BIG BLAZE IN WINDSOR.

The Brush Factory and McKee's Stables Burned—Losses \$10,000.

WINDSOR, Ont., July 30.—At 4 o'clock this morning fire was discovered in the factory of the Canada Patent Brush Company on Church street. When the fire department arrived the factory was filled with inflammable material and surrounded with barns, frame houses and lumber piles. Fifteen minutes after the fire was discovered the brick factory and the frame office and warehouse close by were enveloped in flames, which spread to the barn of W. J. McKee, containing five horses, which were removed with the greatest difficulty. When the lumber pile began to burn another alarm was sent in, which brought the fire department to the scene. After a hard-fought battle of two hours the fire was got under control, the brush factory, together with the office and warehouse, was totally destroyed, as was also a large barn belonging to W. J. McKee. Loss on factory will be about \$15,000, with insurance of between \$8,000 and \$10,000. McKee's loss on barn and lumber will be about \$1,000. It was the most extensive fire that has taken place in Windsor for a number of years. Between 50 and 75 hands are thrown out of employment.

A COMMON DANGER TO THE BABIES!

The commonest article of infant nourishment, and perhaps the most dangerous is cow's milk. It is, without doubt, the most unwholesome substitute for mother's milk that is brought into the home. While it is hard to digest, it is also insufficient in nourishing elements. Cow's milk frequently carries the seeds of serious diseases, and is the originator of many intestinal troubles. Nine cases out of every ten of infants attacked with fatal summer complaints are the direct result of the use of cow's milk as an article of diet.

All thoroughly wise and careful mothers use Lactated Food for their babies, instead of the doubtful cow's milk now carried from street to street under the sun's burning rays. This Lactated Food is the only perfect substitute for mother's milk ever prepared. It nourishes and strengthens the infant, and is a safeguard against dysentery and cholera infantum. In summer when the baby is weak, cross and nervous, Lactated Food is the only diet that can save its life.

The manufacturers will send free a full-sized can to any mother who has not yet given it a trial. If the name and address is sent to the Wells & Richardson Company, Montreal, the Food will be forwarded without delay.

—All persons interested in the formation of a lacrosse club in this city are requested to meet at the Griggs House on Tuesday evening.

—Twenty-sixth Middlesex Battalion—No. 1 company, Delaware: To the second lieutenant, William C. Walsh, vice Edgar Weld.—(Gazette).

—Building permits have been issued at the city engineer's office to Albert Beattie for a \$1,000 frame residence at 737 Princess avenue and to David Black, Queen's avenue, for a \$1,000 residence.

—Mrs. Alex. Tait, of Exeter, formerly of this city, is visiting her sister, Mrs. A. Hicks, London South, and intends leaving for Sarnia and Chicago in a few days. She will be gone for two months.

—The Grand trunk now has all its extra equipment in service, and also all the engines and passenger coaches which it has leased for the summer travel. They are having all they can attend to.

—A writ of \$5,000 damages has been issued against the C. P. R. by the Portuguese passenger, Canon, and retained in the recent accident at Komoka. The patient is still in the hospital here.

—News has been received that Mme. Rhea, the actress, married her leading man, W. F. Hart, just after the arrival of her company in Paris. Mr. Hart is 25 years old, about twenty years the junior of his wife. He is comparatively new in the theatrical business. He has been with Mme. Rhea's company about one year. He was formerly with Robert Downing.

—F. W. Barkwell, M.D., of London, Eng., brother of Mr. W. S. Barkwell, well-known physician, Canon, and retail druggist, this city, and cousin of Rev. J. W. Barkwell, M.A., the talented pastor of the Gerrard Street Methodist Church, Toronto, was a passenger on the steamer Parosian, which arrived from Liverpool last night. He is highly pleased with both Toronto and London. Dr. Barkwell has a large practice in the English metropolis and hopes to return with improved health.

—On June 9 last an organ was stolen from the Hammond Temperance lodge in London West. Two blacksmiths who were brothers-in-law disappeared about the same time and suspicion was aroused that they knew something about the missing organ. It was afterwards recovered from a second-hand dealer, who purchased it on the market. Friday Village Constable Ward went out to Hyde Park and arrested James McPherson, one of the blacksmiths, on the charge of larceny of the organ. He was remanded until Aug. 2.

—Friday evening the members of the Elizabeth Street Christian Church held a social in the school room, at which a hearty welcome was extended to the pastor, Rev. Mr. Fowler, and his family, who have just returned from a lengthy trip in West Virginia. Speeches expressive of pleasure at the pastor's return were made by Messrs. Clark, Rowe, Connor, Brown, Giles and Col. Jack United States consul. Mr. Fowler replied feelingly and made a few philosophical remarks on the seclusion (which did not trouble him) which affected his fellow-passengers. Songs were given by Miss A. Smith and Messrs. Warren, Roberts and Smallman, and refreshments were served by the ladies of the church. The schoolroom was fitted

up in a neat and tasteful fashion, and the evening was a thoroughly enjoyable one. The Water Was Shut Off.

The water inspectors seem determined to enforce the latest notice allowing the sprinkling of lawns only in the morning. A resident of South London was quietly sprinkling his lawn Friday night when the water gave out. "That's queer," he thought to himself, as he put up the hose, "maybe something has gone wrong at the waterworks." A little while afterwards he asked a neighbor if he knew why the water had given out. "Mine's all right," answered the neighbor. This set the southerner investigating, and he shortly had the satisfaction of knowing that the inspector had been passing while he had been watering the lawn and had quietly shut off the water from the sidewalk and passed on.

