STOCK EXCHANGE CLOSED.

BOSTON, Mass., Nov. 11. The Boston Stock Exchange did not open to-day and brokers joined in the general celebration of the signing of the armistice.

LONDON REJOICES.

LONDON, Nov. 11. Bands and Pipers of the Scottish Guards paraded through Whitehall playing martial and patriotic airs. They were accompanied by singing crowds who time and again sang the National Anthem. The official centre of the British Empire was the scene of many demonstrations. Seldom before have the streets of London been paraded by such a hilarious swarm of people as to-day.

WILSON INFORMS CONGRESS.

WASHINGTON, Nov. 11. The terms of the armistice with Germany were read to Congress by President Wilson at one o'clock this afternoon. Assembled in the hall of the House, where nineteen months ago Senators and representatives heard the President ask for the declaration of war, they to-day heard him speak the words which heralded the coming of peace. The strictly military terms of the armistice are embraced in eleven specifications which include the evacuation of all invaded territory, the withdrawal of the German troops from the left bank of the Rhine and the surrender of all supplies of war. The terms also provide for the abandonment by Germany of the treaties of Bucharest and Brest-Litovsk. The President spoke as follows: "Gentlemen of the Congress, in these times of rapid and stupendous change it will in some degree lighten my sense of responsibility to perform in person the duty of communicating to you some of the larger circumstances of the situation with which it is necessary to deal. The German authorities who have at the invitation of the Supreme War Council been in communication with Marshal Foch have accepted and signed the terms of armistice which he was authorized and instructed to communicate to them."

President Wilson, speaking of the terms of the armistice said: "The war thus comes to an end, for having accepted these terms of armistice, it will be impossible for the German command to renew it. It is not now possible to assess the consequences of this great consummation. We know only that this terrible war, whose consuming flames swept from one nation to another until all the world was on fire, is at an end."

WILSON ISSUES PROCLAMATION.

WASHINGTON, Nov. 11. President Wilson issued a formal proclamation at ten o'clock this morning announcing that the armistice with Germany had been signed. He will read the terms of the armistice before a joint session of Congress. The proclamation follows: "My fellow-countrymen, the armistice was signed this morning. Everything for which Americans fought has been accomplished. It will now be our fortunate duty to assist by example, by sober, friendly counsel and by material aid in the establishment of just democracy throughout the world."

"WOODROW WILSON."

GERMAN GARRISONS REVOLT.

AMSTERDAM, Nov. 11. (By the A.P.)—German garrisons along the Dutch frontier are reported in revolt. Officers are being disarmed and are being treated roughly. In some instances many of the guardsmen threw down their arms and have gone home. Thousands of Dutch workmen are streaming homeward from Krupp, at Essen. Work in the Rhinish-Westphalian industrial regions is at a standstill in many places.

REVOLUTION AN ACCOMPLISHED FACT.

COPENHAGEN, Nov. 11. (By the A.P.)—The revolution in Germany is to-day to all intents and purposes an accomplished fact. The

revolt has no yet spread throughout the whole empire but fourteen of the twenty-six states including all the four kingdoms and all other important states are reported securely in the hands of the revolutionaries.

LIGHTS ON.

PARIS, Nov. 11. Hearing the good news that the armistice was actually signed, the authorities had ordered the bling cleaned from the street lamps and the cafes were lit from the arc lamps outside for the first time in years. The boulevards had an appearance of animation and gaiety but there were no boisterous outbursts. The people apparently were waiting for the bells to ring out the news of the close of the tragedy which has cost France two and a half millions of the flower of her sons.

THE OLD, OLD STORY.

LONDON, Nov. 11. (By the A.P.)—The Irish Nationalist Party is sending to President Wilson a manifesto appealing for assistance in settling the Irish question. The document quotes at length from President Wilson's great utterances on the war "which we held justified us to enforce the demand we have made for our nation on the British Government."

DETHRONED.

COPENHAGEN, Nov. 11. King Friedrich Auguste, of Saxony, has been dethroned, according to an official telegram from Berlin.

STRIKE EXEMPTIONS.

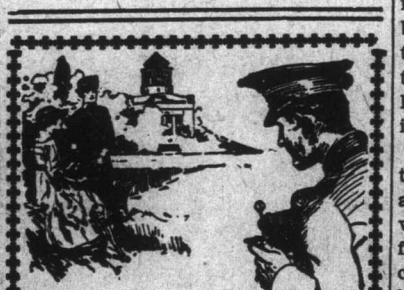

LONDON, Nov. 11. The Soldiers' and Workmen's Council, according to a German wireless message picked up here, has decreed that public utility employees, physicians and domestic servants are exempted from the general strike. The German Independent Socialists have proposed Dr. Karl Liebknecht, Hugo Naase and Herr Both, as members of the Government.

