TREND IS LOWER IN CORN MARKET

Better Weather for Plowing and Planting Leads to General Selling.

Chicago, May 10.—Better weather for plowing and planting led to general selling in the corn market today, and did much to weaken prices. There was an unsettled finish, ½c to 1⅞c net lower, with July $1.62 to $1.62¼, and September $1.53½ to $1.54⅛. Oats lost ⅝c to 1c. In provisions, the outcome was unchanged to 25c higher.

Among corn traders, it was a popular view that more nearly normal field conditions might now with good reason be looked for. The fact that since the beginning of the season, April 1, this was the first day without freezing in some portion of the belt attracted widespread notice, and so, too, did numerous reports of clear skies in place of word of further excessive rainfall. Talk of Iowa importing from Argentina continued as an additional handicap to the bulls. Gossip persisted that an important concern at Cedar Rapids was seriously figuring on Argentine supplies to be made available by barge shipments up the Mississippi.

Oats eased down with corn. Trade, however, was mainly of a local character.

Higher quotations on hogs lifted provisions. Offerings were scarce and the market finished at virtually the top figures of the session. Notwithstanding corn declines, leading interests gave support to the advance.

McKINLEY OUTPUT

Cobalt, May 10.—The McKinley-Darragh mine is understood to be producing silver at the rate of upwards of 1,100,000 ounces annually, based upon figures for the first quarter of the current year. This remarkable increase over the 1918 output has brought the mine to a point of production that bids fair to win the distinction of being perhaps the third largest silver producer in the Cobalt camp for the year 1919, probably running neck-and-neck with the Kerr Lake and the O'Brien for this position.

During the first three months of 1919 the output is understood to have approximated 275,000 ounces, or at the average rate of about $92,000 monthly, based upon silver which is maintaining an average of about 101 cents an ounce.

U. S. VICTORY LOAN.

Washington, May 10.—Official subscriptions to the $4,500,000,000 Victory-Liberty Loan shortly before noon today approximated $3,500,000,000. A statement by the treasury said: "Reports of unreported subscriptions indicated that the country's total was greatly above the official showing."

U. S. BANK CLEARINGS.

Record bank clearings for this period continue to be a very noticeable feature of the business situation at many important cities in the United States, the total last week at fifteen leading centres, according to Dun's Review, amounting to $6,194,516,447, an increase of 10.4 per cent. over this week last year, and of 22.1 per cent. as compared with the same week in 1917.

DULUTH-SUPERIOR EARNINGS.

Earnings of Duluth-Superior Traction Co. for the first week of May were $35,749, an increase of $3630, or 11.3 per cent.

OIL MILLIONAIRES ON COMMITTEE IN TULSA

Number Are Heavily Interested in Fields in Texas and Louisiana.

Down in Tulsa, Oklahoma, which was the oil queen of the world until Fort Worth, Texas, snatched the diadem from her, is a chamber of commerce, the finance committee of which is composed exclusively of millionaires. Col. Douglas, manager of the chamber of commerce, says that the members of the committee, numbering 44, are worth from one million to fifteen million dollars each, and it is understood that every one of them made his fortune either wholly or in part in oil. It is doubtful if there is another committee in the world with so large a membership made up exclusively of millionaires. During the past year a number of these men have become heavily interested in the Burkburnett, Brownwood and Ranger oil fields of Texas, and the Caddo Lake oil fields of Louisiana.

The names of the committee follow: R. M. McFarlin, J. S. Cosden, E. W. Sinclair, J. E. Crosbie, Frank Gillespie, Charles Page, Dr. G. S. Kennedy, H. H. Rogers, Earl P. Harwell, J. A. Chapman, Joseph H. Evans, J. S. Hopping, J. A. Hull, H. C. Tyrell, Grant C. Stebbins, Glen T. Braden, John O. Mitchell, J. W. Sanders, E. Constantin, H. G. Barnard, James Sloan, A. E. MONTREAL SYNDICATE BUYS HOLT, RENFREW

The Financial Times, Montreal, says that an important Montreal syndicate is completing negotiations to take over one of the largest businesses in Canada, by the acquisition of Holt, Renfrew & Co., Limited, of Quebec, Montreal, Toronto and Winnipeg.

It is understood that the syndicate is headed by Lorne C. Webster of Montreal and that he will have associated with him in the new company, from Montreal, Sir Herbert Holt, and A. J. Brown, K.C.

It is the intention to reorganize the undertakings of the company, with a view to greater development.

It is understood on the local street that the new company will have a capitalization of $225,000 of bonds, $1,000,000 of preferred stock and $1,000,000 of common stock.

