Gowans, Kent & Co.'s Premises Were Totally Destroyed Yesterday.

H. H. WILLIAMS, ID VICTORIA ST.

TWENTIETH YEAR

LOSS IS ABOUT \$175,000

The Firemen Had Hard Work Owing to the Cold Weather and the Electric Wires.

Messrs. Gowans, Kent & Co. at 10-16 East Front-street was the scene yesterday of stock and plant of the company 's rulned. The fire burned several hours and at times whole block bounded by Front, Scott, Wel-ington and Yonge-streets was threatened with destruction. The flames were first observed on the wall at the rear of the build-

An alarm was hurriedly sent in and the firemen were somewhat confused by the continued ringing of the bells after the

first call was given.

The Flames in Possession. When the firemen arrived they found the a large quantity of straw and waste, used in packing crockery, furnished material to aid the flames. At first the fire, it was thought, would be an easy one to fight, but the flames crept from floor to floor up til they reached the roof. The smoke coming from the fire was dense and heavy and several times the firemen were driven back.

Firemen's First Work. The brigade attacked the building from Front-street, where the water towers and extension ladders were erected with great phone and other wires that are strung at

appreciable effect.

Fighting the fire on all sides Chief Graham prevented any danger of its spreading, but failed for some time to subdue the persistent flames between the roof and top floor. Tons of water from three engines and a dozen hydrants were thrown on the burning building, yet it was some hours before it could be gotten under control. The second floor fell about an hour after the fire started and scattered burning timber in all directions.

Some Narrow Escapes. Several firemen had narrow escapes in getting to places of safety. The walls of the building were not able to sustain the heavy mansard roof and it dropped shortly after 1 o'clock. In its fall it brought with it a mass of crockery from the second floor, and the crash could be heard some distance away.

The heat melted the telephone wires and caused them to drop and curl up on Frontstreet. Word was sent to the company and workmen soon removed these obstacles. The Torontor Railway Company also cut off the current in their wires on Frontstreet, and all danger from this source was removed. Spray from the several hose noz bouse to kill them all. The neighbor, James Dack, was called in to hear the crizy man taik and Carnahan was arrested and taken to Orangeville fail.

The Firemen Frozen.

It was not long before the firemen looked like huge iccles. As soon as the water dropped on their clothing it quickly froze, in some cases about an inch thick.

The real cause of the fire will probably always remain a mystery, although it is known that it originated near the rear wall. It is stated by employes that there is nothing, inflammable in that part of the premises. The building was of three storeys, with a mansard roof. It was owned partly by the Kent estate and Crombie estate.

A Valuable Stock Destroyed. The Firemen Frozen.

A Valuable Stock Destroyed. The company's stock of crockery and china was a valuable one. Mr. John G. Kent estimated its vaine at about \$150,000, and it is said that the loss will be complete.

gives some very interesting figures regarding the settlers in the Edmonton district. In 1896 there were 406 families, numbering 1987 souls, which had been increased in 1898 to 620 families, numbering 2479 souls, all of whom would have been dispersed throughout the different States of the Union had they not been directed to the Canadian Northwest. These people had 1269 horses in 1888, and 2148 in 1898. Their cattle had increased in these two years from 2501 head to 5252, find the grain raised from 180,388 to 516,007 bushels.

NO VACUUM NEEDED. Prof. Nornst of Goetingen Univers-

ery in Electric Lighting. Walter Nernst, a professor in the Goettindifficulty between the innumerable tele. gen University, has invented an electric lamp which does not require enclosure in

nate the north, and France the south; Britain would get what she could, and the United States would get nothing.

Krasnovarsk Siberia, Feb. 10.-A gold nine owner here named Monastyrschian has received a letter saving that a tribe of Tungusos, inhabiting the Timur Peniusula, North Siberia, recently informed the Jan. 7 last, between Komo and Piet, in the Province of Yeniselsk, they found a cabin

The Start From Norway.

Prof. Andree's ascent was made from Tromsoe Island, at the northern extremity of Norway, on July 11, 1897, at 2.30 p.m., in the midst of a strong wind. He shook hands heartily with those who were assembled in the balloon house, nodded to the astonished trappers, who stood watching him, and fiddressed warm rud heartfelt words to all whose hinds he could not reach. Then the trio, Andree, Strindberg and Fraenkel, standing in the car, severed the ropes holding the balloon, while Andree counted. "One, two, three." The balloon rose majestically, while Andree gazed in happy confidence upon those who remained behind. Then all three waved their caps and shouted, "Greetings to all at home in Sweden!"

After the narrow escape from being driven against the rock in Sweerinburg Sound, the balloon was seen moving aorthward easily, as Andrea wished, over the flat peninsula of Hollaendernaes. The Start From Norway.

A.R.M.

UNCLE SAM'S PACIFIC CABLE.

President McKinley yesterday presented to Congress his Pacific cable scheme. He urged the importance of having it laid at the earliest possible moment, in view of the acquisition of the Philippines. Especially is it important to have connection with Mannia, by way of Hawatt and the Visayas Islands. The cable must be all in American territory, and the Government must own it, or, in the event of its construction by a private company, Congress must have full control.

Particulars in hour's firing from two of Admiral power's vessels.

