Guelph Evening Mercury

FRIDAY EVENING, AUGUST 1, 1873

Town and County News.
FAY & HARCOURT.—This entertainment—the dark scene and the necromancy—comes off to-night at the town hall.

BEIL'S PIANO AND ORGAN FACTORY.—All hands are in for a day's fun at Paulineh Lake on Saturday week, August 9. The party will be large, and a high old time is expected—weather permitting.

ST. ANDREW'S CHURCH SUNDAY SCHOOL.—The annual picnic comes off to-day at Mitchell's grove. That delight of the juveniles, John Griffith and his merry-go-round horses, is engaged to conduct the fun of the day.

GUELPH SEWING MACHINE FACTORY.—The employees of this establishment leave the market place to-morrow (Saturday) at twelve o'clock, in wagons, to have a picnic in Mitchell's grove. Some athletic sports are on the programme.

The Guelph Herald says that "the Dundas Drill Shed has three whole panes of glass—the remaining 9997 having been broken by bad boys." Truth compels us to state, however, that the glass was mostly broken when the editor of the Herald used to "throw" found this burgh—Dundas Banner.

The Wesleyan Sabbath School picnic last Friday and the social on Monday evening in Drayton, passed off with satisfaction to all. The supply of provisions was most ample as well as good. The singing of the children, led by Messrs. Healey, was very fine, eliciting repeated applause. The school is reported as being in a very flourishing condition, and received from this festival some \$48.

ACCIDENT AT DRAYTON.—While a son of Mr. Wright was drawing rails on a lot of Mr. Trask's, near the station, the team became unmanageable and overturned the wagon, laden with rails; the boy leaped to a distance, thus saving himself from being crushed beneath. Dr. Ennes was called and found the shoulder dislocated, which he adjusted to the comfort of the boy, and sent him home resolved to be more careful in the future.

HANDSOME PRESENT.—Mr. John Hayes, Agent in Dundas for Mr. Geo. Slesman, of Guelph, was agreeably surprised the other day on receiving per express a very fine hunting-case silver watch and chain, accompanied with a kind letter from his employer, in which he was asked to accept of the present as a slight token of Mr. Slesman's appreciation of his integrity and business ability. Mr. Hayes is justly proud of this mark of appreciation on the part of his employer.—Banner.

A FIGURE-SHOOTING MATCH came off on Wednesday afternoon between two "teams" of six a side, led by Messrs. John Hewer and Thomas Hewer respectively, on the common near the Rifle Range tavern, York Road. Mr. John Hewer's side won by a score of 32 to their opponents' 25; and a supper together at Mr. King's finished the day. The sides were as follows:—John Hewer's, Messrs. Holliday, Black, Root, E. Henry and A. Sharp. Thos. Hewer's, Messrs. John West, J. Black, Blain, H. Henry and Smith. The supper was the stake.

YOU AND I.—We have been looking over this galop, sent us lately by Mr. Anderson. It is in the keys of E flat and B flat, and requires considerable execution to give it full effect. The introduction is oddly arranged, and to our mind a little ungraceful. The melody which follows is full and rich, ending with a pretty pianissimo riascote movement. The queer introductory melody again comes in, followed by another softly played movement, and concluding with a da capo, bringing in the two first melodies of the piece.

GARAPAXA is a remarkably fine township, but in the matter of good roads and bridges some parts of it are much behind the times. It is ridiculous to thing that in order to reach Little Toronto from the North-Western limits of the township one has to travel down to the Boston House, and as far back again up the 11th or 12th line, as one has to come down the 6th or 1st. Clops look splendid. Hay, though light in some places, turned out much better than was expected. And such a yield of grain has not been reaped in the township for many years as is promised this season. Fall wheat, peas, and oats are extraordinary, and spring wheat is a good average crop. The harvest of fall wheat will commence in a few days, some of it being ready for the reaper now. Potatoes look splendid, and promising an extra crop. Turnips will be short in some places, while others will have plenty.—News Record.

POLICE COURT.
Before T. W. Saunders, Esq., P. M.
Friday, August 1st.
E. Henry was charged by the Chief Constable with vendng contrary to the Town By-law. Dismissed.
John McHardy was charged by Bernard Kelly with assault. Fined \$1 and costs.
A sharp newsboy on a Pennsylvania railroad train stole a watch from a sleepy traveller the other day, near Harrisburg. The traveller discovered the theft, and had the boy searched, but found no watch. The urchin, in a sarcastic way, suggested that as they had gone to the trouble of searching him, perhaps they might waste a little more time by searching a couple of bags of peanuts which he carried with him. They accepted the kindly suggestion, much to the youth's discomfiture, found the watch, and the boy is now in jail at Lancaster.
A case of typhus fever has made its appearance in Toronto.

