SIMPSON DULY ELECTED OPINION OF MR. HODGINS

All Members of Board of Education Have Right to Vote on Vacant Seats

The board of education has received the opinion of Frank Hodgins, K.C., that Henry Simpson is legally entitled to a seat on the board as successor to the late H. A. E. Kent.

Two questions were submitted to Mr. Hodgins: Whether Mr. Dineen, as an appointed member, had the right to vote at the election of Henry Simpson, and whether Henry Simpson, as a member of the board, had the right to vote at the election of Henry Simpson.

Mr. Hodgins' opinion is that the board of education is empowered to elect a member to fill the vacancy created by the death of Mr. Kent, and that Henry Simpson is legally entitled to a seat on the board as successor to the late H. A. E. Kent.

AFRAID OF BLACK HAND WOMAN ASKS FOR JAIL

Joseph Russo, Charged With Shooting, Pleads Self-Defence and Wife Asks Protection.

Tales of black hand outrage and threats have been slow to find credence in the minds of the Toronto police and public, but the scepticism of the former was rudely jolted in police court yesterday morning when Joseph Russo, charged with shooting with intent to kill Joseph Mussolino, told with much elaboration of the circumstances, in which he is fully corroborated by his wife, that the shooting arose out of the black hand threats of Mussolino and four other Italians.

The truth of their statements was further substantiated by the arrest of the wife, which led her, as on the occasion of her husband's arrest, to choose rather to go to jail than to face the danger of assassination at the hands of their enemies.

Magistrate Kingsford was impressed with the story and ordered the arrest of Mussolino, and rushed detectives into the ward with Russo, still in custody, as guide, to capture the other members of the alleged band. The search was unsuccessful.

Russo went into the box yesterday morning and stood by his wife. He denied that he had owned any money to Mussolino, but declared that on the evening of June 22 he had come to his, Russo's, home at 12 Centre-avenue, with three other men, they declared that they had seen his money there and that he had taken out a roll of \$210 to give his wife some money, and believed that the men had seen it from Mussolino's house, which adjoins that of the Russo. He told them he had no money,

and they began to beat his wife. He fled to his trunk and got his revolver. The men chased both him and his wife with knives. At last Mussolino approached, and he shot him twice before he fled. Russo then to the police station and met an inspector on his way, and gave himself up. This was confirmed by the inspector.

Detectors Murray and Montgomery, who accompanied Russo in search of the other alleged black hand operators, were told that they had left the city, but will continue the search. Meanwhile the case is adjourned a week.

Police Court Penalties. Ella Glad wept when brought into police court yesterday morning charged with theft of a diamond ring from Mrs. W. G. Moore, Augusta-avenue. The case was adjourned till to-day.

Thomas McConnell pleaded not guilty to obtaining \$50 from David Russell by false pretence and will appear again July 13.

James Muthall went to jail for 30 days for theft of clothing. William Milne goes away for 30 days for theft of tools. Harry Baker will come back to-day to answer a charge of theft of theatre tickets while cleaning up.

CITY TREATED UNFAIRLY SAY MANUFACTURERS

Railways Should See Folly of Reversing Further—J. S. McKinnon New President

The Toronto branch of the Canadian Manufacturers' Association held its annual meeting yesterday, and besides transacting routine business, took occasion to pass judgement on a number of matters which are now claiming public attention, praising this and deploring that line of action.

The railway companies received a liberal share of criticism from Chairman Frank A. Rolph in his retiring address, for tardiness with respect to the viaduct and new union station. Commendation was offered of the trunk sewer and filtration plant scheme, but improvement was endorsed in the Yonge-street widening plan, was approved, while the building and smoke byways were rated as being over severe and oppressive.

About one hundred members were present when the meeting opened at 2 o'clock with Mr. Rolph in the chair. There were no contests for the chairmanship and vice-chairmanship, which went to J. S. McKinnon of S. F. McKinnon Company, Limited; R. S. Gourlay, of Messrs. Gourlay, Winter & Leeming, respectively.

Extension of Boundaries. Mr. Rolph touched on the various annexations of suburbs of the city and continued: "So far, this policy of extension has met with the endorsement of manufacturers, but in these days of giant enterprises there is a tendency to over emphasize magnitude, and would remind the city fathers that size is not everything. It would be well to go slowly in the annexation of further territory."

Referring to expenditures for schools, the chairman said: "While I can heartily endorse Mayor Oliver's words in this regard, I cannot altogether agree with him in his criticisms of the increasing expenditures on our schools. No doubt the cost of our school system has increased very rapidly in the past few years, but we must remember that the growth of our city in population has been even more rapid. Then too, the children of this generation are given more numerous and varied facilities for study than those of our day. Far from deploring the increased cost, I would endorse it, provided we are getting good value for our money."

"As manufacturers," said Mr. Rolph, "we are particularly gratified at the increased attention that has been given to technical education, and while the present facilities are entirely inadequate, we are glad to know that the members of the board are at last fully seized with the true meaning and value of this kind of training and are now working unanimously for a technical school worthy of a great manufacturing city like Toronto. It is hoped that no short-sighted economy on the part of the city council will enable Montreal, which is already assured of a fine school, to excel us."

The Viaduct. "While the viaduct is still a matter of the future," said Mr. Rolph, "and a good part of Toronto's water front still resembles the ruins of Pompeii, there is no doubt that the execution of the viaduct scheme and the construction of our new station is much nearer than it was a few months ago. The altered attitude of the board as to the elimination of grades on the water front submitted by the railways was at best only a partial and temporary solution of the difficulty and I am sure the refusal of the railway commission to consider it, met with the approval of all our people. The building of a new union station just as quickly as we can get them, and I can only hope that the administrators of our great railways will see the futility of endeavoring to evade their obligations, in striving to press for further negotiations."

"The railways should realize by this time that the minds of the people of the City of Toronto are made up on this question. Surely it is high time which is her due. The voluntary improvements which the railways are undertaking in connection with the cities of Montreal and Ottawa, costing them millions of money, is further proof that Toronto, with its dangerous level crossings, defaced water-front, and abominable Union Station, should be treated with that consideration which is her unquestionable right."

Harbor. Improvement in the harbor demanded immediate and earnest consideration from the civic administrators. "I may be optimistic," he said, "and most of you, I dare say, will call me visionary, when I make the remark that, some day, I believe, we will see Toronto an ocean port."

Touching the Yonge-street widening scheme, Mr. Rolph said: "The practical difficulties in the way were of course numerous, but not insuperable, and if the property owners on Yonge-street approached the question in a spirit of reasonableness, making a self-sacrifice to-day for a sure return to-morrow, it could be accomplished."

Building By-law. Mr. Rolph said he desired to reiterate the remarks made by his predecessor a year ago, regarding the various city by-laws which unduly restricted manufacturing industries. "One of the worst of these is the building by-law, which I am told, more severe in its application to factory buildings, at least than that of any other city in North America. The manufacturers naturally do not want flimsy, unsafe buildings, but they do not see why Toronto should have more excessive restrictions than numerous cities in Canada and the United States. The smoke by-law is also a severe restriction on a number of factories, the nature of whose operations makes some offensive smoke inevitable."

Labor Legislation. Another feature of civic legislation that had come to his mind, was the wholesome tendency to initiate class legislation in the shape of restrictions on the hours of labor.

The chairman also complained of the fire insurance rates as fixed after the completion of the high water pressure system. The companies, he thought, had not made the reduction that in
