

Snowballs in the morning. Baseball in the afternoon. That's variety for you.

Tonight our bowling sharks will meet a brace of Hamilton teams. Regrets for the visitors—are in order.

Hark! A voice from the sepulchre of newspaperdom has been heard. Cite this:

"It is no wonder that real sport doesn't flourish in London-in-the-Woods. Some of the sporting writers there seem to have a hammer out all the time, and the words 'fake' and 'job' are worked into nearly all the original sport matter that appears in the columns of the Cockney sheets. The chances are these 'wise' pencil-pushers were stung at one time by the crooked foot-racers that made London their headquarters."—Hamilton Times.

Wouldn't that twizzle your whiskers? The funny part of it all is that the alleged scribe who penned the above item hates London Advertiser sporting write-ups so much that he has been reproducing them in the Times almost every day. The cause of the latest howl from "Blufftown" was that we ventured to suggest previous to the Burns-O'Brien fiasco that the bout might or might not be on the square. Light up, dopest—your pipe is out.

The Toronto Telegram says: That O'Brien-Burns fiasco is just one more evidence of what a crooked sport foot-racing has become. Fake! Fight or Foot-race! And if you amend by knocking out the two middle words you'll have an exact description of that Los Angeles affair.

Capt. Ben Waterworth, of the London challengers, alias the Ideals, cannot keep out of difficulties. Last night the gallant Benny successfully upheld his reputation as a crack bowler by setting the pace for the Liberal Club boys. Ben rolled a splendid total of 470, the highest of the night.

Whilst at the Liberal Club next Wednesday night. A large crowd is looked for, and will undoubtedly be on hand.

For the benefit of local athletes we have been requested to state that the cost of registration in the C. A. A. U. is 25 cents. Forms may be procured by addressing N. H. Crow, 415 Yonge street, Toronto.

Now that we've all heard Tommy Burns' side of the Los Angeles fizzle, it seems meet to give "Jaun" a chance to talk. In a recent interview the real estate merchant is quoted as saying that not only were Burns and Manager McCarrey in on the "frame-up," but that Mac actually flipped a coin to decide which of the pugs should lay down. Nice clean work, eh?

The Springfield League is fortunate; it will have had a brace of openings ere the day is over. It was understood last Saturday morning that the league would open that afternoon. However it appears to have been a pure case of "didn't take," and they are going to do it over again today. The boys are entitled to an "opening" every week if they want it, and the best of support is none too good for them.

The Toronto Y. M. C. A. will hold a spring championship meet on June 8. In all there will be fifteen events. The running events, of which there are seven, range from 100 yards to five miles. All contestants must be registered under the C. A. A. U.

Referee Eytton's actions in calling off all bets in the Burns-O'Brien bout is very much open to criticism. Of course, Eytton was only working under instructions from Manager McCarrey, but even then he should have made it his business to determine the reason for the action. Burns' story as to the frame-up but lends color to the rumor circulated several weeks before the bout that it would not be on the square. On every possible line of reasoning Burns should at least have an even-money proposition. In their first bout Tommy really earned the decision, and how the dopests could place the odds at 10 to 6 and 10 to 8 on O'Brien is something for the sports not in on the "know" to figure out. It certainly seems to be about time to ring down the curtain on ring men like O'Brien. Burns might have been on the square in asking that bets be declared off, but the average sportsman would have been better pleased had he allowed the "sure-thing" bettors to be nipped on their own medicine. Many inquiries have been received in this office as to whether Referee Eytton's decision regarding bets would apply outside of Los Angeles. The answer has always been that it would. Of course, there are instances where the wager was put on the result of the contest, irrespective of frame-ups, etc. In such cases, the bets should stand.

The Rockets and Stars clash in the opening round at Tecumseh Park this afternoon, and the Perrins and McClarys wind up the show. The management has announced that fans will not be allowed to sit in the stands today in their shirt sleeves, and that fans, ice-water and other hot weather paraphernalia can be found in the lobby.

[Written Specially for The Advertiser by J. V. McCarrey]

Summing up the Toronto Horse show, it may be said to have been a success in every sense of the word, but from a financial point of view. As the gentlemen who promoted it are well satisfied to be the small loss that will be divided among them, and as it is not particularly in the interests of horsemen or public that money should be made out of such enterprises, there should be no complaint coming. There was little criticism of the judges, except that medium that is inevitable from dissatisfied exhibitors who can see no faults in their own horses. On the whole, the judging was well done.

There are a couple of exceptions. In one class, calling for horses to be shown to gig, cart or phaeton, one of the entries was hitched to a runaway, and thus accounted won a prize. In another class a sweet little horse called Cupid beat another good one, Easter Belle. The next day Easter Belle was second and Cupid was not among the first four. The awarding of a prize to the 14-hand pony Sharpshoot, in a class for entire horses best calculated to improve the type of carriage horse, was a mistake, notwithstanding the fact that Sharpshoot was about the most brilliant thing ever seen in a show-ring in Toronto. His size should have disqualified him, especially in competition with Laramie the Great, the successful trotting sire from Buckingham, Que.

