BLACKVILLE

Blackville, May 28—Messrs. Bown and Robert Gushin of New York, arrived here Saturday night, on a three weeks hunting trip to Mr. Bown's sporting camps on the south branch of the Renous river. Mr. Alex. Curtis is the guide.

Guide Harry Allan, and a party of sportsmen came down from Calm's River last week. The party were taking moving pictures and writing up the sporting facilities of the Miramichi. Among those who composed the party were Maxmillian Foster who was fortunate enough to secure the record moose head of the Province some years ago, and Mr. Grant Rice, another well known sportsman. Serjeant John Fairley, who recently returned home from overseas was an invited guest. The party in addition to securing some very nice pictures, were fortunate enough to secure some nice salmon and grilse. They left for Fredericton on Monday.

Mr. George Clark, of Presque Isle, Me., is visiting at Mr. Dennis Dooling's. It is thirty years since Mr. Clark left Blackville and he is greatly interested in the changes that have been made in that time. Mr. Clark reports a great lack of fertilizer in Aroostook county, and farmers are unable to plant potatoes this year. They have however, gone in for oat raising.

Mr. Mark Hambrook was in town on Saturday. Mr. Hambrook, who is an agent for fertilizer, said that it was impossible to supply the demand this year, but that the largely increased area that has been planted will more than make up for the shortage on account of the lack of fertilizer. Mr. Hambrook said that everything on his farm had gone in for increased production. For instance two of his sons had given birth to twenty-three young pigs. Other arrivals were one colt, four calves and seven lambs. Mr. Hambrook was buying potatoes for the increased production campaign committee at Newcastle.

It is rumored that the saw mill of the Nashwaak Lumber Co. which is not to run this season, will change hands, and commence operations shortly. It is hoped that this rumor is true, as Blackville will be very dull if the mill does not cut.

Gunnors Cecil Cutler and Cecil Dale, of the 8th Battery Draft, Moncton, who have been visiting their homes here, have returned to Moncton. While here both have been very busy looking for recruits, visiting Doaktown and other points on this mission.

About forty friends of Gunner Cecil Dale tendered him a Surprise Party at the home of his parents on Friday evening, and a very enjoyable time was spent by all in games and amusements. During the evening Mr. Thomas Ross gave several selections on the violin, while solos were given by Miss L. Ross, Mr. Morris Dunn and others. Miss Katie McKenzie presided at the piano. Light refreshments were served.

Some of our farmers are trying ground lime stone on their land this year in place of fertilizer. It is hoped that it will be a success and repay their efforts with an increased production.

Mr. Everett Donalds motored through from Doaktown and spent Sunday with friends in town.

We have a cattle law here now this year. Everybody leads his cow to pasture with a rope, and all hens are confined in wire netting, so that they will not interfere with the increased production.

Mrs. Arthur Cates and daughter Lillian, who have been visiting Mrs. Cate's parents, Mr. and Mrs. J. H. Dale, returned to their home in Sussex on Monday.

Mr. Robert Gillespie who recently returned from New Glasgow, N. S., where he has been working in a shell factory, is confined to a shell here. Mr. Gillespie, previous to the outbreak of war, was employed with his brother-in-law, in the tanning business, but left that to go to shell making. The strenuous work in the shell factory has undermined his health and he has been ordered by the doctor to take a rest. His many friends wish for him a speedy recovery.

We are pleased to see Messrs. Leo McCormick and George Underwood around again.

We are in need of a traffic by-law to keep the motor cycles and bicycles off the sidewalks. They are very numerous and dangerous to pedestrians.

The conscription fever has broken out here and the doctor expects to have a busy time of it. Sign on boys.

"Towards Me many times before their death:

The valiant never taste of death but once.

Of all the wonder that I yet have heard.

It seems to me most strange that men should fear;

Seeing that death, a necessary end, will come when 't will come."

Shakespeare.

"Our doubts are trifles, and make us lose the good we oft might win by fearing to attempt."

It is reported that a coalition government is to be formed at Ottawa and that St. Louis Gault, Premier of Quebec, will be taken into the cabinet.

LOGGIEVILLE

Loggieville May 28—A gloom was cast over the town on Sunday the 27th inst., when the word reached here that Miss Aneta Landry had passed away. She had been ill with fever for several weeks, and in the first stages of the disease had been taken to the Chatham hospital. About one week ago her friends became much alarmed over her condition, but later she appeared to improve slightly. A change, however took place during the week-end, and she gradually became weaker. The remains were brought to her home here and the funeral is to be held today. Her early removal at the beginning of a promising life will be widely mourned. Miss Landry was in her 18th year. She has been attending the Convent school at Chatham for some time. Her winning manner, made for her many friends, who feel keenly her passing out. She was the eldest daughter of James Landry, our popular conductor on the branch line. A general sympathy is extended to the bereaved parents. Miss Landry is survived by two sisters, and one brother. The brother is now in the hospital with fever.