Death of Mr. D. Leonard.

Word has been received of the death in Chicago of Mr. Deles Leonard, youngest brother of the late Senator Leonard and of Mr. L. C. Leonard, this city. Relatives in the city have received only meager particulars. Deceased many years ago lived in this city. He leaves a family.

A Successful Affair.

Maple Leaf drill corps, No. 16, A. O. F., gave a very successful exhibition drill, ice cream social and dance in the Agricultural Hall, Queen's Park, last night. The boys drilled with the precision of trained soldiers, under the command of Capt. Fred Showler. They were tendered hearty applause during the evolutions. The rain during the evening cooled the air for dancing, and many young people tripped it until early morning. The counter was waited on by Miss Gould, Miss Hughes and Mrs. J. W. Reynolds, Companions of the Forest. The committee was composed of Messrs. W. Adams, Walter Richards, C. Bear, T. C. Barrett, George Ewen, John Watkins, Thos. Wilkie and George Walters.

A Disgraceful Row.

Yesterday afternoon John Mitchell and Thomas Murray visited the residence of Mrs. Esther Barnes (nee Forsyth). While there "Joker Cavenner and two companions—the latter described as tramps, are unknown in this vicinity—put in an appearance. Drinking led to quarrelling, in which it is said Cavenner and his unknown companions were the aggressors, and the row appears to have lasted for an hour. The premises, including the furniture, were badly dilapidated. After the belligerents had knocked everything within the building "into a cocked hat," they transferred their operations to the street, and stones were hurled at the bystanders. Mitchell and Murray were soon attracted, but on his appearance the roustabouts took to flight, and have not been apprehended. Informations have been laid before the police authorities. Mrs. Barnes and her unknown companions were badly used, and Mitchell had to be attended by a physician.

A Serious Runaway Accident.

The Danish colony at Pottersburg came within an ace of being reduced by one this morning. About 10:30 Hans Mattison the foreman at the Canada Picking factory was driving a heavy load of mead from the factory to the city store. When opposite Shul's drug store, in the East End, he turned out to pass another rig and in turning back one of the front wheels caught in the street car track and went to pieces with a crash. The other wheel followed suit and the wagon lurched forward, scattering the horse and causing him to run away. The animal was of heavy build and was drawing a heavy load and could not travel very fast at first. The Dane, finding he could not stop the animal, commenced to climb out. He got tangled up in the lines and landed on his back with the lower part of his body underneath the rig, which was travelling on its front axle. His legs caused an obstruction and served to stop the animal, causing it to stop and drag several yards. Some bystanders took hold of the horse and the man was extricated. He was conscious and did not utter a cry. Dr. Gardiner assisted him into Metherell's butcher shop and examined him. His legs were badly bruised and crushed and his collar bone was broken. He may possibly have received internal injuries, as he was a very heavy man. He was conveyed to his home.

A New Church Paper.

Another journal has made its bow to the citizens of the Forest City. It is called the Wellington Street Methodist Monthly, and is published under the auspices of the Young People's Epworth League of Christian Endeavor. As its name implies, it is devoted chiefly to news of the Wellington Street Methodist church. It contains four pages, is about 10x15 inches in size, and is well printed on tinted paper. A life-like photo-engraving of the energetic pastor, Rev. J. R. Gundy, adorns a very prominent position on the first page. Following that are the daily services of the church in detail, and also those of the High street mission. The names of the officers follow and the rest of the first page is devoted to some interesting local items and nearly a column obituary notice of the late James Southcott. Mr. J. W. T. Park is editor, and he is assisted in his labors by Wm. H. Foot and Miss Jessie Taylor, associate editors. A salutatory editorial sets forth the aims of the paper and asks the assistance and co-operation of all. The Sunday school and other reading of interest to all connected with the church find a position in this new paper. It will doubtless be well received in its sphere of usefulness.

WILLIAM IN ENGLAND.

Germany's Emperor Arrives at the Solent—Royally Welcomed.

LONDON, July 29.—Emperor William, on board the Imperial yacht Hohenzollern, arrived in British waters this morning. Some miles east of Spithead the royal yacht Osborne with the Prince of Wales and a distinguished party on board, met the Hohenzollern and after exchanging signals with the German yacht, sailed in her company to Cowes, Isle of Wight. As the two yachts entered the Solent salutes in honor of the German Emperor were fired at Portsmouth and Cowes. The Solent presented a beautiful appearance, the water being studded with yachts and pleasure craft, all of which were decorated with German and British flags. The Emperor was given an enthusiastic reception. He will witness the races off the Isle of Wight during his stay.

Every lady in the land says Duncombe's Dark Pills for Digestion and Dyspepsia are at their command.

It is well known to bakers of bread that flour made from Manitoba hard wheat will make from four to five pounds more bread to the bushel than flour made from Ontario wheat. Hunt Bros. use half of this grade of wheat in all their bakers' flour, and one-third in their celebrated "Diamond Patent," which is sold by all grocers. Bakers of flour should bear this in mind and ask their grocers for this brand.

Sore Legs Cured by Royal Crown Remedy After the Cleverest Doctors in Canada Failed.

LONDON, June 20, 1880.

Dear Sir,—I was a great sufferer for years with one of the worst kinds of sore legs. I doctored a great deal with some of the cleverest doctors in Canada. They failed in making a cure. I was recommended to try your medicine. I got two bottles of your Royal Crown Remedy and one box of your salve; I used it according to directions. In two weeks after I commenced to use it I was able to go to work again. I feel much better in health, and the legs seem to be a sound cure from the bone. I can recommend it to the world at large.