The new board of directors will include Sir Herbert Holt, A. E. Renfrew, Lorne C. Webster, J. W. McConnell, A. J. Brown, K.C.; R. B. Lindsay, and W. H. McWilliams of Winnipeg, and one or more prominent business men of Toronto and Quebec.

FIRM TONE CONTINUES IN MONTREAL MARKET

Montreal, May 10.—With 42 issues traded in for the half-day on Saturday, against 54 on Friday, the total shares dealt in contracted by about half. The strong tone of the previous day, however, showed no sign of changing, and altho fewer new high levels for the year were made, prices generally held recent gains or added to them. National Breweries common and Laurentide Paper tied so far as activity was concerned, both furnishing 1325 shares to the total trading. Other issues to reach new highs for the year were Canadian Cottons, which sold up to 90, and B. C. Fishing, which made a new high at 54¼. Ames-Holden closed at the best price of the year, made the previous day.

In the bond list there were one or two significant changes. Both the 1925 and the 1931 old war loans sold at 98, one per cent. down from the previous last sale, while the Montreal loan, maturing May, 1923, lost 1½ per cent. to 100½.

DOMINION STEEL CURTAILS.

Sydney, N.S., May 8.—H. E. Rice, general superintendent of the Dominion Iron and Steel Company, announces this morning that owing to the falling off in orders it has been considered necessary to close down the Bessemer department of the steel plant. This affects one of the four blast furnaces, and also makes unnecessary the further operation of certain of the older coke ovens. The number of men employed in these departments is not large, and they are being absorbed by other parts of the plant.

NEW YORK BANKS.

New York, May 10.—The actual condition of clearing-house banks and trust companies' banks for the week shows that they hold $35,122,990 reserve in excess of legal requirements. This is a decrease of $1,621,190 from last week.

RICH FIND IN SHINING TREE REWARDS QUEST OF YEARS

Robert Holding, Now Eighty Years of Age, Began Career as Prospector in Australia, When a Youth, and Passed Thru Many Thrilling Adventures.

The romance of mining is, perhaps, not better exemplified than in the case of Robert Holding of Chapleau, now 80 years of age, who after scouring two continents in search of the elusive gold, was at last rewarded, and now bids fair to become a millionaire. Robert Holding is an Englishman of the breed not afraid to court hardships, and was at early age filled with the wanderlust. At the age of 18 years he was attracted to the Australian gold fields, and for upwards of six years he worked at Ballarat around the mines. Opportunities to become wealthy did not offer themselves here, and in 1864 he left in a sailing vessel to return to England. The passage was an eventful one, and finally ended in shipwreck on the Auckland Islands. Nineteen of the survivors landed on one of the islands, and for twelve months and three days had to subsist on roots, shell fish, sea lions and such other edibles as they came across. Hardships and inadequate food supplies brought death to 16 of the little band before relief arrived from a vessel bound with Chinese laborers for Callao. After a long detour Mr. Holding finally reached England again, where he married and struggled to make a living until 1888, when he managed to secure enough funds to bring him to Canada.

Again a Prospector.

After working at various machine shops in Kingston, Toronto and Chicago a mining boom in Michipicoton aroused his old longing, and with all the capital he could command he decided to make another strike for the big clean up. Results in the north district were not promising, and ended with Robert Holding losing most of his investments and all his time. He then located at Chapleau and was again content to settle down in the C.P.R. machine shops for a time.

With the gold discoveries in Porcupine a wild prospecting fever arose, and parties scattered thru various sections in the north country, and Holding went into Rosy Creek for a syndicate and did some staking. He did not care for Rosy Creek, however, and asked his backers to support an undertaking to Shining Tree. This they refused to do, and Holding, who was then well over 70 years of age, decided to go on his own initiative. With a well filled canoe, he left Sudbury on September 11, 1911. The trip, which involved over twenty portages, was scarcely a single handed proposition for even a young man, but Holding got thru, and in a few days was the staker of what may prove one of the richest gold mines in the north country. Samples from the property have caused a sensation in Toronto and New York. After doing the necessary work on his claims, Mr. Holding held his treasure until purchasers began to look for gold mines following the close of the war. He has now disposed of his interest for a large cash payment and other considerations, which will probably net over one million dollars. The aged veteran does not show his years by any means, and jocularly says he is still open to try and stake other mines. Those who follow the trail will certainly not begrudge him further good luck or a well-earned rest during his future years. The moral of the Holding incident is that well intended perseverance is bound to bring its just reward.
