Sir Arthur Currie, Principal  
McGill University  
Montreal, Canada

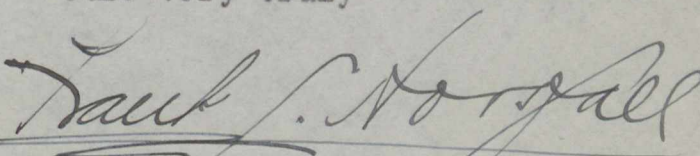

My dear Sir Arthur:

I am enclosing herewith a copy of the program of exercises for the inauguration of Matthew Lyle Spencer as president of the University of Washington, and also that of the inaugural banquet. I would direct your attention to the fact that several errors have crept in in the listing of delegates of the Universities and Colleges, particularly with regard to the arrangement in the order of the foundation of the institutions; this not only applies to McGill but to numerous others.

A letter goes forward in this same mail relative to the inauguration services.

Yours very truly
