Traders.

Wednesday Evening, Feb. 6.

The weakness in Cobalt stocks, which came into yesserday's markets, was not nearly so prominent to-day, but the trading element still frequency catelying yerymany pronts. Yesterday's crive at certain issues was expected to result in outside seining to-day, but holders showed no weakning and, as a result, yery little real-liquidation was brought about. The trainsactions mostly represented the in-and-out deanings on the hoor or the two exchanges, and had no direct bearing on the immediate trend of values. Of the older issues, foster and Silver Queen showed more arminess, but Trethewey and Green-Meehan were still dull and weak. A good local demand for Cobalt Central was initiated to-day, and the price held at a close parity with New York, where the top quotation was 60 cents. The market, with this exception, lacked incentive, and was clearly in a waiting amood the spell of which can only be broken by the future action of the public dealings.

MINES

Subscription Issue at 50c Per Share Stock Advances to SIXTY CENTS a share on Saturday. Send for Prospectus.

Mr. S. D. Madden, the Managing Director, arrived from Cobalt yesterday, and reperts that he has let a contract for 75 fees of shatt on the "Lucky Star" Mine on Loten Lake. The contractors started work a week ago. This practically makes the company the owner of a shipping mine. Before the snow is off the ground dividends should be paid. Mr. Madden also reports splendid progress on the Bucke Township claim, and thinks that we will run into high-grade ore in the next fifty feet. Another gang of men will start work on the Mentreal river claims. Mr. Madden's opinion is valuable. He has also been appeinted as supervisor of the Kerr Lake Company.

BUY NOW. WHY WAIT FOR THE STOCK TO ADVANCE TO DOUBLE THE PRICE?

No mency has been lost, but fortunes made, on the first issue of new pany's stock in Cobalt. Make all checks payable to

DREANY & CO., 201-702-703 Traders Bank Bldg., Toronto

NOTE.—The D. M. Gilpin property mentioned as sold in yesterday's papers has nothing to do with this company's holdings. Gilpin holders must have their stock in our hands by February 15 if they wish to make the exchange as mentioned in circular.

TORONTO BOYS FORTUNATE. Stake at Portage Bay.

Cohait, Feb. 6.—(Special.)—Messrs, Wilkie Evans and G. Burns are two Toronto boys who staked claims in the Portage Pay Mining Company last summer and despite the flies and the apathy with which that district was then regarded by many mining men, they stuck by their claims. To-day they have associated with them such men as William N. German of Welland; W. H. Ryan, U.S. congressman for Buffalo: T. R. Hinds, contractor, of Bufte, Mont., and Jos. Battle, contractor, of Bufte, Mont., and Jos. Battle, contractor, of Thorac company known as the Silver Ridge Mining claims, which have been turned over to a company known as the Silver Ridge Mining Company. Some of their properties are located near the Imperial and the Cobalt Chief, and the intention is to develop these at once and also put men at work on the property that they control near the Edison Mine. up, the Montreal River the property that they control near Edison Mine, up the Montreal River.

Mill Deepen the Evans Mine,
Messrs, D. B. Rees, H. C. Hachmeister
and Dr. W. E. Hallock of Pittsburg, directors of the Imperial Mining Company, were
in the city yesterday to attend a meeting
of the directors. The reports of the manaving director, J. W. Evans were considered very, encouraging, and instructions
given for the purchase of further equipment for working to a deeper level in the
Evans Mine, Portage Bay district. Mr.
Rees, who is president of the company,
showed his confidence in the prospects by
adding to his holdings, taking a good-sized
block of the treasury stock which is now
being issued.

NEWS FROM COBALI

A telegram received from D. B. Rechester, manager of the Cobalt Lake Mining Company, Limited, dated February 1st, 1907, says: "Discovered to-day vein, mostly native silver, eight to ten inches in width."-(Signed) D. B. Rochester. An assay from this shows 19,875 ounces to the ton in silver. This would mean a money value of about \$200,000 per car. A few shipments of this grade of ore would pay enormous dividends to the stockholders and would enchance the value of the Cobalt Lake Shares materially. This is one of the greatest strikes ever made in the Cobalt Camp and its importance can hardly be overestimated.

We can still supply a limited amount of this stock at 85c pershare, certificates subject to delivery by the Syndicate. Price will be advanced to \$1.00 per share shortly. All orders must be accompanied by remittance in full for the number of shares wanted.

To insure securing stock at 85c, wire orders at our expense and follow with remittance.
