

made upon each locality for school accommodation and instruction. By this means a much larger sum than usual has been added to the apportionment of those new and thinly-settled Counties where poor schools have heretofore existed, and where the ordinary Legislative and Municipal grants have not been sufficient to enable Trustees to sustain the schools during the school year.

A sum equal to what was paid last year to the Separate Schools in each City, Town, Incorporated Village, and Township, has been deducted from the general apportionment available for 1859, and the balance has been apportioned among all the Municipalities, according to the basis of school population for 1858. Where Separate Schools have existed, the sum thus apportioned to the Municipality has been divided among the Common and Separate Schools therein, according to the average attendance of pupils at these Schools during 1858, as reported by the Trustees. It had been found that to apportion to each Municipality, according to school population, and then afterwards to apportion an additional sum to

the Separate Schools in such Municipality, out of the General School Grant, was unduly deducting from Municipalities in which there are no Separate Schools, and unduly adding to the apportionment of those Municipalities in which Separate Schools do exist—such as Cities, Towns, and Villages. If the apportionments be increased to any Municipalities beyond the proportion of school population, it ought to be so increased to the poorer Counties and Townships, rather than to the wealthier Cities, Towns, and Villages; for it is in these latter that Separate Schools are chiefly established.

I trust that the liberality of your Council will be increased in proportion to the growing necessity and importance of providing for the sound and thorough education of all the youth of the land.

I have the honor to be, Sir,

Your obedient Servant,

Education Office,
Toronto, 1st June, 1859.

E. RYERSON.