Local and Other Items.

SHERRY McDONALD, of Goderich, died on Thursday morning from injuries received by a fall he got about a week ago.

FINES.—The combined Dominion Harvesters of Hensley & Co., Dundas, carried off the first prize at the great match near Ottawa.

WATERLOO NORTH RIDERS AGRICULTURAL SHOW.—The annual exhibition of this Society will be held in Waterloo village on the 30th of September and the first of October.

A NEW CAVE, it is announced, has been discovered at Niagara Falls, under the American sheet of water, similar to that known as the Cave of the Winds. Steps will be taken to explore it.

The Narrow Gauge is to be opened for traffic between Toronto and Owen Sound, on the 9th of August. One train a day will be run each way, until the road is completed, in September, when a "grand opening" will take place.

The Great Western Railway, in view of the rapidly increasing business flowing through Port Stanley, have decided on important additions to their yard and pier accommodation at that place.

GALT—THE BRANCH LINE.—The rails on the Grand Trunk are now laid to the station building at Galt. The first construction train arrived on Thursday. It is expected that the line will be opened for traffic immediately.

The Welland correspondent of the St. Catharines News reports that while the excursion train on the Great Western Air Line was running between Marshville and Darling Road, about ten o'clock yesterday, a man named Campbell, a resident of Cayuga, fell between two of the cars and was killed.

SAD ACCIDENT.—Mr. William Roberts, of South Easthope, drove a reaper over his three year old son on Monday, and cut the bone of his leg clean through, leaving his foot hanging by a piece of skin. The boy had been playing in the field, but the father had not noticed him, hence the accident.

A YOUNG MAN in Montreal stepped on a nail recently; for about six days he felt no great inconvenience, the wound healed, and nothing was thought of the matter. After some time he felt stiffness in his back and legs, he got rapidly worse, and yesterday was attacked with lock-jaw and pronounced hopeless.

MOLTEN BRASS.—At Hamilton on Thursday, a moulder in Young's brass foundry allowed the ladle from which he was pouring the liquid metal, to drop into a bucket of water; the result was an immediate explosion. The hot metal flying into the man's face, inflicted burns of a very serious nature. It is thought he will lose his eyesight.

COLONEL PETERS, of the Canadian team, has presented Earl Dine with a fine sporting trophy in the shape of a moose head and two heads of the Caribou deer, handsomely mounted. The gift was on the part of the Dominion of Canada Rifle Association, as an acknowledgment of his lordship's kindness to the Canadian riflemen who competed at Wimbledon 1872.

The Duval-Macnaughton rifle, a Canadian invention, has been tried at Wimbledon, and attracted much attention. The English press mention it favorably, and the London Post gives a minute description of its mechanism, rating it considerably above the Martini-Henry, and in fact is inclined to think it the most superior weapon yet produced for troops.

KILLED.—Last Tuesday evening, near Yarmouth Centre, about four miles east of St. Thomas, a young man named Charley Howell lost his life. The horse which he was driving took fright, and one of the reins breaking, the frightened animal ran into a ditch, throwing Howell out, breaking his neck and killing him instantly. The deceased was a married man, 24 years of age, and has been in Canada six years. He formerly acted as servant to Sir John A. Macdonald, and was also at one time servant to Lieutenant-Governor Howland, and porter at the Rossin House, Toronto.

FATAL ACCIDENT.—On Wednesday evening of last week a lad nine years of age, son of Mr. Wm. Woods, jr., of Mornington, was working with a horse and hay rake. The horse took fright, ran away and upset the hay rake; one tooth ran into the boy's left side and another the right side. Dr. Philip was sent for and found about five feet of the bowels protruding from the wound on the left side, and the wound on the right side extended into the liver and stomach. The doctor returned the bowels, dressed the wounds, and did all that was possible to alleviate the boy's sufferings, but at the same time informed the parents that the wounds were fatal. The boy only survived twelve hours after receiving the injuries.—Listowel Banner.

The editor of the Waterloo Chronicle having "gone on his travels" that paper in announcing the fact remarks:—The present occupant of the editorial chair is young but valiant, and though beardless, his pulses throb with all the noble emotions of true manhood, and he is determined not to allow the Chronicle to deteriorate under his management. Not a spark shall be wanting in the fire of its editorials, not a scintillation in the play of its witlessness, not a hit shall be missed in its local. With a sharp steel pen he will poke the Town Fathers, faithfully he will transfer to its columns the Police Court intelligence, and boldly will he maintain the rights and liberties guaranteed to us all by the glorious British Constitution. And if the readers of the Chronicle are not satisfied "so," he will resign as soon as the "boss" comes back, and just let him run his old machine in the old rut again as long as he pleases.

