CANADIAN LIVE STOCK.—A deputation of Canadian live stock breeders left last week for Chicago in order to endeavor to interest the American Shorthorn Breeders' Association in a movement to secure the acceptance of Canadian live stock certificates in the United States. The party consisted of James Russell, Henry Wade, A. Johnson, John I. Hobson, Richard Gibson and Robert Miller.

Advertising in FARMING brings good results.

Machine weighs 17 pounds. It is more wonderful than a sewing machine and just as durable.

MORE HOME KNITTERS WANTED

To work at their homes under the direction of

THE CO-OPERATIVE KNITTING CO.

To fill large contracts—Good wages easily earned.

We want a few more workers in this locality at once, and in order to secure your co-operation without delay of correspondence, we herewith explain our full plan in this advertisement. The work is simple and the Machine is easily operated, and with the Guide requires no teacher.

Our Method of Doing Business

We wish to secure the services of families to do knitting for us in the homes. Our method is the same as adopted in England. We are the introducers of this plan and the largest knitting concern in Canada.

After long experimenting we have been able to produce an Automatic Machine by which all kinds of SEAMLESS knitting is now done by our Family Machine, thereby enabling any one of ordinary intelligence to quickly learn to do the work from the Instruction Guide. All we require is that you use the machine according to directions. The machine being made expressly for this purpose and the operation so simple, it cannot possibly make a mistake in its work.

A Pair in 30 Minutes

The great demand now is for Bicycle Stockings,* Woodmen's Socks and Motormen's Mittens, and as we are unable to supply the demand, have taken this method of advertising for more help.

The large export trade to North-West Territories, B. Columbia, and the British Colonies, furnishes an unlimited demand for our goods; and with the combined co-operation of the many families we are employing, together with the large amount of knitting we are able to turn out, by which we save rents, insurance, interest on capital, etc., enable us to undersell any factory-made goods, and we have sale for all the knitting we can have turned out.

The price we pay for finished bicycle stockings is \$10.00 per hundred, or at the rate of 10c. per pair; woodmen's socks, 5c.; and motormen's mittens, 12c. a pair. All other work in proportion to size.

The machine can be operated by any one of a family, and at our price any energetic family should be able to sustain themselves comfortably, and in time be a source of independent comfort.

Our plan is to send out each machine to beginners with a sock or stocking partially knitted, and remaining in the machine ready to be continued, and also enough yarn to knit one pair of sample socks or stockings, and a simple and complete Instruction Guide, showing how the work is to be done. When the samples have been finished and returned to us satisfactorily, we send a quantity of yarn, which you knit and return likewise when finished. We prepay charges on all work one way, and our workers pay return charges. The work, as we have stated, is simple and rapidly done, the machine having a capacity of ten thousand stitches a minute. We have many persons now in our employ who can knit from twenty-five to thirty pairs of socks or stockings a day, and where the time of a family is devoted to the work, you can readily see that \$15 or \$20 per week can be easily earned.

We furnish workers all the materials, yarn, etc., free, and everything that is necessary for the work. We are furnishing the machines only for the exclusive use of those desiring to take employment with us, who must, in order to become a member, send us this Contract Order Form, properly signed by them and at least one good reference and remittance accordingly, to give us the necessary assurance that the quantities of valuable yarn we may send from time to time will not be wasted or misappropriated. Our interests are mutual and this confidence must be established if we are to succeed. We guarantee fair dealing and prompt payment for work, so do not ask us to deviate from our terms, as we cannot make a distinction with one and not another; besides we are doing an extensive business and must be governed by business principles.

The manufactured price of the machine is \$20 and positively will not be sold to any others than those who will agree to do knitting for us, we expecting to derive a profit from the production of the machines, and labor of our employees.

If at any time after you commence and have done an amount of work equal to the purchase price, and wish to discontinue, we will take back machine and refund the amount paid for same, after deducting cost of our expenses only.

There is a Large Demand by the Trade for this class of Work. Our workers can depend upon it year after year, and if you engage with us (whole or spare time) we will keep you supplied with work as long as you do it satisfactorily for us and return it promptly. We entrust our workers with large quantities of valuable yarn, and as we give references as to our honesty and integrity, we must ask you to do the same, in order that we may know with whom we are dealing.

We have, in as brief a manner as possible endeavored to show you what our work is: and we simply say as to the machine, it is just what we represent it to be, and will positively do everything we claim for it, or refund the money. Each machine securely packed with an outfit, is set up for work, thoroughly tested and a sock or stocking partially knitted before boxing and shipping. Should you decide to engage with us, it will be necessary to send us Cash Contract Order Form, properly signed by you and at least one good reference, together with the remittance accordingly, upon receipt of which we will forward machine and outfit ready to commence.
