ALTERATION IN RURAL MAIL ROUTE,
AMHERST, N.S.Question No. 2,009—**Mr. Coates:**

1. Has the Post Office Department altered its general policy of having rural routes start and finish at a post office and, if so (a) when was it altered (b) for what reason was it altered?

2. Was a material alteration effected in R.R. No. 2 Amherst, Nova Scotia after tenders were received and, if so, has consideration been given to the calling of new tenders for this service to enable others who might have submitted a tender to now do so in view of the material alteration in the original tender call?

Hon. J. R. Nicholson (Postmaster General):

1. No. It is still the policy to have rural routes start and finish at the distributing post office.

2. No material alteration was effected in Amherst rural route No. 2 after tenders were received. The new contractor starts and finishes the service at the Amherst post office.

CENTRIFUGAL PUMPS FOR FARM USE

Question No. 2,012—**Mr. Dinsdale:**

1. Are centrifugal or gear pumps, for the watering of livestock on farms, classified under the agricultural implement schedule for tariff purposes?

2. Are centrifugal or gear pumps, for incorporation into sprinkler irrigation systems, used on the farm for farm purposes classified under the agricultural implement schedule for tariff purposes?

3. If the answer to question 1 is no, and the answer to question 2 is yes, what is the difference between centrifugal and gear pumps used for agricultural watering purposes and the same pumps used for agricultural sprinkling systems?

4. Are engines and motors incorporated into or attached to centrifugal or gear pumps, for livestock watering purposes on farms, classified as agricultural machines for tariff purposes?

5. Are engines and motors incorporated into or attached to centrifugal or gear pumps, for sprinkler
