

Recognizing

A growing demand for Popular Priced Men's and Young Men's Suits, we have stocked heavy on lines to sell for \$12, \$15, \$18 and \$20—of course this does not affect our higher priced range from \$22 to \$38. We are very strong on all lines in the better made garments, and our highest priced suits are all hand-made and not equalled by any house at any price. When it comes to fitting and pleasing customers we flatter ourselves that few in the trade can do it better. Further, you never have to keep any garment that is not according to your ideas of what it should be, and if we cannot please you with something to replace it, you get your money back with the same cheerful smile that we had when we accepted it.

We have a store full of all kinds of clothes for your summer needs.

PUBLIC AMUSEMENTS

"The Trail of the Lonesome Pine"

Probably the greatest story ever written of the south and dramatized by Eugene Walter will be produced at the Princess next week with Charlotte Walker in the title role of June, the mountain girl. The dramatist has emphasized Mr. Fox's delightful character, June, and those who followed the story of her love for the engineer in the book, John Hale, and met the various other interesting people, will revel in the visualization of the stage characters. There is a strong ode in support of Miss Walker, including W.

BANISH PIMPLES AND ERUPTIONS

IN THE SPRING MOST PEOPLE NEED A TONIC MEDICINE

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its effect upon the blood, and that a tonic medicine is needed to put it right. Indeed there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disfiguring eruptions. To this same condition are due attacks of rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot cure these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve-restoring powers. Every dose of this medicine makes new, rich blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits, and fill your veins with new, health-giving blood.

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

S. Hart, Austin Webb, George Woodward, Lillian Dix and Vida Reed.

"The Runaway"
Miss Billie Burke returns to Toronto the week after next in "The Runaway," which will play at the Princess Theatre during the entire week. In this comedy she makes love to a noted artist old enough to be her father, but his heart is young, and so it is a suitable match.

The Durbar in Kinemascope
Next week at the Royal Alexandra there will be a glorious reproduction of nature's own colors of the glittering pageant of the recent Durbar in India, when the King and Queen were proclaimed as emperor and empress amidst great scenes of splendor. Last year the Kinemascope was first introduced in this country, and made an instant triumph. The pictures will be shown at this theatre for two weeks.

"The Barrier"
Rex Beach's famous tale of the frozen north, which has been dramatized, will be produced at the Grand next week, and, like the story, the clean-cut and pronounced characters will be realistic. The play is one of thrills and represents to a nicety the people who held sway in the Yukon and Alaska in the days of the rush.

Shea's Vaudeville
Emma Carus, the mirthful comedienne, heads an excellent bill next week. Miss Carus has just finished a starring tour in "Up and Down Broadway." Among the other features will be the original Joe Jackson, trick cyclist; Mr. and Mrs. Jimmy Barry in "The Rubo"; Weston, Florida and Carroll in snappy songs; Frozin, the wizard of the accordion; and the four London, acrobats and champions of the air.

"Dreamland Burlesquers"
Dave Murton's squad of burlesquers will open at the Gayety next week, and Dave himself will be the principal feature as of yore. "Stageland" is the title of the first act. There is a capable chorus of thirty good looking and a group of high-spirited comedians and vaudeville artists.

Star Theatre Stock Company
Beginning Monday afternoon the new stock company will put on a high-class entertainment, which will be a criterion of what is to follow during the summer months. The paragon score-board will come by an extra attraction. Added to the list of artists to assist Tony Kennedy and Peatrice Harlowe are Miss Dale Wilson and a chorus of thirty well-trained women. The casts consist of nine in all.

The Toronto Alumni Association, who are holding their annual meeting and dinner at McConkey's on Tuesday next, the 7th inst., have been taking quite an interest in the work of the University Settlement.

The Settlement has its headquarters on Adelaide-street west, and is managed by various graduates and members of the faculty upon lines similar to such institutions in England and the States. It seeks to look after the moral and physical interests of those in its neighborhood by means of lectures, physical instruction, classes and musical evenings, and is doing an admirable work.

