The Nova Scotia Assembly now stands prorogued until the 26th day of September next.

D. Lawlor, of North Sydney, C. B. has a cow that in two consecutive weeks produced 414 lbs. of butter.

I am offering now 150 kegs of iron and steel nails, and 100 boxes of Window Glass, at low figures.

A barrel of dulse frequently sells for more money in Boston than a barrel of flour.

Wm. Bent, for some time in the employ of the W. & A. R., left their duties on Monday last, to enter upon the service of engineering on the Nova Scotia Central.

Two lady missionaries have just left the province, for service, under direction of the Methodist Church of Canada, in far off lands.

The Liverpool Advertiser thinks it possible that Shelburne may yet adhere to the Atlantic and Annapolis railway scheme.

The attention of our readers is called to our correspondent "M's" excellent article on Good Stables and the Conservation of Manure.

Two hundred and eighty-three millions of pounds of cotton are expected to be produced in the 72 cotton mills of British India.

The aggregate trade of the Dominion for the first seven months of the year 1888 shows an increase of six millions of dollars, the increase, however, being chiefly derived from exports.

Mr. S. T. Nelly, of Lynn, Mass., called at our office on Friday, Mr. Nelly is a native of Aylesford, N. S. He went to the States several years ago after serving an apprenticeship in a printing office at Aylesford, and engaged with a large printing and publishing house there, and has since, after passing through the various stages of the printing business, returned to his native land to be foreman of the establishment in which he works.—Weymouth Times.

On Thursday afternoon of last week, Alice Craig, while in the act of swinging, had the misfortune to lose her leg broken. A Sunday-school festival was held on that day on the grounds of the Rev. Mr. Warren, Baptist minister, at the town, and it was on this occasion that the accident occurred. It appears that the seat fixed in the swing broke, and the child fell to the ground, when no attention being paid to her request, she attempted to stop the swing with her feet, the descending motion of the seat struck her leg, and it was in the trial to do this that her leg was broken. The fracture was of both bones, and the child was taken to the hospital, where she is now recovering from the injury. The child is doing well, and it is believed she will be able to recover her place among her playmates.

Persons.

A. J. Eaton, M. A., Ph. D., is on a visit to his relatives and the home of his childhood in Granville Centre. It will be remembered by some of our readers, at least, that Mr. Eaton fills the chair of Classics in the University of McGill, in Montreal.

Mr. Lenfest Ruggles has been spending a portion of his holidays in his native county. He informs us that times are lively in London, where he has been head master in the school for a year or more. We hope both he and his wife will find their visit a most agreeable one.

John B. Mills, M. P., the Hon. Geo. Whitman and H. E. Gillis were in town on Saturday. Mr. Mills expresses a strong opinion in favour of the Atlantic railway and thinks the meeting at Shelburne did not represent the wishes of a majority of the people of that county.

Rev. Mr. M. Young was in town last week. He has stayed his pastoral labors for a time, with a view to rest, before returning to the Western States.

Mr. Charles Davidson, of the firm of Davidson & Co., is at present doing business at Bar Harbor, where he is the guest of his relatives at the residence of J. G. Blane.

Shiloh's Consumption Cure.

This is a highly successful and successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while its wonderful success in curing Consumption is without a parallel in the history of medicine.
