The annual visit of the Kneisel Quartet to Toronto is a contribution to the cause of chamber music by the Women's Musical Club that is very greatly appreciated by the lover of music. They will be heard at Conservatory Hail on Friday evening of next week, Nov. 27. Reserved seats will be on sale at Nordheimer's on and after Thursday, Nov. 26.

Next week at Shea's Theatre a great bill will be headed by Maude Nugent, the dainty singing comedienne. Other big favorites on the bill are Hal Davis and Company, presenting "Pals"; Swarty and Jerome, the Three Wes-tons, Hoey and Lee, Cooke and Clinton, Brothers Artois and the kinetograph.

"In at the Finish," the new rail-road drama to be presented at the Majestic next week, is said to contain a scene that is the best stage picture ever produced and excels the ex-citing train-auto effect in "Bedford's Hope" that created such a furore the past three seasons.

Cheap Books.

Speaking of cheap school books, this reform had been going on steadily since June last. Copy books, which formerly cost 35 cents for a set of five could now be got for 10 cents a set. High school algebras costing a dollar for a poor book could now be procured for 50 cents, and it was a better book. This Company Holds 22 Timber Berths, Aggregating 52 sq. miles" (33,280 Acres), All Carefully Selected, Containing Over 800,000,-000 Feet of Finest Timber, Bought by this Company at the Exceptionally Low Figure of 26c per 1000 Feet.

All of this timber is located in the Willow River District on solid level ground, lies close beside good water for logging, and is mostly White Spruce of a superior quality. It averages 30 inches in diameter and ranges from 90 to 160 feet high. The limbs commence half way up. There is some good tall Pine and Balsam. The Grand Trunk Pacific and the Canadian Northern surveys both cross the Willow River lower down than our limits.

The limits were cruised by James A. Anderson, of Sutton West, an Ex-Crown Timber Agent, and the company has on fyle at its office a number of letters from some of the most prominent business and in Canada in recommendation of his capability and integrity, and from settlers in the Cariboo District verifying his report of the timber.

The company has also issued in pamphlet form the report (dated Oct. 31, 1908), of Mr. H. P. BELL, M.I.C.E., member Am. Soc. C. E., at present the Superintending Engineer on the Government Staff on the Trent Valley Canal at Campbellford, Ont. who was employed by the British Columbia Government in 1874-5-6 to make a survey up the Willow River Valley for the proposed route of the British Pacific Rallway, and who cut the Government Pack-trails through the Willow River District in 1895. His report substantiates Mr. Anderson's in every detail, and in view of Mr. Bell's pre-eminence among the Civil Engineers of America, among whom there is no higher authority on the topography of the Cariboo District, his report will be universally accepted as being entirely correct. Mr. Bell was recommended to this company by Mr. Collingwood Schreiber, Consulting Engineer to the Dominion Government and Chief. Engineer of the Western Division of the National Transcontinental Railway.

GOOD TIMBER well located, is the safest and best investment in the world to-day. The C.P.R. holds several limits in British Columbia, and after reserving the best, is selling the second-class timber at \$2.00 per 1000 feet on the stump. If we sell our selected timber at the same figure in three years, on a basis of \$224,000 paid up capital,

Each \$100 Invested To-day Will Bring a Return of \$859.42

This is not exaggeration; \$2.00 per thousand for good timber is a ridiculously low price.