The relationship of the Alumni Association to the Settlement will be the subject of a discussion at the meeting at which all graduates, whether members of the association or not, will be welcome, and President Falconer, who has taken an active personal interest in the Settlement, will go fully into the matter. Tickets may be secured from Mr. Hugh L. Hoyles, 46 King-street west.

A Boon to Stock-Raisers

To Know How to Cure Colic, Distemper, Colds, Swellings, Etc., Saves Thousands Each Year.

OF PRACTICAL INTEREST TO HORSEMEN.
It is a matter of vital importance to every farmer, horse-owner, and stock-raiser to know exactly what to do when one of his animals is taken suddenly sick.

The letter of Mr. Frank G. Fullerton, which we print below, gives information of inestimable value, and tells of his experience in curing ailing stock during the past thirty-eight years.

Heintzman & Co.'s Big Piano Sale.
Very naturally the announcement of the old firm of Heintzman & Co., Ltd., 183-185-187 Yonge-street, Toronto, that they were making quick clearing of between one hundred and one hundred and fifty square and upright pianos, has created the largest kind of interest. This firm are so well-known for doing things on a big scale and for their real bargains are expected and the people are not being disappointed. We are told that the sales of the piano for the month of April, though not considered the best month in the year, rank among the largest on record.

Many of the pianos put out for sale have been but slightly used, some in the way of rental and others out for concert use. All, however, have been thoroughly overhauled by the firm's own workmen, and are guaranteed practically good as new.

Prices have been reduced from one-third to one-half to make a quick clearing and sold on easy terms—trifle down and a trifle each month or quarter. Out of town orders are asked to write the firm for a list of these pianos.

NEW TORONTO COMPANIES.

OTTAWA, May 3.—Incorporation has been granted under the companies act to the Canadian Automobile Association, capital \$50,000; the Plaster Mines Co., capital \$2,500,000; and the Canadian Soap Co., capital \$2,000,000, all with headquarters in Toronto.

FIFTY BRITISH FINANCIERS COMING.

OTTAWA, May 3.—Arrangements have just been completed for the visit to Canada next month of some fifty representatives of the best known business and industrial firms of Great Britain. They include chairmen and directors of corporations renowned throughout the world, representing a total capitalization of approximately \$200,000,000.

The party will arrive June 5 at Quebec and will tour Canada and become acquainted with the resources of the Dominion.

The largest meeting of the season of the Business Science Club was held in the club rooms last night, to hear A. B. Farmer speak on "The Modern Art of Reading Character." The lecture was an introduction to a special series to be given under the auspices of the educational committee of the club, and was followed with close attention.

Mr. Farmer described the various methods by which the principles underlying the science of character analysis had been established, and their value to the practical business man.

HERRICK STREET CLOSING IS DECIDED

Centre of the New Technical School Building Will Be on Present Site of Street—Bloor Street From Dundas Street West to Be Widened to 86 Feet.

Altho severely criticizing the board of education for abandoning the College-st. site, the board of works yesterday afternoon agreed to the request that Herrick-st. be closed between Borden and Lippincott-sts. This is to allow plenty of room for the new technical school building, the centre of which will be directly across Herrick-st., according to the present plan.

Ald. McBride was the chief objector to the closing of the street, as he considered the board of education should be forced to build on the College-st. site, or none. "To my estimation the College-st. site was and is the proper site for the building," he declared.

On motion of Ald. Yeomans the board of education's request was granted, the vote standing six for and four against. The proposal to have the Toronto Suburban Railway run tracks west on Annetto-st. to Pacific-ave. brought down two deputations before the board, one of which favored the proposal, and the other asking that the route be changed.

The change of route asked was for the tracks to run up Pacific-ave. only as far as Humboldt-ave., one block below Annetto-st., and from there curving around Glendonwyne-ave. and thence west along Colbeck-st.

Among those appearing before the board to ask for the change of route were: Rev. Dr. Speer, Rev. Beverley Smith, Rev. D. McKerrill and R. L. McKormack.