Dominion of Canada Rifle Association.

The annual matches in connection with this Association take place on the 16th of September next, at Ottawa. We abstract the following synopsis of prizes from the official list, which we have just received, and which contains also the regulations for the contest:—

All Corners' Match—open to all direct or affiliated members of the Association. Eight prizes, total \$270.

Battalion Match—to be competed for by squads of six officers, non-commissioned officers, or men. Four prizes, total \$175.

The McDougall Challenge Cup, value \$200 (presented by Mrs. P. L. McDougall)—open to efficient Militiamen, being members of the Association. The cup to be the property of the member winning it twice consecutively.

Dominion of Canada Match—Open to all certified efficient members of embodied corps of active militia, members of the staff, and retired officers, who are also members of the Association. Twenty-three prizes, with badges, total \$450.

Senate and House of Commons Match—open to members of the Senate and House of Commons, being in the Militia, on the staff, or retired officers. Four prizes, total \$180.

London Merchants' Cup—to be shot for by five competitors from each Province. Efficiency and certificate as in Dominion match. Four prizes, total \$130.

Prizes to Highest Aggregate Scores—to be awarded to competitors making the highest aggregate score in the "All Corners' Match," "Dominion Match," "McDougall's Cup Match," and the "Senate and House of Commons Match." Medal and three prizes, total \$46.

Suicide at Hamilton.
On Wednesday afternoon a distressing case of suicide took place in Hamilton. During the morning Mrs. Stephenson, wife of John Stephenson, a sub-foreman in the bolt-shop of the G. W. R., was not observed to be acting at all strange; but while away, or on her return home to No. 133 Lecke Street North, she bought a pint of whiskey and an ounce phial of laudanum. She made her appearance at home about half-past 11 o'clock, but it was not for nearly half-an-hour later that her aunt noted anything peculiar in her conduct, though she had been drinking the whiskey. Mrs. Stephenson, by this time, lying in a deadly stupor, and the laudanum bottle being found empty, the woman in the house sent the shop for the husband. When he came he saw that his wife had evidently poisoned herself, and he at once sent for Dr. Bullen, who found the deceased in a perfect state of coma, and he was unable to rouse her. The strongest remedies failed to act, and the stomach pump was useless as an artificial working was commenced. The woman lay like a corpse, and all the symptoms were those of poisoning from an overdose of the deadly drug. Mrs. Stephenson continued in this state until about 8.30 o'clock when she died. The verdict at the inquest was that "the deceased came to her death by an overdose of laudanum."

Milk as Medicine.
Considerable has been lately said in medical journals concerning the value of milk as a remedial agent in certain diseases. An interesting article upon this subject lately appeared in the London Milk Journal, in which it is stated, on the authority of Dr. Benjamin Clarke, that in the East Indies warm milk is used to a great extent as a specific for diarrhoea. A pint every four hours will check the most violent diarrhoea, stomach ache, insipient cholera, and dysentery. The milk should never be boiled, but only heated sufficiently to be agreeably warm, not too hot to drink. Milk which has been boiled is unfit for use. This writer gives several instances to show the value of this simple substance in arresting the disease, among which is the following. The writer says:—"It has never failed in curing in six or twelve hours, and I have tried it, I should think, fifty times. I have also given it to a dying man, who had been subject to dysentery eight months, latterly accompanied by one continual diarrhoea, and it acted on him like a charm. In two days his diarrhoea was gone, in three weeks he became a hale, fat man, and now nothing that may hereafter occur, will give shake the faith in hot milk." A writer also communicates to the Medical Times and Gazette a statement of the value of milk in twenty-six cases of typhoid fever, in every one of which its great value was apparent. It checks diarrhoea, and nourishes and cools the body. People suffering from disease require food quite as much as those in health, and much more so in some diseases where there is rapid waste of system. Frequently all ordinary food in certain diseases is rejected by the stomach, and even loathed by the patient; but nature, ever beneficent, has furnished a food that in all diseases is beneficial—in some directly curative. Such a food is milk. The writer in the journal last quoted, Dr. Alexander Yall, after giving the following observations on the points here mentioned, viz., its action in checking diarrhoea, its nourishing qualities, and its action in cooling the body, says:—"We believe that milk nourishes in fever, promotes sleep, wards off delirium, soothes the intestines and, in fact, is the one food in typhoid fever." We have also lately tested the value of milk in scarlet fever, and learn that it is now recommended by the medical faculty in all cases of this often very distressing children's disease. Give all the milk the patient will take, even during the period of greatest fever; it keeps up the strength of the patient, acts well upon the stomach, and is every way a blessed thing in this sickness. Parents, remember it, and do not fear to give it if our dear ones are afflicted with this disease.

