Stand by Brotherhoods.

"The great proportion of the unions concerned," said one official last night, "will stand loyally by their brotherhood organizations and the railway companies. They realize that in addition to being under obligations to continue on duty, they have everything to gain by doing so." Several of the chiefs of the railroad organizations conferred for several road hours with Senator Gideon D. Robertson, minister of labor, last night. No statement was given out after the conference.

In addition there are three other groups of workers, totalling over 15,000 men, which have voted to strike if demands are not met. There are the textile workers, the sugar refining workers, and the railway shopmen. The latest date set for any of these strikes is Wednesday next.

A joint committee meeting at which all groups of workers are represented at present on strike is to be held this morning.

would be a resumption of hostilities on Saturday, June 21, if the Germans refuse to sign.

The indisposition of the council of four to submit the revised German treaty to a plenary session of the conference before sending it to the Germans is, however, causing another protest from the small powers, which resent "steam-roller" methods. This may force the calling of another plenary session, which would cause further delay. The small powers are dissatisfied with assurances that the changes made in the treaty are slight, and many of the delegates are insisting upon an opportunity to fully consider the treaty before it is presented to the enemy peace misson. Peking, June 14.—In consequence of difficulties created by the popular movement against pro-Japanese members of the government, the cabinet has resigned, and President Hsu Shih Chang has also intimated his intention to quit office. It is anticipated that parliament will decline to accept the president's resignation. This would amount virtually to a vote of confidence in the chief executive, which is needed to strengthen his hands in his fight against the militarists. Strikes throughout the country continue. Railway traffic is being impeded. The situation in China is awkward.
