ADDENDA VOL. VII.

—:—

Page 1354, 2nd col., after the division, add the following :—

“ MR. VALLÉE said that the second motion contained in its first part the item of wheat, on which he had previously voted. He maintained his first vote on that article, but he desired to express his dissent in reference to the other two items mentioned in the motion. That was the reason why he had voted against the motion of the hon. member for North Norfolk (Mr. Charlton).

“ MR. THILLIER said he was in the same position as the hon. member for Portneuf (Mr. Vallée) in regard to this motion. He maintained his vote in reference to wheat; but, as he was obliged to vote on the motion of the hon. member for North Norfolk (Mr. Charlton), he had voted against it, in order to express his dissent in reference to the two items which were mentioned beside that of wheat.”

Page 1992, 2nd col., after “After recess,” add the following :—

“ On the Orders of the Day being called,

“ MR. CONNELL stated that he had received several telegrams and letters, stating that there was considerable dissatisfaction in the county he had the honour to represent, in consequence of steamers being unable to pass the Woodstock Railway Bridge, on account of insufficient draw, and the draw-bridge not being in the proper place. He again directed the attention of the Government to it, and trusted it would receive their earliest attention.”
