all pain, and gives the child quiet natural sleep, from which it awakes refreshed and refreshed. Perfectly safe in all cases, as millions of mothers can testify.

MEMORANDA. Capt. M. R. Doane, of sloop Nancy, from Labrador, reports, on Sunday, 6th Oct., at 8 p. m., 3 miles E. N. E. from East Point, P. E. Island, spoke ship Osceola, waterlogged and lost of sail, making from the Gut of Canso, two fishing schooners in company.—Herald.

The late Gale has been awfully disastrous all along the coast of Cape Breton, Magdalen Islands and Prince Edward Island, and has done more mischief than any other Gale, belonging to Canada, since the year 1840. It struck on a reef about a mile and a half from the shore of the Magdalen Islands, and all were lost. Evidently, the men attempted to swing round, as the boats were driven in, perfectly naked. The loss of life has been fearful and the property destroyed. The Galeer understands that the Bark Hercules, which was on the coast of Cape Breton, was driven on the rocks and became a total wreck.

DECEASED. At the Head of St. Peter's Bay, on the 16th Oct., by the Rev. R. P. McPherson, Michael McDonald, of St. Peter's, to Miss Jane McKinnon, 5th daughter of Hugh McKinnon, of Goose River, Lot 42.
