**SING-SING LIFERS DINED BY RELEASED MAN**

Ossining, N.Y., April 29.—Seventeen men who are serving life sentences in Sing Sing Prison were guests last night at a dinner in the residence of Warden Lewis Lawes, given by William Perry, who was released today after serving 15 years of a life term.

Perry's sentence was recently commuted by Governor Smith after the prisoner's politeness while serving in the warden's home had attracted the attention of the governor's military secretary, who investigated the case, and interceded in his behalf.

The prisoners who attended the dinner last night were permitted to cross the road from the prison to the warden's residence, unguarded, after they had given their word of honor not to attempt to escape.

**ATTEND CEREMONIES.**

Kingston, Ont., April 29.—(Special.)—Hon. R. H. Grant, minister of education, Sir Henry Drayton and Brig. Gen. Ross have been asked to come to Kingston on Victoria Day for the ceremonies in connection with the laying of the corner stone of the new public school to be erected in Cataraqui Ward.

## STORY OF GROWTH OF HUGE BUSINESS

**"Golden Jubilee" Marks Fiftieth Anniversary of T. Eaton Company's Founding.**

In "Golden Jubilee," a book to commemorate the fiftieth anniversary of the T. Eaton Company, the "Story of the evolution of the industry in the same way as histories of Canada, France or England tell of the evolution of a nation. After reading this "historical survey" carefully, it is not easy to determine whose interests the management considers most—the interests of the public or of its employees. Apparently nothing has been overlooked that could assure satisfaction to the public and comfort to the employees.

The book neither boasts nor advertises. It states plainly and humbly the progress of the concern from its inception in 1869 to its present position in the commercial world.

The first chapter is an entertaining resume of the events of the year in which the store opened. Then part two deals with the company's commencement of business in 1869. The founder and his successors are the subject of the fourth part, which includes biographies of Timothy Eaton and Sir John C. Eaton, by Augustus Bride. Parts five and six are devoted to "Eaton's of Today" and "The Celebration of the Jubilee."

The book is profusely illustrated and contains many interesting anecdotes and stories of human interest. Twenty-eight pages are occupied with the names of employees who enlisted for military service.

### Canada's Importers Protest Against Prepayment Demands

Ottawa, April 29.—The action of United States railroads in demanding prepayment of freight charges on shipments from the United States to Canada has not yet come under the official notice of the Canadian Railway Commission. It is understood that the Canadian importers will protest to that body and several representatives of Canadian importers are expected in the capital today, and will seek a conference with the railway commissioners.

The matter of prepayment of freight charges has become a vital one to both shippers and consignees, because of the adverse exchange situation.

### MONTREAL NEEDS HOUSES.

Montreal, April 29.—The Tenants' Protective Association this morning stated that after May 1 there would be over 250 English-speaking families homeless, owing to the scarcity of houses and apartments.

## WORK TO THE RULES, NOW LABOR POLICY

**Decision of British Unions May Lead to Wider Stoppage of Work.**

London, April 29.—A labor development which may result in a more general stoppage of work throughout the United Kingdom on May Day than has been considered likely manifested itself this morning in an announcement that the London Council of Railwaymen had decided that, beginning Saturday, its members would work on a strict "work to the rules" policy. Such a policy, it is declared by union leaders, would lead to serious railway congestion and even nationwide stoppage of traffic if the movement shall become general. The smooth running of the railways, it is maintained, depends upon the initiative and resource of the workers, which involves the continual breach of some instructions on meeting contingencies which cannot be contemplated in the framing of any set of rules.

Action to carry out the "work to the rules" policy was first taken a few days ago by the Liverpool Council. It is now reported that the decision of the London Council will be emulated by the workers in other centres, including Manchester, Glasgow and the South Wales district.

The Liverpool and London unions declare they will maintain their new order until their demand for an advance of 61 weekly is granted. The national headquarters of the railwaymen said today that the policy was neither authorized nor advocated by the national executive body.

### OTTAWA SETS EXAMPLE; REDUCES PRICE OF MILK

Ottawa, April 29.—Commencing Saturday, milk in Ottawa will be 12 cents a quart to the consumers, instead of 14 cents, as it has been since last fall. A correspondingly lower price for cream will be in effect also. The reduction comes as the result of a more favorable contract between the dairy interests and the farmers. This reduction is one of the items contributing to the high cost of living and will be wholeheartedly welcomed by the citizens. Whether a further reduction will be made during the summer is not yet known. Buttermilk also takes a slight drop.

## PENSIONS INQUIRY IS NEARLY ENDED

**Col. Margeson and Major Burgess Explain Suggestions Made by G.W.V.A.**

Ottawa, April 29.—(By Canadian Press).—The pensions end of the investigation now under way by the special committee on pensions and re-establishment has been practically cleaned up. All that remains is for the committee to review the evidence already heard and decide as to whether further witnesses need to be called.

If the committee decide that it has sufficient evidence before it to warrant a decision on whatever changes in the pension law are necessary, it is possible that a series of closed meetings will be held, when the facts will be gone over and the main features of a report to the house decided upon.

There is a move on foot among a certain section of the committee to have the pensions matter disposed of before taking up the re-establishment end of the investigation. This is finding many backers and will be the chief subject to come before the committee when it meets in camera tomorrow morning, the public opening the sittings to the public.

### Open to Suggestion

If it is decided to thresh out pension matters in private there will be a lapse of several days before any more evidence is heard, it is expected. The pensions section of the report will not be brought into the house, nor will it be made public until the re-establishment evidence is all in and the report on that also is ready, it is expected.

The chairman, Hume Cronyn, emphasized tonight that while many members of the committee felt that they had sufficient pensions evidence before them, they would not close the door to anyone who wished to bring new matters to the table.

Today was spent on an examination of the proposals of the Great War Veterans and the pensions commission. The latter have drafted some suggested amendments to the act, which they state will outline their powers more clearly, and also remove some of the drawbacks to be found in the present measure.

Col. J. W. Margeson and Major W. A. Burgess went over the suggestions of the veterans today, explaining the purpose of each and telling of the improvements hoped for thereby.

**Vitality Lowered.**

Answering Mr. MacNeil, Major Burgess admitted that many of the pensioners had been lowered by war service. The clause in regard to payment of pension during imprisonment
