

that this arrangement will enable many members of the profession who cannot spare the time in the afternoons, to make use of the library.

---

Dr. David Shirres, Clinical Assistant in Neurology to the Royal Victoria Hospital, has been appointed Professor of Nervous Diseases in the University of Vermont. Dr. Shirres will still reside in Montreal, visiting Burlington during each winter term for the purpose of delivering a course of lectures upon his subject.

---

The Committee on Pathologic Exhibit for the American Medical Association is anxious to secure materials for the coming session at Saratoga, June 10th to 13th, inclusive.

This exhibit was accorded much praise and comment during the sessions at Atlantic City and St. Paul respectively, where were collected valuable exhibits from all parts of the country. The materials included not only pathologic specimens but the allied fields, bacteriology, hæmatology, physiology and biology were well represented.

It would also be desirable to secure exhibits of new apparatus, charts, etc., used by teachers of pathology and physiology in Medical Colleges.

This exhibit has already become a permanent feature of the annual sessions of the American Medical Association and the Committee is desirous of securing its list of exhibits as early as possible, and to this end asks those having desirable materials to communicate with any member of the Committee.

To contribute to the value of the work, it is suggested that as far as possible each contributor select materials illustrative of one classification, and by such specialization enhance the usefulness of the display.

Those lending their materials may feel assured that good care will be given their exhibits while in the hands of the Committee, and due credit will be given in the published reports.

Very respectfully,

F. M. Jeffries, 214 E. 34th St., N.Y. City.

W. A. Evans, 103 State St., Suite 1403, Chicago, Ill.

Roger G. Perkins, West. Res. Med. School, Cleveland, O.

Committee on Pathologic Exhibit, American Medical Association.