RESIGNED.—The Rev. Mr. Hopkins, pastor of Knox Church, Dundas, who for sometime past has been in poor health, has seen fit to resign his charge.

THIS MORNING'S DESPATCHES

The Chicago Wheat Corner.
Fire in Boston.
Railway Employees Arrested.
Murder and Suicide.
The Cholera.
Affairs in Spain.

London, July 31.—The great race of the Goodwood meeting run for the Goodwood Cup took place to-day. It was won by Flaglet, Favonius, second, Cremorne third. No other horses ran.

Madrid, July 31.—The revolutionary junta at Granada has issued a decree directing the seizure of property belonging to the State, including churches, convents and bell foundries, the latter in order to obtain metal to coin into money. The insurgent junta at Seville has also issued a decree ordering a reduction of 50 per cent. in leases and rents of the general community, and a similar reduction in the prices of the necessaries of life, the closing of factories and the making of a division among the people of uncultivated lands.

Madrid, July 31.—The refusal of the authorities of Almeria to comply with the demands of General Contreras for a contribution of 500,000 pesetas was followed by an attack upon that city by the insurgents, fleet. After two hours' fighting, the insurgents made an attempt to disembark, but were repulsed by the national forces, and compelled to retreat to their vessels.

A despatch has been received at the Ministry of War announcing that the surrection in Seville has been suppressed and that the city is now occupied by the Government troops. The forces which were started by the insurgents were extinguished.

Madrid, July 31.—A despatch has been received from Seville, announcing that the insurgents have set fire to that city in four different places by means of petroleum.

The Cortes has resolved to proceed immediately with the consideration of bills providing for a new loan, the national armament, and the suppression of the right of pardon by the President.

The Civil Governor of Barcelona has seized the newspapers in that city for endeavouring to incite a mutiny among the national troops there.

The Cortes have adopted a resolution thanking the Republican troops at Almeria for their heroic resistance to the attack of the insurgents.

Chicago, July 31.—The excitement over the "corner" in wheat was not so great after the close of the regular change this p.m., and prices dropped to \$1.40, which appears to be the figure that the "ring" had set as minimum price for settlements. A good many shorts were settled at this price, but a few are still out, and will perhaps try to make a mark to-morrow forenoon upon which to settle the amount short. Wheat was much less than in usual in a "corner," and though some parties have been squeezed pretty hard there are no failures reported, and it is not believed that there will be any.

Boston, July 31.—There was a fire to-day, in East Boston, which destroyed a large brick building used entirely for storage purposes, the war-house, second story, and attic being filled with jute, hemp, gunny cloth, gunny bags; the ground floor and basement were nearly filled with sugar and saltpetre. Loss on building and contents \$375,000.

Crestline, O., July 31.—Twenty employees of Pitts-Ft. Wayne, and Chicago R.R. Co. were arrested yesterday for stealing goods from the cars of the Company.

Washington 1 a.m.—Probabilities for the Lake region—westerly winds and clearing weather, but with occasional local storms.

Philadelphia, July 31.—Edward Zultzerier cut his wife's throat to-day, then suicided by taking poison. Jealousy is stated as the cause.

Louisville, Ky., Aug. 1.—There were two deaths from cholera, at Lagrange, yesterday. The disease has entirely disappeared from other Kentucky towns, and no case originating here has appeared in Louisville for a week.

A robber went through a portion of the rooms in the Mansion House, Toronto, on Thursday night, and relieved several lodgers and boarders of money and other valuables.

The Toronto City Commissioner on Thursday seized six hundred loaves of bread, which were underweight.

Ten keepers of houses of ill-fame were brought before the Toronto Police Court on Thursday morning, but remanded.

The Grand Trunk conductors, arrested for embezzlement of the Company's funds, are to be tried on the 2nd of September. In the meanwhile they are liberated on bail.

A New York exchange says that it is believed now that efforts looking to young Walworth's pardon will be made in about six weeks by which the time tragedy which led to the young man's imprisonment will be pretty nearly forgotten. Certainly the coolness with which his friends permitted him to go to prison, making no effort for a new trial, was quite unnatural except on the supposition of future efforts in his behalf.

New York sporting men are betting two to one that Stokes will be a free man within six months.

A Belleville paper says:—During the past week Mr. Galling, of the Hawkeye Gold and Silver Mining Company, Marquette, shipped fifty tons of gold ore for Swansea, Wales, from Tremont. Some time since this firm consigned a quantity of gold to the same place, and the yield of gold was valued at \$67.70 per ton. Such facts augur well for the successful operations and business of the company in the future.

The wheat corner in Chicago has terminated, and Young & Company, of Montreal, are reported to have cleared \$125,000 by the transaction.
