

HAMILTON HAPPENINGS

C.N.R. MAY BUILD STATION OF ITS OWN AT HAMILTON

Site Mentioned is at the Corner of James and Stuart Streets—Brought Back From Peterboro.

HAMILTON, Jan. 6.—(Special).—The more important business that is likely to come before the council during the year is beginning to engage the attention of the members of that body now that the interest in the elections has pretty well subsided, and the belief is that the question of railways will be one of the most important that will be up for consideration. It was stated in the fall that the Canadian Northern had started to construct its line to this city from Toronto and that the work would be rapidly pushed along as soon as the spring opened up. With the work of constructing the line under way, the questions of an entrance into the city and the terminal facilities of the new line are live ones. It is known that the line will enter the city from somewhere near the Desjardins Canal, and a good deal of conjecture as to its route thru the city has been indulged in. Last fall it was thought that the C. N. R. would enter into an arrangement with the T. H. & B. and C. P. R. by which it would use their lines thru the city, with station facilities at Hunter-street. The belief now is that this company is planning to run a line of its own thru the city and to build a station for it. It was stated on what is believed to be excellent authority that its station will be built in the neighborhood of James and Stuart-streets.

The only prisoner of any importance in the cells to-night was George Lightheart, whom Detective Bleakley brought back from Peterboro this evening. Lightheart was arrested there at the request of the local police on the charge of non-support of his wife. He will be arraigned in the police court to-morrow morning. Mrs. Collins, a well-known resident of Milton, died this afternoon. The interment will take place in this city.

CITY'S BILL OF HEALTH. There were 408 more cases of typhoid in Toronto in 1910 than in 1909. Dr. G. N. Smith, city bacteriologist, attributes this to the fact that more care was observed in reporting cases last year. The figures for diphtheria in 1910 were 1155 as against 1292 in 1909; and in scarlet fever 1434 cases were reported in 1910, in comparison with 1664 in the previous year.

FALLS ALMOST DRY. NIAGARA FALLS, Ont., Jan. 6.—(Special).—The American falls are almost dry to-night, as the result of a jam in the rapids above Goat Island. The falls ran completely dry in February, 1909. The conditions of that time promise to be repeated if the present weather conditions continue.

WILL HAVE TO DEPEND ON NATIVE SOLDIERS

United States May Train Army of Filipino Scouts for Defence of Islands.

WASHINGTON, Jan. 6.—Should an emergency arise in the Philippines the United States would have to depend upon native troops for the defence of the islands, and the Filipino would be found a loyal soldier, according to the annual report of Brigadier-General John J. Pershing, commander of the department of Mindanao. "The difficulty and expense of maintaining a large force of American troops here for purposes of defence against foreign invasion is evident," says Gen. Pershing, "but that we should have a force ready for such emergency needs no discussion. Should a crisis arise we would have to depend upon native troops. The authorized strength and organization of native scouts should be utilized as a nucleus to train an army for this purpose. It would be an easy matter to inaugurate a scheme that would provide, within a few years, an adequate and reliable native force for defence."

Evangelist Chapman Abandons Old Plan of Petition's Row—Second Day's Campaign.

The lower floor and gallery of Massey Hall were filled with eager hearers of the second day's campaign of the evangelist Chapman, who under the auspices of the Toronto World is conducting a campaign of religious revival in this city. The evangelist, who is a native of the United States, has been in Toronto since last night, and the audience of the evening was the largest he has ever had in any city. It was estimated that there were over 2,000 persons present, and that the evangelist's message was heard by a large number of the city's population. The evangelist's message was a powerful one, and he was able to win the hearts of many of his hearers. He is now in the city, and will be here for some time longer. He is a man of great ability, and his message is one of the most powerful that has ever been heard in this city. He is a man of great faith, and his message is one of the most powerful that has ever been heard in this city. He is a man of great faith, and his message is one of the most powerful that has ever been heard in this city.

