BOYAL ACCOUCHMENT.

LONDON, April 21.—The Duchess of Edinburgh has been delivered of a daughter. MR. PARNELL WINS A RENT CASE.

Dublis, April 19-In the suit to-day of Mr. Parnell against Mrs. West for three years' rent of one of Mr. Parnell's farms, a judgment was rendered it favor of Mr. Parnell. Mrs. West had sub-let the farm and the tenant to whom she had rented the place refused to pay the rent, and the defendant in the case to-day set up the defence that the subtenant alone was responsible for the rent.

NATIONALIST MEETING.

London, April 20.—At a great nationalist meeting held at Mallow to-day addresses were made by Mesers. O'Brien and William Redmond, M.P.'s. Resolutions were passed in favor of the independence of Ireland, peasant proprietary, justice to laborers and encoursgement to home manufacturers, and expressing admiration for the courage, eloquence and devotion of Mr. Parnell and the Irish party in Parliament.

WEST INDIAN AFFAIRS. AGUERO'S ADVANCE IN CUBA-A TYBANNOUS

OFFICIAL SHOT.

NEW YORK, April 21 .- A Havana leiter says that on the 6th instant Aguero appeared on the Plantation Mercedes de Junco where there is a post of civil guards and volunteers. He found three negroes in the stocks; these and others he liberated, placing the overseers of the slaves in the stocks. At Plantation Suris the party seized a large number of horses and impressed the overseers. On the 8th the party burned the headquarters of the olvil guard and railroad station and warehouse at Manquito. Several papers criticized the inability of the authorities to promptly annihilate these insurgents who are now so formidable. La Union Constitutional, of Colon, says that already this sadly celebrated bandit and his men have taken possession of their spared. Few, however, escaped general masold field of operations where, familiar with the territory and inhabitants, they will hold

in check large bodies of troops.

PHILADELPHIA, April 21.—Advices from San Andres Island in the Carribean Sea report that Preiect Tolado has been murdered. Tolado originally was a Spanish gambler. Arlon, a judge, and Tolado decided upon plan by which the revenue of the island could be increased. They ordered all children of natives to be taken from private schools or undergo imprisonment for filteen days or pay a fine of \$5 a month each. The natives refused to comply with the order and 25 of them were imprisoned. Tolado was shot on the night that he ordered 105 other natives to be imprisoned. After the assassing ation proclamations were posted by the liberal leaders calling on the natives to murder the Spanish officials.

EUROPEAN GOSSIP.

SEVURE ON AMERICAN GIRLS-A NUMEROUS FAMILY -UGLY VISITORS TO AUSTRALIA.

London, April 21 .- The London World, in a leading article, is very severe on American girls. It says that they are showy, restless, and totally devoid of all repose and personal dignity; that they have no idea of the carriage of a lady; that their only idea is to be "smart" and piquant, but that they lack the real graces of womanhood. American civilization, the writer says, is destined to evolve an inferior type of woman, whose influence on the future will tend towards the development of an inferiority in future generations

both mental and physical.

The gradual depopulation of France consequent upon the exceedingly small families has been the subject of much discussion by the Government. A Frenchman, however, has recently died at Megreve named Morand. He leaves fifteen children, sixty-five grandchildren and thirty-one greatgrandchildren. who was a native of England, came to Canathe benefit of our country readers. The question of the escape of the communist prisoners from New Caledonia into Australia is producing considerable friction between the governments of England and France. The English colonists are furious, and great pressure has been brought to bear upon the home government to induce them to act with a high hand. The Standard, in an editorial, takes M. Ferry to task for straining the relations between France and the only friend she has left in Europe. It points out that civilization requires that any country which shoots its refuse humanity at the door of another is bound to see that these dangerous elements are kept within bounds.

THE DYNAMITE PLOTTERS.

Calbo, April 20 .- A large number of refugees owing to the shortness of provisions left Shendy a few days ago in a steamer for Berber. The steamer ran aground on a sand bank near El Baala, and soon was surrounded by swarms of rebels who attacked the steamer on all sides, and massacred everybody on board. The fagitives numbered 450, including a portion of the Shendy garrison and many women and children. Nuber Pacha fears that before long the

spirit of rebellion will reach Assouan. He Isidore Beaudry, S.J., which sad event took has received a desponding telegram from place at the Hotel Dieu at 8,45 p.m. Thursday. The French government has assented to a modification of the law of liquidation, and agreed to support the English proposals for mancial reform in Egypt. No further

opposition is expected from any power. The reports that El Mahdi has been recently twice defeated by the Tegeba tribes cloak his movements.

Advices from Cairo state that Kassala is surrounded by 6,000 rebels, who fire into the town nightly. It is reported that Osman Digus, with 2,000 followers is sgain threat-ening Suakim, and that, if he attacks the town numerous neutrals will join him sgainst the Egyptians.

the force will be ready to start in six weeks.

The Paris Figaro's correspondent at Cairo combatants, preferring to make the hazardous attempt to march to Berber to starving inside Shendy, set out from the latter place on the 15th inst. Part of the number went slowly by steamer down the river, while the others marched along the river bank. When two hours' distance from Shendy they were attacked by Arabs, and after a short fight all the troops, excepting a few, were massacred. The Arabs afterwards captured Shendy. The Egyptian troops there had discarded their arms and uniforms in the hope of being sacre. Two thousand men, women and children were slaughtered. The deceased, who was of a kindly genial disposition and was possessed of a singularly retentive memory, was a native of County Donegal, Ireland, but spent the greater portion of his early life in Scotland, whence he came to this country. He had reached the venerable age of nearly ninety years, of which he only lacked a few months, and died respected by all who knew him.