Up to the close of office hours to-day that tended to strength. This is the first dividend declared on the first preference shares for about ten years. The dividend has not come as a great surprise to the financial world, as, of course, something of the sort was expected by reason or the vastly improved business of the year.

Awful Discovery When the Body Was Exhumed to Learn the full control.

James Dack, was called in to hear the crizy man taik and Carnahan was arrested and taken to Orangeville fail.

THE ADAMS POISONING CASE.

At New York yesterday the enquiry into the cause of death of Airs, kate J. Adams was continued. Harry S. Cornish, who had been named by Cornish as the man he believed sent the poisoned bronnesseltzer through the mails, were examined. Cornish was reticent and equivocal, and Molineux was a willing witness, who said: "I am absolutely innocent." The case was then adjourned till Tuesday.

COLD IN THE HEAD.

Washington, Feb. 10.-The following despatch from Gen. Otis has been received at Trunk Railway directors announce a divithe War Department: "Adjutant-General: dead of four per cent, on guaranteed stock the Placer Mines Act so as to preserve to the War Department: "Adjutant-General: dend of four per cent. on guaranteed stock Insurgents collected in considerable force and of three per cent. on first preference between Manila and Caloocan, where Aguin-shares. In addition the gratifying analdo was reported to be, and threatened nouncement is made that the company is attack and uprising in the city. This afternoon swung the left of McArthur's division which is north of the Pasig River, into Caloocan, driving the enemy easily. Our left is now at Caloocan. Our loss was slight, that of the insurgents considerable. Particulars in morning. Attack preceded by an hour's firing from two of Admiral Dewey's vessels.

To the close of office hours to-day General Otis sent no news to the War Department indicating any further conflicts with the natives.

The dividend has not come as a great surprise to the financial world, as, of course, something of the sort was expected by attack and uprising in the city. This after-

Exact Cause of Death. North Tonawanda, N. Y., Feb. 10.-When And the Report Says Not a Word About the Toronto Cadets. Tampa, Fla., Feb. 10.-The adoption o delegates on the necessary Congressional action for the betterment of the militia, action for the betterment of the militia, acmy and naval reserves, last right, practically closed the work of the National Military Congress. At this morning's session, after extending a vote of thanks to Governor Bloxham and others whose efforts have done so much towards bringing about the successful termination of the Congress, the body adjourned, subject to call of General Butterfield, who will call another meeting, to be held in New York, should the necessity arise. The experience of the past and the progress of the present unite in the management of these old established dycing and cleaning works. In this brief fact you have the history of our success, and the favor that our work meets with among all classes the Bominion over, R. Parker & Co. Dyersand Cleaners, Head Office and Works, 787-991 Yonge-street, Toronto, Branches: Montreal, Hamilton, Brantford, London, St. Catharines, Galf, Woodstock.

SILENCE AT LAST BROKEN

Minister of Public Works Preparing the Way For Announcement

THE WORK "EXTREMELY ARDUOUS."

glected Nothing That Would Secure a Treaty Without Making a Sacrifice of Our Public Dignity for All It is Worth-Mr. Tarte. Result. Even Though the Commis-

Montreal, Feb. 10 .- (Special.) - All eyes have been intently turned towards La Patrie since Hou. Mr. Tarte's return from New York, expecting to see some indication as to how the cat was jumping at Washington. Those who interpreted the silence of the Minister of Public Works to mean no treaty were right, but all felt that Mr. Tarte would lift a small corner of the vell sooner or later and the problem is, why did it not come sooner? Patience, however, has at length been rewarded, for a leader

Hon. Mr. Tarte Lifts a Corner

of the Failure.

in the Minister's personal organ reads as

in the Minister's personal organ reads as follows:

The work of our representatives at Washington has been extremely arduous. The Canadian Commissioners have, indeed, neglected nothing that would secure a treaty between Canada and the United States without making a sacrince of our public dignity and our national interests. They have, in fact, done everything in their power in order to conciliate the American mind, and if it happens that the interests as stake and the exigencies of politics render abortive the work of the commissioners, the conference even then will not have taken place in vain.

The international commission will, as a matter of fact, have been of great utility and of inestimable value from a national standpoint, and why? Because it will have brought about a signal rapprochement between our two countries, and will have permitted our public menon both iddes of the line to know and appreciate each other. It will, in a word, have given our Dominion of Canada and our leader, Sir Wilfrid Ladrier, a new prestige and an enhanced reputation abroad.

After reading the above from the pen of a man who had just attended a full meeting of the Canadian Cabinet at the Waldorf-Astoria, ninety-nine out of a hundred would declare, without a moment's hesitation, that

Hon. Mr. Cotton has introduced a bill providing that every free miner shall be entitled to exercise all the rights of the Crown to prospect for minerals over all lands in the province, whether owned by railway companies or otherwise, and making it lawful for the Attorney-General to protect free miners at the expense of the Crown in any sult or action by a railway company with regard to such rights.

A Government bill to amend the Provincial Election Act proposes to disfranchise the civil service.

Some of the newspapers to regulate the monopoly, but just how it got a foothold in the country and how the Canadian wells were manipulated, and how Parliament dealt with duty on coal oil without beneating anybody—these are things which if known might help to bring about an improvement of the situation. The World is open to receive information.

Still Jack Frost is King.
