

THE FRENCH TEACHER

This work, the first part of which is published in pamphlet form, is the fruit of several years experience in teaching the French language, especially to English people.

It is offered as a useful auxiliary to the teachers of our schools, who desire to add a little diversion to their regular programme, and to lead their scholars to write and speak French by a less monotonous process than the one generally followed.

It cannot fail to equally stimulate the interest of advanced pupils, by its entirely new manner of presenting grammatical rules and the current expressions of conversation which are prolific of so much difficulty to foreigners.

Above all it recommends itself to those persons who desire to commence the study of French. By reading carefully each lesson and by doing the exercises indicated, they will be able in a short time to understand the language sufficiently well to express their thoughts properly.

A copy will be mailed on receipt of ten cents in postage stamps. Address Louis Tesson, 29 Mansfield Street, Montreal, or LE MAITRE DE FRANÇAIS.