Hon. Mr. Beck did not do as well with his harness horses as last year, not that he did not have as good a string, but because one of the judges was evidently a stickler for speed. The only fast horse the Becka showed was Sparkie, and her lack of size and questionable back found a sterner critic than last year, when she was put over the big gelding Montrose. In saddlers or rather hunters, the Minister of Power, as he is called did very well indeed, although his harness was rather lucky. In the opinion of some good judges, Mr. Beck is a finished horseman, perhaps the best of his weight we have among Canadian amateurs. Whether he is driving Sparkie or a four-in-hand, or putting a hunter

over the jumps, or stopping a runaway team, he is a horseman through and through.

To strong criticism in one department the managers of the show are certainly open. Their programme was bad. Its most serious defect was that it gave only the names of the horses, their height and color. It should have contained the pedigree of every animal. What could be more interesting than to know how such a gem as Sparkie was produced? It happens she is trotting bred, and sired by the same horse as Montrose, the champion harness horse, and Othello, the snailie champion, but the programme is dumb on these vital questions. To get the pedigree on the programmes, it would be necessary to begin with the request the manager sends out for entries. He could then insist that every horse entered should have his pedigree furnished. Another improvement would be to have the classes numbered in the order in which they are to be judged, instead of the present arrangement under general types.

The Kentucky Derby is the second oldest running race on the American continent, the Queen's Plate being the oldest. Some notable horses have started in the Kentucky event in years past, and not always the winners have afterwards proved themselves the best horses. For example, Ten Broeck, perhaps the most famous American thoroughbred in history, ran unplaced in the first Derby. Parole was not in the money in the second Derby. Hymar, the great racer and sire, was left at the post in 1873. Runnymede was beaten by the bookmakers in 1882. The year before, Hindoo, sire of Hancover, sire of Hamburg, the best of American sires, won easily. In 1889, the greatest year of all, Spokane beat the supposed invincible Proctor Knott. Halma, Ben Brush, His Eminence, Lieut. Gibson and Plaudis are among the other cracks that have won the classic event. It is evident that the horses in the race of late years are not like the earlier giants.

Changing the conditions of the Chamber of Commerce race at Detroit, for 2:12, instead of 2:24 paces, was a

wise move, as proved by the unusually large list of entries. It lets in a lot of pacers that were getting an education on the half-mile tracks the year before, and so adds to the interest of the contest. As a matter of fact, it is mostly certain that a horse will have to step in about 2:06 to win, so the 2:24 was an utter absurdity. Between the fastest and the slowest class of Grand Circuit pacers that win there is not much more than a difference of five seconds on the average. Half a dozen classes would fairly hold them all.

The Ontario Jockey Club has increased the price of admission to \$1.50, so that as usual it will be the good old public that will first feel the effect of the recent supreme court decision.

The stakes at Windsor have all filled well, despite the uncertainty re betting, more than 200 horses having been named to go out for some of the money. In the Windsor selling stakes there are no fewer than 60 entries.

H. H. James, of Hamilton, has Quintell entered in the Oakland Baron stake for 2:10 trotters at Poughkeepsie; Miss Wilks has Katherine L. in the class for 2:18 trotters, and Emma Hoyt in the 2:16 class. Among the

others in this event is Lillie Stranger, owned by the famous pugilist, Tom Sharkey, who is an enthusiast in trotting. James has Robert Lee in the 2:07 pace class, and Johnson Bros., of London, Ont., have Geary. Among the horses entered in this stake is Blacklock, the famous pacer who has been the subject of a great deal of speculation. He will be sold at auction next week in the Billings disposal, and looks to be the best pacer prospect in sight if he stays sound. The great Canadian-bred gelding Gallagher will be sold at the same time, unfortunately, his mark of 2:04 makes his earning capacity limited.

Arthur Bedford, of Chatham, has bought a likely 2-year-old by Mobel-Norset, and will train him. D. H. Chambers, of Souris, Man., is said to have a very promising one by Bryson-Democracy, rounding into form. R. Hetherington, of Souris, has sold Bryson-Wildcat to J. W. Brown, of Boissevain. A syndicate from Daly, Man., has bought Royal Cedric from Joseph Gibson, of Vislen. A 3-year-old black colt, The Black Prince, by Prince of India, out of Claret, is reported sold to Canadian purchasers, from New Jersey. John Rombough will drive the Swartz horses this year.

BURNS IS SIGNED TO MEET SQUIRES

Fight To Be Held at Colma, Cal., on Decoration Day—Jefferies to Referee.

