Attempt at Train Wrocking.

A dastardly attempt at train wrecking has come to light. It appears that on Monday night two rails were placed across the track of the St. Thomas and Port-Stanley road a short distance south of the Port Stanley bridge, between this city and St. Thomas. It was evidently intended for the M. C. R. passenger train passing about 9 p.m., but a heavy freight train went over just previously and forced the rails off the track. G. T. R. detectives are working on the affair.

Water Commission Matters.

At the meeting of the water commissioner. Thesday ovening, the communications of A. Johnson, A. E. Ashton and the Free Press Company respecting overcharges of water rates were laid over. Mrs. Godfrey's petition for remission of water rates was required the ending of the engineer and scretary will prepare the yearly estimate as required by the City Council. The engineer reported that the Board had overcharged Mr. Fox to the extent of \$5, and that amount will be refunded. The consideration of the list of supplies was laid over. Mayor Taylor was the only absentee.

Reception to Students.

Reception to Students.

The students of the medical department of the Western University and also the students of the Forest City Business College by invitation attended the reception of the London Y. M. C. A. Tuesday evening. An extemporaneous address was delivered by Dr. Arnott, of the Western University, on the intellectual, physical and moral development of the faculties of the medical student, which was listened to with rept attention. Principal Westervelt, of the Forest City Business College, delivered a short address, which was also very well received. The entomological department was kindly opened to the students, and Prof. Bowman, of the Medical School, spared no pains in entertaining the visitors by numerous microscopic observations. Among those present were noticed the following from the Medical School: Messrs. A. E. Franklin, John D. McLean, S. S. Hausen, F. Hughes, R. J. Williams, W. S. McDonald, H. A. Stevenson and many others. There was also a number of ladies and gentlemen from the Forest City Business College.

W. C. T. U.

The meeting of the W. C. T. U. was opened by a reading of the Scripture, singing and prayer. The new names nominated were: Mesdames Taylor, Wright, Carson, Pheasant, Bucke, Williamson, McClure, Somers, Blackwell, White, Miller, Richardson, Smith and Arthurs. Reports from the various superintendents of departments were read. Mrs. Jones reported an attendance of between 50 and 60 at the Industrial School—a number for which they have scarcely a sufficient supply of teachers. Mrs. Beals, on behalf of "Purity in Literature and Art," has visited Castom House and Opera House officials for the prevention of the posting up of questionable posters. Mrs. Williams, superintendent of literature, enumerated the number of public places where temperance literature is distributed. Two thousand leaflets are utilized weekly for this purpose. Mrs. Sage, of the evangelistic work, related some pitiful tales of destitution. On the subject of scientific temperance instruction in our public schools the president, Mrs. Thornly, gave a most intesting report. The difficulty with the temperance text books now authorized is that they are not graded.

Let our barley growers ponder on what this means. A barley farm having twenty acres under seed, and producing 30 bushels to the acre, will give the farmer \$180 more under a Reform Government and unrestricton the acre, will give the farmer \$180 more under a Reform Government and unrestricted reciprocity than he can hope to get under Tory rule and 30 cents a bushel duty on his barley crop entering into the States. This is an illustration on only a small portion of what our farmers grow, but enough to show any unbiased person that the barley grower will surely be benefited by a change of Government, and we may point out that the same \$180 would be spent by the farmer in buying from the neighboring merchants, blacksmiths, carpenters, wagon builders, harness makers, such goods and articles as he and his family require. Every storekeeper would promptly feel the benefit flowing from the prosperity of the farmer and so on through every avenue and channel of commerce.

Is the Road to Wealth.

## HAVE YOU EVER STUDIED IT?

Some people think LOW PRICES and GOOD QUALITY have no relationship. We can prove that we give both.

A great many consider economy is meanness, and frugality the next door to poverty, and extravagance the next door to good breeding.

Economy is wealth; Economy increases one's comforts; Economy does not lighten the purse; Economy in time is effected when you know where to go and what to buy; Economy in strength re-sults by saving yourself unnecessary shopping. Economy in CASH follows.

Time Saved! Strength Saved! Cash Saved!

Such is the Economy We Inculcate.
