

“ Through the intercession of the Precious Blood, I obtained the cure of my husband who was suffering from an incurable disease, the success of many difficult undertakings, the grace of two cures for myself, and several spiritual and temporal favours.”

A lady of Yamachiche renders the following testimony to the Precious Blood.

“ Three years ago, my little girl, who was then nine years old, complained of sore eyes which soon prevented her from continuing her studies, and we feared that she would completely lose her sight. I went with her to the Monastery of the Precious Blood in order to solicit a novena which we made with the community. The novena finished, my daughter was so well cured that she could return to her class. It is three years since the cure took place and her sight has never been in fault. Therefore, what confidence have we not in the Precious Blood ”.

An ex-citizen of Three-Rivers, now residing in the United-States, had his face and especially his eyes horribly burned last year owing to the explosion of a lamp. The doctor's opinion was that he could not hope to recover his sight. A sad perspective for a man still young, a husband and father. By his family, he solicited a novena to the Precious Blood for his cure, which he hoped for only through a miracle. The cure was accomplished, and, a few months later, he visited his family, who attest that he had not only recovered his sight, but that there was not a sign left of his terrible accident. In his gratitude, he loudly proclaims that he owes everything to the Precious Blood ”.

“ Enclosed you will find the sum of \$1.00 in thanksgiving for a benefit obtained and for the fulfilment of a promise ”.

A religious of our order writes what follows :

“ A zealous friend of our work was employed in distributing our billets of affiliation. She offered one to a man who could be styled a free-thinker. He refused,
