

INDEX

A	PAGE	PAGE
Abscessed teeth, treatment of, 277, 293		Carbolic acid for sensitive dentine 149
Amalgam as a filling material, usefulness and limitations of. . . 158		Care of the teeth, instructions to patients as to. 25
Amalgam, manipulation of. 232		Caries, dental, etiology of. 28
Amalgam, method of packing. 234		Caries, examination of the teeth for 41
Annealer, Custer's Electric. 169		Caries, gelatinous film in connection with incipient. 30
Annealer, Vernon's gas or alcohol 171		Caries, relation of micro-organisms to. 29, 140
Annealing gold 166		Caries, susceptibility to, and immunity from 29
Appliances for examining the teeth 43		Cavities, buccal, labial, and lingual 126
Application of the dam in difficult cases 72		Cavities, buccal, labial, or lingual, applying the dam for operation on 70
Applying the dam for operations on buccal, labial, or lingual cavities 70		Cavities, buccal, labial, and lingual, clamps for. 54
Approximal trimmers 218		Cavities, classification of. 78, 148
Arsenic, destroying the pulp with, 265, 286		Cavities, occlusal, in bicuspid and molars 132
Automatic mallet, the. 182		Cavity formation for inlay fillings 243
		Cavity preparation 78, 80
B		Cavity preparation for inlays. . . 243
Bicuspid and molars, cavities in, 102, 104, 126, 132		Cements for use with porcelain inlays 163, 257
Bicuspid and molars, clamps for, 52		Cements, use and qualities of, as filling materials 161
Bicuspid and molars, fillings in, 201, 209, 216, 217, 218		Cements, manipulation of. 237
Bleaching teeth. 287		Cervical clamps for buccal, labial, or lingual cavities. 54
Black, Dr. G. V., investigations of amalgam 159		Children, management of. 288
		Children's teeth, the management of 288, 294
C		Chloro-percha in pulp-canal filling 272
Calculus, instruments for removal of 16		Clamps, selection of. 52
Calculus, removal of. 14, 20		Classification and preparation of cavities 78, 80
Calculus, salivary 8		Cleanliness a preventive of decay 26
Calculus, serumal. 10, 20		Cocaine, removal of the pulp with 268
Capping pulps, advisability of. . . 258		
Capping pulps, materials for. . . . 261		
Capping pulps, method of. 263
