

The Plain Truth...

Why Can't We Trade?

You can't go barefoot and we must do business. You will have to buy a pair of Shoes this week. Why not patronize the live retail shoe dealer of your town? Some retail shoe men are so slow they could be run over by a funeral, and yet some one must buy of them or they would close up. Come in and try us. If you don't like our up-to-date methods we shall have to let you go back to the old style dealers who haven't yet discovered that the shoe world revolves on its axis at least twice a year. Our stock of **LONG BOOTS** and **RUBBERS** is complete in every detail.

Your Advice Please

It would be worth quite a bit to us if we knew of some way to convince persons who have not used the White Drug Store Cough Mixture that it is one of if not the best cough cures made. We know it, people who have used it know it, but there are still many to be convinced.

How would you do it? Would you publish some of the testimonials we have? We've scores of them.

The whole difficulty is to get the people to try it. If they would they too would be convinced.

An Excellent Opportunity

The "Investors Fund" offers an excellent opportunity to invest capital where it will bring a regular monthly income. And the Surplus Profits are allowed to accumulate and compound will largely increase the original investment and also the income derived from it.

Its past success and the conservative manner in which it is conducted have raised it to a gratifying position of prominence and popularity, and it numbers among its investors many of the shrewdest and ablest business and professional men in the Dominion. The popularity of the "Investors Fund" is not confined to any class of investors as its plans of investment place its advantages within the reach of all.

Its past record is convincing. Last year we earned and paid investors in addition to the regular monthly dividend of 4 per cent. Surplus Profits averaging 6.18 per cent per month. NOT A DOLLAR has been lost to any investor through the "Fund" and we have not one dissatisfied subscriber.

The "Investors Fund" is NOT AN EXPERIMENT. It is conducted on sound business principles and only the most reliable of the standard Railway and Industrial Securities are dealt in.

The outlook for the "Fund" was never more promising than at the present time. We expect the next six months to be exceptionally active ones in financial centres and we look forward confidently to this period of increased activity which will assure larger earnings for the "Fund."

Briefly outlined its method of operation is as follows: The Investors are paid a regular monthly dividend of 4 per cent out of the Gross Earnings. A large percentage of the Surplus Profits are credited to investors and distributed or re-invested every three months as desired, and a portion of the earnings is set aside for a Reserve Fund. This Reserve Fund is the Investors safeguard as it reduces the risk on all our operations to a minimum.

THE PLANS OF INVESTMENT are arranged so that all may take advantage of them. Under the regular plan any amount from \$50 upwards is received for investment and certificate issued with monthly coupons attached. (These Coupons are endorsed by the holder each month as they fall due and forwarded to our office where they receive prompt attention.) We have also adopted a special monthly payment plan.

Write us for free booklet which explains everything.
