SCIATICA EXPECTED DEATH ANY DAY

Another Case Where Life Was Saved and Health Restored by "Nerviline"

We have all read and heard of the agonies of Sciatica, but only those who have been tortured by this dread malady can fully appreciate what it must mean to be cured after years of suffering.

It is because he feels it is his solemn duty to tell to the world his faith in Nerviline that Victor P. Hires makes the following declaration: "For three years I was in the royal mail service, and in all kinds of weather had to meet the night trains. Dampness, cold and exposure brought on sciatica that affected my left side. Sometimes an attack would come on that made me powerless to work. I was so nearly a complete cripple that I had to give up my job. I was in despair, completely cast down because the money I spent on trying to get well was wasted. I was speaking to my chemist one day, and he recommended 'Nerviline.' I had this good liniment rubbed on several times a day, and got relief. In order to build up my general health and improve my blood I used Ferro-China, one tablet with each meal. I continued this treatment four months and was cured. I have used all kinds of liniments, and can truthfully say that Nerviline is far stronger, more penetrating, and infinitely better than anything else for relieving pain. I urge everyone with lumbago, neuralgia, rheumatism or sciatica to use Nerviline. I know it will cure them."

There isn't a more highly-esteemed citizen in Westchester than Mr. Hires. What he says can be relied upon. For six years since being cured he hasn't had a single relapse. Don't accept anything from your dealer but "Nerviline." Large bottles 50 cents; trial size 25 cents. Sold everywhere, or the Catarthosone Company, Kingston, Ont.