DEATH OF THE BEV. FATHER

BEAUDRY, S.J. Many of our readers will learn with the most profound regret of the death of the Bev. out to this country in 1349. He spent 16 years in Quebec and 16 in Montreal. Last year he was sent to take charge of a French-Canadian church at Worcester, Mass., for several months, and afterwards sent back to Quebec. During the time he spent in Canada he preached missions in the dioceses of Montreal, Quebec, Three Bivers, Bimouski and St. Hyacinthe, which he carried out with great zeal and success. In the third week of Lent he gave his last mission at Hochelage, where he exhausted his strength, and in one instance fainted in the pulpit, but his pired last evening at the time mentioned above in the presence of the Blessed Sacrament. WEEKLY REVIEW - WHOLESALE MARKETS.

There has been uniform quietness since our last, and the wholesale trade appears inclined to pick up very slowly this spring despite the early opening of navigation. The inaction of the Grand Trunk in not putting its summer rates into effect just yet, may be exercising some influence, but any obstacle in this direction cannot long exist, and exists now, more in imagination than in reality, as many traders and their travellers are always finding fault with everybody except themselves. The ice has been moving rapidly out of the river, and opposite the city we have had clear water. Steamers will be leaving Liverpool in a few days for this port, and the Canadian shipping ing trade which has been dormant for so many months will again spring into life. This season we shall have a new and direct competing route to the Great West, as the Ontario and Quebec road completes the Canadian Pacific system westward from Montreal to Toronto and Chicago. The competition of this line with the Grand Trunk will, it is thought, not only break down the passenger and freight rates of the railways, but also bear severely on the grain rates of the targe and propeller lines, which trade from Chicago and Kingston down the St. Lawrence. Such a result would be of great advantage to the Ocean trade of the port of Montreal, as enabling us to enter the great American markets and buy grain for export to Europe on the same advantageous terms as regards rates of freight as New York shippers. And now a word of explanation regarding the Ontarion & Quebec Ry. for line of the railway, which runs from Toronto

will thereby be accelerated beyond all precedent. Day Goods .- The position of the cotton trade is putting new heart into manufacturers, The estimated supply of raw cotton in Canada is scarcely equal to a month's requirements, and further importations are cut off by the late sharp advance in the United States.
The demand will, therefore, be thrown upon the surplus stocks of manufactured cotton held in this city, for which at one time there seemed to be no outlet. This change has been brought about since the advance in the raw material has proved legitimate owing to the strong statistical position of the market, the present shortage in the world's supply being estimated at 1,500,000 bales. The price of raw cotton is 120, and is expected to go to 130 shortly. Then there is the output of the three mills for white cotton reduced to 600 looms, which it is claimed cannot supply half the demand. It is claimed that buyers have been very sparing in their purchases and will have to enter the market at the higher prices. Under the circumstances we hope to see a permanent change for the

tage of greatly increased railway facilities

and our growth in population and in wealth

GROODSIES-The sugar market was weak, granulated being quoted at 7\frac{1}{2}0 to 7\frac{1}{2}0, and yellows at 5\frac{1}{2}0 to 7\frac{1}{2}0 as to quality. At the decline, however, there is more enquiry and holders of granulated, it is said, are firm at Tio for any quantity below 500 barriels. Molasses is very quiet, Barbadoes being quoted at 41c to 420, Antigua at 36c to 37c and sugar house at 25c to 29c. Fruit is exceedingly quiet, the only demand being for choice brands of Valencia raisins, which are scarce and quoted at 51c. Poorer kinds are not wanted. Malaga raisins unchanged. Layers at \$1 75 to 1 90, loose muscatels at \$1 85 to 200, and London layers at \$2 20 to 245. Malaga figs, mais 420, boxes 60 to 70, 1 lb boxes 1220 to 150. Prunes dull at 40 to 50. 90. A NEW FIELD OF LABOR FOR WOMEN To the Editor of Tan Taus WITHESS: Sir, -Much has been written regarding pro-

per and remunerative employment for women, Silk culture, poultry raising and many other themes have been thoroughly ventilated and the result has no doubt been very beneficial. But there are many ladies who have no opportunity to raise silk worms or follow any employment of that kind. To this class I wish to open what to me was entirely a new field. Some three months ago an uncle of mine from Albany, N. Y., was visiting at our house. We were talking of platedware which he was engaged in manufacturing. To gratily my curiosity he made a plating machine and replated our knives, forks, spoons and caster; it only cost \$4 and it did the work periectly. Some of our neighbors seeing what we had plated wanted me to plate some for them. Since then I have plated twenty-two days and cleared during that time \$94.34. At almost every house I got from \$2 to \$3 worth of plating to do, and such work is most all profit, just for replating one dozen teaspoons I got \$1.75. This work is as nice for ladies as for gentlemen, as it is all indoor work and any one can do it; my brother, although he worked two days longer than I did, cleared only \$91.50. I am getting up a collection of curiosities. To any of your readers sending me a specimen I will send full directions for making and using a plating machine like mine that will plate gold, silver and nickle. Send small pieces of stones, ores, shells, old coins, &c., any kind of geological specimens will do. What I want is to get as many different specimens from as many different places all over the country as I can. Please address,
