**HAD DYSPEPSIA**  
So Bad Could Not Take a Drink of Water Without Suffering.  
Dyspepsia is one of the most difficult diseases of the stomach there is to cure. You eat too much. Drink too much. Use too much tobacco. You make the stomach work overtime. You make it perform more than it should be called on to do. The natural result is that it is going to rebel against the amount of work put on it. It is only a matter of a short time before dyspepsia follows.  
That old, forty year old remedy, Burdock Blood Bitters, will cure the dyspepsia and will cure it to stay cured as we can prove by the thousands of testimonials we have received from time to time.  
Miss Sarah McRae, Newfield, Ont., writes: "I write to say that I have used your Burdock Blood Bitters, and have found it the best remedy I have ever used for dyspepsia. I took one bottle, I had stomach trouble so bad that I could not even take a drink of water without suffering. I took one bottle of B.B.B., and have been entirely cured, and can now eat anything without any bad after effects."  
Burdock Blood Bitters is an old and well tried remedy but on account of the many substitutes we would ask you to make sure that our name appears on both the label and wrapper as this preparation is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

**BRITISH NAVY MEN HAVE**  
IT HARD IN NORTH SEA

Another account of conditions in the North Sea, as given by Herbert Corey, says—  
"The navy knows, in a general sort of way, what particular variety of shoe the men on guard in the North Sea are living through. Boots were taken from the ships at the first word of war. The wooden furnishings were stripped away. For days the North Sea was cluttered with bobbing pianos and mahogany chairs and the thousand and one articles that make man-of-war life endurable. For four months the men have been living in steel boxes, in the most abominable climate in the world.  
"You can't put on enough clothes to keep warm," said a retired officer. "The raw wind cuts you like a knife. The North Sea is half fog and half snow."  
Add to that the strain under which the men live. If an enemy's torpedo gets home, they must all die. This is hard.

AN IRISH SOCIALIST  
From Dublin (Irish Socialist) a "trava avis" for St. John is to address the Socialist meeting Sunday 8 p.m., in Odd-fellow's Hall. An English Socialist was the speaker last Sunday, and the "cab" Socialists of St. John inconspicuously demonstrated amazingly rapid intellectual growth in criticizing his remarks. The power of the great Socialist movement was distinctly felt.

OVER PALESTINE?  
Suggestion Made by London Chronicle as to Future of Holy Land  
London, Jan. 18.—The Chronicle editorially suggests that the United States may eventually be called upon to exercise a sort of suzerainty over Palestine. "When victory crowns the banner of the allies," it says, "the doom of the Ottoman Empire will be sealed. What is to become of Palestine? It is one of the great crimes of history that the cradle of Christianity should for centuries have been a part of the dominion of a non-Christian people. When the Turk goes, who and what is to take his place? Is there any chance of a Zionist ideal materializing into an actuality? At the present time, the Jews form only a bare majority of the inhabitants, but, if with the systematic help of the great powers, the Jewish state were created, a new Palestine would doubtless be a lodestar to Jews the world over, and the ancient glories of Judah might be revived.  
"Even were the new Zion to become an accomplished fact and the Jews once more had a national hearth and home, provision would still have to be made for Christian guardianship of the Holy Sepulchre and other sacred places to which every year scores of thousands of Christians, chiefly from Russia, make a pilgrimage. We assume that a new Palestine, whether it be predominantly Hebrew or non-Hebrew, will at the outset be a state with limited self governing rights under the protecting wing of some great power. Which is that power to be France has traditional claims to the protectorate of Christian races in Asia Minor, and has historic links with Syria. England is the protector of Egypt, and Palestine for ages has acknowledged the suzerainty of the Pharaohs.  
"America has for many years displayed a wonderful enthusiasm for missionary and educational work in Asia Minor. The problem of its future will not be an easy one to solve."

**THE STEAMERS.**  
The American steamer Camino from San Francisco with supplies for the Belgians, has lost her rudder off Sable Island and in answer to distress calls the government steamer Lady Laurier has gone from Halifax to her assistance.  
With eighty-three passengers and general cargo, after landing 8,810 packages of mail at Halifax, the R. M. S. Scandinavian, Captain Leth, arrived in port Glasgow, after a passage of eight days from Liverpool. Two Belgian refugees and twenty-one members of the First Canadian contingent, invalided home, were among the passengers.  
Splitting is not only a filthy habit, it's a dangerous one. Splitting spreads pneumonia and common colds as well as tuberculosis. A large part of the infections with pneumonia, common colds, and influenza is due to infected roofs and street dust. The splitter can blame himself for much of the infection that he contracts.

**WHAT CATARRH IS**  
It has been said that every third person is troubled with catarrh in some form.  
Science has shown that nasal catarrh indicates a weakened condition of the body; that the secretions of the mucous membranes are quickly affected, and local treatments in the form of snuffs and vapors do little, if any good.  
To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building tonic, free from harmful drugs or opiates. Try it.
