for those who use a

**No. 3<sup>A</sup> SPECIAL  
KODAK**

The high power of its Zeiss-Kodak Anastigmat lens (f.6.3) in connection with the flexibility of Speed control in the Compound shutter make snap-shots possible on days where a time exposure would be necessary with an ordinary camera.

The 3A Special makes pictures of Post Card size,  $3\frac{1}{4} \times 5\frac{1}{2}$  inches, using Kodak Film Cartridges. It has a rack and pinion for focusing, rising and sliding front, brilliant reversible finder, spirit level, two tripod sockets and focusing scale. The bellows is of soft black leather, and the camera is covered with the finest Persian Morocco. A simple, serviceable instrument, built with the accuracy of a watch and tested with painstaking care.

**Price, \$65.00**