SO SAY WE ALL!

MONTREAL, Nov. 11. Great historic wrongs have to be righted and great criminals called to account now that the armistice has been signed, Sir Thomas White, acting Prime Minister of Canada, stated here to-day. Sir Thomas said that if those who have conspired against the peace of the world, who have brought unspeakable woes and calamities upon stable and under whose direction brutalities of inconceivable barbarity have been perpetrated in subversion to the laws of nations and of humanity are not brought to punishment for their momentous crimes, it will be the greatest failure of retributive justice in the annals of history.

EARNED RIGHT TO CHEER.

LONDON, Nov. 11. Premier Lloyd George spoke to cheering and enthusiastic crowds in the streets saying: "The war will be over by eleven o'clock. This Empire has done a great deal to end the war and you are now entitled to

A great cheer of approval came from the crowds as they pushed eagerly to get within hearing distance of the Premier, who spoke from the steps of his official residence, Downing St. The crowds had been called from their offices and the streets by the firing of the former air raid signals. Winston Churchill, Minister of Munitions, was given an enthusiastic ovation when he approached the Ministry in an auto.

U. S. NAVY WILL NOT DEMOBILIZE.

WASHINGTON, Nov. 11. Secretary Daniels announced to-day that no immediate steps would be taken towards demobilizing any part of the naval forces of the United States.

SENSATIONAL HUMORS.

PARIS, Nov. 11. (Havas.)—Many sensational rumors became current here as a result of the news of the signing of the armistice between the Allies and Germany. These reports were to the effect that Prince Ritel Frederick, the second son of William, was prevented from committing suicide and that the Empress was dying. There German generals are said to have committed suicide.

FIGHTING IN BERLIN.

BASEL, Nov. 11. Fighting between revolutionary forces and Imperial troops was still going on in Berlin on Sunday morning. The struggle which began Saturday evening, broke out afresh at nine o'clock Sunday morning. The heaviest fighting was in front of the Victoria and Bamer Cafes and the library of the Arsenal, near the Lust Garden, where officers, military cadets and boy scouts were fortified.

DANTZIG JOINS REVOLUTION.

Note From Board of Trade.

ST. JOHN'S, Nov. 11, 1918. Dear Sir,—I have been instructed by the Council if the Board of Trade to ask if you would kindly publish the enclosed copy of a letter recently written by the Council to the Reid-Newfoundland Company. I am further instructed to say that Mr. Taylor personally informed me that he had no intention of answering this letter. I have the honour to be, Sir, Your obedient servant, for and on behalf of the Newfoundland Board of Trade, ERNEST A. PYAN, Secy.-Treasurer. Editor Evening Telegram.

(COPY.)

Newfoundland Board of Trade, November 1st, 1918. E. W. Taylor, Esq., General Freight Agent, Reid-Newfoundland Co.

Dear Sir,—At a meeting of the Council held this morning, the matter of the big delay in the loading of the s.s. Fogota this week, resulting in the loss of valuable time and money to Shippers, was discussed.

In many cases persons who left with loads at 9 a.m., returned with their loads at 2 p.m., resulting, not only in the loss of a whole morning's work, but also a cash loss to the Shippers of from Four to Five Dollars per load.

It appears to the Council that this state of affairs is most unreasonable, and they are of the opinion that there must be some way of eliminating the bulk of the trouble. A great deal of this trouble was without doubt due to the premises at which the vessel was loaded, which, in the Council's opinion, is totally unfit for such work.

A lot of delay to a large number of the cargoes might also have been avoided, as early in the forenoon it was quite evident that the freight was far in excess of the steamer's capacity, and the cargoes should then have been advised to bring freight back to shippers.

I am directed to write this letter as a result of complaints made to the Board by the Trade generally, and if at all possible, the Council urge that at another time more suitable premises be obtained, and more checkers be put on, so that quicker despatch may be afforded cargoes.

I have the honor to be, Sir, Your obedient servant, for and on behalf of the N.F.L.D. BOARD OF TRADE, (Sgd.) ERNEST A. PYAN, Secretary.

Wonderful New Shell.

A new shell which was extensively used by the French in the recent offensive is said to be of British invention.

Like many other men whose discoveries have startled the world, the inventor is of obscure station—a small watchmaker in a little Buckinghamshire village, unknown to the outside world, completely indifferent to fame, and content so long as he can earn a moderate living for himself and his wife. It is said that he made the discovery purely by accident.

The shell was elaborated and perfected. Then it was offered to our own authorities. The usual correspondence followed. Delay followed delay and obstacle on obstacle and at length the authorities "turned it down." The

watchmaker, convinced of the value of his discovery, and undaunted, offered the shell to the French. It was immediately accepted.

The watchmaker is still to be seen in his shop, apparently oblivious of the fame which must eventually come to him.