The lecture given by Dr. McKenzie in the Temperance hall on Thursday evening attracted a large number of the citizens. The valuable information given by the doctor is much appreciated by the residents, many of whom propose to accept the doctor's offer of inoculation, owing to the fever situation.

The weather on the morning of the holiday being rather dubious, many who had planned an outing for the day did not care to leave their homes. Noontide brought a delightful change in the elements, and for a few hours outdoor life was really attractive. Those who enjoyed fishing wended their way to the pond and brook. There were no particular attractions in the town during the day.

Mr. and Mrs. Fraser and family of Nova Scotia who resided in this place during the summer of 1916, have again taken up housekeeping here.

Mrs. Rosborough entertained several of the classes of Knox church Sunday School one afternoon recently. The children report a most enjoyable hour.

James McMurray, who has been ill with pneumonia, is improving. Among those recently arriving in town to take up work for the summer are Pearl Fraser of Tabacuta, and Samuel Mattinson of Nova Scotia.

Miss Nan Dickson, who has been our local music teacher for several years, has given up work here, and is, at present, spending some time at the home of her parents at Napan. Miss Dickson's departure from the town leaves a blank in musical circles which will be hard to fill. She has been organist in Knox church for the past three years, and her service was much appreciated by the congregation. Mrs. Will Hicthly succeeds Miss Dickson in the last mentioned sphere of work. Miss Dickson leaves a host of friends who regret her departure.

David Murdoch still continues seriously ill at his home at the point.

Miss Lizzie Young, Charles and Oswald Young, went to Rexton last week to attend the funeral of their brother.

Most of these boys are home on their last leave. All join in wishing them every success in the future in this great cause for which they have offered themselves.

Bombardier Tennison Macdonald of this place arrived in Fredericton on Tuesday. He was wounded on Aug. 9th, 1916. He was studying law at Mt. Allison University and joined the 6th Siege Battery and went overseas. He won the D. C. M. for bravery on the battlefield. He is to enter the Military Hospital at Fredericton for a few weeks.

Speaking of conscription Bombardier Macdonald says if the men of Canada won't enlist, it's the proper thing to do to have conscription.

Mrs. Angus M. Edney received a letter from her husband, Lance Corporal Edney and he states he sees a scarcity of food in England, that he didn't think England could be starved. The only scarce article was potatoes.

Miss Neola Norrd and Master J. Machar Young visited their aunt, Mrs. Charles Ellegood of Dumfries last week.

ESCUMINAC

Escuminac, May 28—The death of Miss Sarah McIntyre, an aged and respected resident of this place, occurred last week, aged seventy-five years. Deceased leaves three brothers, Duncan, of Bel River Bridge; George of Loggieville and Michael, of Vancouver, B. C.

The farming in this vicinity is very backward this spring, on account of the rainy weather, the ground is so wet that it is impossible to go on it with horses.

Roads in Bad Condition

The roads around Escuminac are in very bad condition, and unless some repairs are made at once the Escuminac Point Road, the mail driver will have to stop making his trips to the Escuminac Post Office.

It looks as if this part of the road was condemned as it gets little, or no repairs. At present the mail driver has to make the trip around the shore, and when the tide is high it is impossible to pass that way. The Murray Government were to expend \$1000 on it this spring. We wonder if the new government is going to look after it? We were told before they got into power that they would repair the road to Escuminac. If they would only fill in some of the worst holes it would do for the present.

Mr. John Nash went to Chatham on Wednesday and purchased a very nice horse.

Mrs. H. T. Smith is on a visit here, while her husband is operating his fish business.

Fishermen Getting Ready

The lobster fishing has not been a success as yet owing to the loss of time in the first part of the season and the weather has remained so bad that the fishermen can only fish part of their trap. There has been a heavy roll on the bay since the first of May, and lobster bait is very scarce. The herring made away up in the bays. It gave the packers at Bay St. Anne a good chance to get their bait, but the packers only got about half enough.

Michael Jimm, Jr., has launched his fishing schooner, "Plum" and has her at anchor in the bay St. Anne, waiting the arrival of the mackerel.

The Bransfield Brothers have also got their fishing boats ready for fishing.

McLean Bros. are doing very good work with their lobster factory. They are landing all the lobsters that their crew can handle.

Mr. William Russell has not, as yet, got his boat ready for fishing. Owing to the bad weather, the mechanics are unable to work in her.

The Ford is Economical

The average man can easily afford a Ford car. It is the most inexpensive car to drive.

20 to 25 miles on a gallon of gasoline is an every day occurrence, 33 miles is frequently reported by Ford owners. Yearly repair expenses of less than one dollar are not unusual. The car is light in weight, and tires give more mileage on a Ford than on any other car.

You can buy a Ford for yourself and one for your wife for the price of one car at \$1000. You can run both Fords at about the same expense as for one larger, heavier car.

You can always sell a "used" Ford at a good price. You have to accept a big reduction for a "used" larger car.

Go and take a ride in the 1917 model. See how comfortable it is. And stylish, too—stream line effect, tapered hood, crown fenders, beautiful finish. You need one for business. Your wife and children need one for pleasure and health.