Los Angeles, Cal., May 10.—Tommy Burns and Barney Reynolds, representing Bill Squires, yesterday afternoon signed articles for a fight between the Canadian and Australian heavyweights, to take place on the afternoon of Decoration Day at Colma, under the auspices of Jimmy Coffroth. There is one condition in the contract, which is that if the fight is not made by May 30, Coffroth is empowered to postpone the fight to the afternoon of July 4.

There was plenty of discussion before the fighters could come to terms, and the argument over the selection of a referee, that finally culminated in Jefferies being named for a time threatened to be the cause of breaking off negotiations. Burns stood out at first for George Siler. To this Reynolds objected. He declared he knew absolutely nothing of Siler, Reynolds finally agreed to take Jefferies. It took over two hours to find the big fellow, but when he was approached he accepted, notwithstanding he has promised Coffroth he will fight Squires in case the Australian wins.

Jefferies is to receive \$1,000 for the job. That the fight between the men will be a contest to a finish, and that they want a decision not on points but on ability to punch is evidenced by the fact that each man agreed to make it a 45-round fight without the slightest hesitation.

INFERNO'S MILE FASTEST OF YEAR.
President Seagram's great Provincetown, looking in trim shape for the races, worked the fastest mile of the year at Woodbine yesterday, galloping the distance in 1:44 flat. Inferno is in grand condition this year, and is the finest looking horse at the track.

The Seagram Platers also performed stunts for the edification of the early morning railbirds. Assemblyman, the hope of the stable, worked a mile and an eighth in 2:04. Sea Wall covered the same distance in 2:08, and Half a Crown in 2:05 3-5. Haruko, the 4-year-old, Reno de Saxe, and Supper Dance ran a mile in 1:48.

G. Giddings' Plater Up-to-Date, worked a mile in 1:49 1-5. The Davies candidate, Capstan, went the full Plate distance with Loupania in 2:18 1-5. New Mown Hay stepped off a mile in 1:45 1-5.

HUGO AND TWIN DRAW

Sullivan and Kelly Go Twenty Fast Rounds at Frisco.

Los Angeles, May 11.—Jack (Twin) Sullivan and Hugo Kelly fought 20 rounds to a draw before the Pacific Athletic Club last night. The decision was received by the crowd with satisfaction. Kelly scored the only clean knockdown of the fight in the fourth round. He sent Sullivan to the mat with a left to the point of the jaw. Sullivan recovered quickly, however, and finished the round without trouble. In the eighth round Kelly knocked Sullivan to his knees, with a blow that landed below the belt. Referee Burns cautioned Kelly, warning him about the foul. The Boston fighter recovered almost on the instant, however, and seemed unharmed.

The seventeenth was the best round of the fight. Kelly rushed throughout the entire three minutes, and both fought with vigor, the Chicago fighter having the better of the milling.

It's Time to Think of Bicycle Riding

Nothing ever happened to the bicycle. Nothing ever came along to fill its place. Nothing ever turned up to make the bicycle less useful than it always has been. Nothing in the final outcome of the wide and general use of the bicycle ever tended to show that it is not a most handy vehicle for speedy and direct locomotion, as well as for healthy, pleasant exercise.

It is a good guess to say that the falling off in the once surprising enthusiasm for the bicycle was owing to its having reached a fixed standard of construction and equipment. Every year used to bring around a new feature of improvement for the bicycle. When invention along this line ceased the buying of bicycles lost its novelty.

Once all bicycles were hard tired. If invention had stayed there the bicycle fever would have cooled off in 1888. But in that year Dunlop Pneumatic Tires were introduced and interest in the bicycle took a fresh new start.

And in this season of 1907 Dunlops once more put out a new style of tire as an improvement to the bicycle. In general features it is the same "these are the only tools you need" tire, but it is made by the Doughty Process—a valuable patent controlled exclusively by the Dunlop Company.

PLAYED IN THREE INCHES OF SNOW

Woodstock and Galt Tie in Opening Game of Intermediate W.F.A. Series.

Woodstock, May 10.—In the opening game of the season in the W. F. A. intermediate series, played here tonight, Galt and Woodstock played a tie, one all.

The game was played on a field covered with three inches of snow, thus rendering anything like fast work completely out of the question. The players rolled and tossed about the field like small crafts in a heavy sea, and many amusing incidents were furnished to the spectators.

There was no score at half-time, and Woodstock scored the first goal shortly after the opening of the second half. Galt evened up in about five minutes before the time. The home team had the best of the argument throughout, and should have won easily.

F. Hawk, of Galt, made an impartial referee.

The teams: Galt—McLeod, goal; Bullock, R. Dakin, backs; Kilgour, Sinclair, Galbraith, halves; Brown, Dahoner, Burden, W. Dakin, Guilford, forwards.

Woodstock—Sneath, goal; Healey, Karm; McLean, Kuhn, Kent, halves; Richardson, Dove, Dean, Cameron, Burgess, forwards.