Disturb Service.
They pointed out that in addition to endangering the lives of the children who attended the public school on the netto-st., the cars would disturb the services held in three or four churches which would be directly along the route.

Those appearing against the route being changed included ex-Mayor Laughton, Rev. M. Morley and C. M. Hall. They argued that Annetto-st. was a straight, direct and the quickest route, while the Glendonwyne-ave. route would take in a number of curves and cause a great deal of delay. "Very fine for a joy ride on a summer's day, but not practical for public service," was the way one of the deputations put it. They also pointed out that whereas Annetto-st. is rapidly developing into a business street and would not depreciate in value by a car line, that along the Glendonwyne-ave. route high-class residences were being built that would be seriously affected in value by the car line.

See for Themselves.
On the motion of Ald. Byling, one of the aldermen from the district affected, the board decided to pay a visit to the locality and see for themselves what the conditions were. They agreed to make the trip at nine o'clock this morning, the members of the board to assemble for the trip at the city hall.

Ald. McBride called the attention of the board to the criticism of the newspapers that they were not keeping up the business to be dealt with. This, he declared to be only too true, altho the mere fact of the papers calling attention to it did not affect him in any way, and he induced the board to agree to hold a special meeting before the next meeting of the city council, at which the question of the Annetto-st. car line will be finally dealt with.

Eston's Bridge.
The request of the T. Eaton Company that they be granted permission to build a bridge over Albert-st. connecting their factory with the main store, was carried. This bridge is to be 150 feet west of Yonge-st. and five feet above the roadway, thus not in any way interfering with the traffic.

The motion from the council to widen Bloor-st. from High-st. west to the city limits was carried. This part of Bloor-st. will be made 86 feet in width. The motion from the council instructing the assessment commissioner to prepare a plan of the outlying districts of the city and five miles adjacent thereto, was also carried.

BOY WAS IDENTIFIED

Lad Killed by Train Was Son of Glass Worker.
Coroner Dr. Flickinger opened an inquest last night into the death of John Whitehouse, the ten-year-old boy who was killed on the Brock-avenue crossing Thursday night. No evidence was taken and the enquiry was adjourned till May 10. John Whitehouse was the son of a stoker in the Toronto Glass Works and lived at 150 Brock-avenue. The mutilated body of the boy remained in the morgue for 12 hours before being identified by the father.

Pruning the Appendix

What thousands of people are rushed to the hospital these days with the idea that pruning the appendix will ride them of the cause and effect of wrong habits of eating and living. We eat too much, talk too little, outdoor exercise, breathe impure air, and when the system gets loaded with food impurities, which irritate the digestive system and set up inflammation we are told that the operating table is the only place for us.

Why not prevent appendicitis, as well as acute indigestion, peritonitis and Bright's disease of the kidneys, by keeping the liver active and the bowels regular. Dr. Cassa's Kidney-Liver Pills cleanse the digestive system of food impurities more quickly than any treatment you can obtain. They awaken the liver and ensure the healthful action of the kidneys and bowels.

The Result of Foot Trouble

Pains in the feet, limbs and back—irritation, irritable disposition and other ailments, often arise from breaking down the arch of the foot, terminating in flat-foot. Tired, aching feet are the first and most plainly recognized results of broken arch and flattened nerve connections make the disturbance felt in remote portions of the body.

Scholl's "Foot-Eazers"

banish pain and bring back the buoyancy of youth by restoring the spring and tone of the arch of the foot. They are light, self-adjusting German Silver springs, cared with leather—fit any foot or shoe and enable you to walk and work without pain.

Don't Limp or Hobble

through life when for only \$2.00 you can get a pair of Scholl's "Foot-Eazers." In these shoes and thus avoid the misery, expense and appearance that broken arch and flat-foot is bound to make.

BROKEN ARCH OR FLAT-FOOT

LOOK AHEAD

and prepare for the future. Some slight trouble with your eyes may develop into a serious ailment if it is neglected. But carefully selected eye glasses will entirely cure the trouble. Our specialty is testing eyes and fitting them with lenses suited to their special needs. Charges very moderate.
