Local Druggists Have Modern Remedy for Colds

A Vaporizing Salve which is Rubbed Over Throat and Chest for Colds.

When Vicks VapoRub, the "external" method of treating sore throat, bronchitis, deep chest colds, or croup, is applied over throat or chest, the ingredients are released as vapors by the body heat.

These vapors, inhaled with each breath carry the medication directly to the affected air passages, loosening the phlegm and relieving the congestion. At the same time Vicks acts as a counter-irritant, stimulating the skin, and thus helps the vapors inhaled to break up the inflammation.

Colds are usually relieved over night.

STORE AND HOUSE DESTROYED BY FIRE.

Tenants Escape Flames by Jumping From Upstairs Window.—Stallion Threatened.

Middleton—Kingston was visited by fire Wednesday evening which burned the store and tenement of Church Ward with the entire contents of the building. The store was leased by E. Burke who carried dry goods, furnishings and a general stock of men's and ladies' ready-to-wear goods. The fire started from the explosion of a kerosene lamp, and quickly spread before it could be extinguished.

Mrs. William Hatt, who lived in the tenement upstairs, lost nearly everything, furniture, clothing, etc. she barely escaping. So quickly did the flames envelope the interior of the building, her son, Freeman Hatt, was obliged to jump from the upstairs window to escape. Nearby buildings were saved by the heroic efforts of a bucket brigade, although the post office was entirely emptied of all contents. The D. A. R. station just across the street was also threatened. Mrs. Hatt carried no insurance, but Burke and C. Ward were practically covered.
