MUNICIPAL OWNERSHIP A CERTAINTY PEOPLE WANT IT AND SHOULD GET IT

New York, Nov 10.—Andrew Carnegie, upon disembarking to-day from the steamer Baltic, said:

"I do not believe in the socialistic idea of municipal ownership, but municipal ownership is a certainty, as sure as I am alive. Scotland and England are ahead of us in ownership of public property. All Great Britain's water, trams and sewage works are under public owiership. The line seems clear to me. The increase in value made by an increase in population should belong to the city. No city should give away a franchise that belongs to the people, but whether a city should offer it as a lease for a time is another affair, ases given should be for as short a time as possible. The shorter the better. The ownership should always remain with the city. The people seemingly want municipal ownership and should get it."

French Cabinet Receives Its First Check After Turbulent Scene in Chamber.

COULD NOT TOLERATE SITUATION

Premier Dependent Upon Opposition Groups-is Sustained by Large

Vote, Paris, Nov. 10.-The Rouvier ministry met with its first check to-day when M. Berteaux, minister of war, peremptorily withdrew from the ministerial benches during an angry debate in the chamber of deputies, and thereafter announced his resignation. For a time the entire cabinet hung in the balance, and Premier Rouvier anhis colleagues to give up power until they were supported by a substantial majority. After a debate of exceptional violence a motion favorable to the ministry prevailed by a vote of

210 to 147. However, the ministerial majority is made up of fractions of divergent groups, and the future of the cabinet

remains in doubt. The premier later went to the Elysee Palace and requested President Loubet to call a special cabinet council tomorrow at which M. Berteaux's successor will be decided upon, and at which also a further rearrangement of the cabinet will be considered. M. Etienne, now minister of the interior, is mentioned as the most probable successor to M. Berteaux, M. Thomson, minister of marine, succeeding M. Etienne. Generals Langlois and Brun also are mentioned for the war portalso are mentioned for the war portfolio, but the Socialists threaten not to support the ministry if a general be chosen head of the war office.

M. Berteaux to-night said his resignation was not intended to embarrass the ministry, but that he was unable to teleste the humiliating position of to tolerate the humiliating position of the ministry in being dependent upon the opposition groups in the chamber.

The crisis does not involve any important issue, but results from the breaking up of the groups of which the ministry has heretofore relied.
