other act of thoughtfulness for the returned and wounded soldier by the Independent Order of Foresters in the presentation of a large and finely finished rest seat for the use of convalescent soldiers of the Orthopedic Hospital, Christie street, where seven hundred and fifty to a thousand soldiers are being treated for the various injuries received on the firing line of Canada's army in the Great War.

The Supreme Chief Ranger, Mr W. H. Hunter, on behalf of the Order over which he so ably presides, made the presentation, and in his remarks said that the organization which he represented always took the deepest interest in the welfare of the soldiers while at the front, and now that the boys were returning would continue to show the same interest in them, especially those who came back to us with deep scars of service, and while the rest seat was only but a small token of the Order's appreciation, yet it would still strive to do its full share in providing some of the many things essential to the comfort of our returned heroes, and it gave him pleasure on behalf of the membership of the Independent Order of Foresters to place this seat at the disposal and for the use of convalescing soldiers of this great hospital.

Mr. George A. Mitchell, Assistant Supreme Chief Ranger, and Superintendent of the Organizing Department, expressed the goodwill which the Order had for the soldiers, stating that the gift was the outcome of a suggestion by Companion Mrs. Canning who lives in the district, and thought that such a convenience would be highly appreciated by those who are being treated in the Hospital.

Alderman MacGregor, who was present, representing the Mayor and the City, expressed his pleasure in taking part upon this occasion, not only in his official capacity, but as a member of the Great Fraternal Organization known as the Independent Order of Foresters.
