and the Amalgamated Meat Cutters and Butcher Workers' Union were amicably settled.

The packers claimed that the award was likely to be too broad in its interpretation and application. For instance, the wage increase would likely to have involved superintendents involved by the strike. They wanted the clauses covering these three classes fully enunciated, and the danger of any further trouble between the packers and their employes is now over.

The Bedroom as Murray-Kay's See It

Bearing in mind that the chief end and aim of the bedroom is a place for rest and sleep, the color scheme which, after all, has a stronger mental effect than either design or arrangement, is the very reposeful combination of rose

Only sweet dreams will visit the weary head that rests between these four walls, scattered over with grey and rose floral design.

The furniture suite, with its twin beds, is in cool grey enamel and cane. The thick soft carpet is of deep rose. The taffeta hangings at door and window strike the deeper note of color, being bold stripes on a deep rose ground. The lovely lighting fixtures are of silver, surmounted with adorable silk shades of rose. Truly a room to soothe the weary one after an exciting day.