"It is no easy task to move a city," said Dr. Chapman, during his sermon, "yet if we will but move with God, this impossible task will be accomplished." He declared that in no city had the movement been given greater recognition by the press, and he urged the evangelist to continue his work in Toronto that will never be forgotten. He declared that in no city had the movement been given greater recognition by the press, and he urged the evangelist to continue his work in Toronto that will never be forgotten.

And being in an agony, he prayed more earnestly, and his sweat was as great drops of blood falling down to the ground. At the end of the prayer, he said, "My Father, if thou wilt, forgive me this sin." He said that he was a man of great faith, and his message is one of the most powerful that has ever been heard in this city. He is a man of great faith, and his message is one of the most powerful that has ever been heard in this city. He is a man of great faith, and his message is one of the most powerful that has ever been heard in this city.

Personal Responsibility.

Then turning to the more personal side of his audience, he held them responsible for the failure of their friends and relatives to confess Christ. "You women with unconverted husbands and sons beside you, I think I can tell you why they are not Christians. Negligence, carelessness, fault won't do it, nothing but a deep yearning of the soul will do it."

Moved to Tears.

"Now, who is there here who would like to pray for his husband, friend, or brother? I give you my word, I will pray as I have never prayed in any other city. Stand up, all of you who would, and tell me who you wish me to pray for." All over the hall people stood up, first singly, then in crowds, and in sobbing accents, cried of "My son," "my friends," "my husband," or "my class," came to the evangelist, who knelt in fervent prayer. Then he asked them to say the one word, "Jesus," and from all parts of the hall came the echo of worshipful voices, "Jesus." At his request Ernest Nafziger sang "What will it be to Jesus?" and his sweet earnestness moved many of the audience to tears. The evangelist asked if any would like to have cards, and the people quickly expressed their desire for them. The workers immediately distributed them, with pencils, and while they were gathering them Mr. Nafziger and the people under Mr. Alexander sang "My Jesus, I Love Thee, I Know Thou Art Mine."

At the close of the hymn Dr. Chapman said they would leave without any service, or prayer, or any other spiritual atmosphere was in the place such as he had never seen surpassed. "And please go without talking," he said, "and quickly the great crowd filed out into the night, to carry their message on its way."

Reception at Y. M. C. A.

A reception was held by Dr. Chapman and his associates at the Y. M. C. A. club rooms yesterday afternoon, and was very well attended, over 300 ministers, conveners of committees and district representatives being present. Dr. Chapman made a brief address

A BROKEN-DOWN SYSTEM. This is a condition (or disease) which doctors give many names but which few of them really understand. It is called weakness—a break down, as it were, of the vital forces that sustain the system. No matter what may be the cause, the symptoms are almost invariable, its symptoms are much the same: the more prominent being sleeplessness, sense of great fatigue, loss of interest in life, irritability and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—power of VITAL STRENGTH & ENERGY to throw off these morbid feelings, and experience a sense of relief that is not to be had in any other way. The NEW FRENCH REMEDY THERAPION No. 3 has been found to be the most effective in all such cases. It is taken in accordance with the directions accompanying it, the shattered health is restored, the EXPIRING LAMP OF LIFE is lit afresh and the patient is enabled to enjoy life as never before.

man-Alexander evangelists, but a man who labors in a possibly less spectacular way, is already hard at work on "the King's business." Mr. Asher devotes his time entirely to work in factories, workshops, jails and other places, hoping to get into touch with men who would not otherwise be able to go to the evangelistic meetings. Mr. Asher accompanies her husband, singing in the places where her husband delivers his message of salvation, helping him on in great work. Yesterday noon they went thru the main shop of the Taylor Safe Works, on Front-street west, and a service was held in the building. Mr. Asher quickly became acquainted with the men by persisting in shaking the hand of every man, no matter how dirty his hands were from greasy work. Afterwards she preached a characteristic sermon, finishing with the words: "It's not the good fellow which shall be saved, but the man who believes in God."
