BANK CLEARINGS. St. John bank clearings this week were \$2,976,759; last year, \$3,183,856; in 1919, \$3,455,959. Halifax clearings were \$3,-

MORE LATE BERRIES. Another seasonal phenomenon is reported today from Kiersteadville, Kings county. Fred Urquhart, of that place, on last Saturday picked four full boxes of ripe strawberries, all of excellent flavor. Many reports of late yields have been received this year.

FOUR IN ONE.

John D. Coes, Prince street, West Side, has put on exhibition a garden the Times' window. He has produced a cabbage stalk with four large and separate heads. This curiosity, which is on exhibition in Mr. Coes' store, King street, West Side, was grown in his own garden.

Home Visitation in the Board of Trade rooms, all is ready today for the great meeting tonight for final instructions to the visitors who are to take part in calling at all the homes Friday afternoon, and every plan is complete for their assignments.

Local people engaged in the movement said that it was the most complete plan and the most thorough organization that they have ever seen in any line of work.

Application has been made by the Union Bus Co. to the city council to ask that clause six of the by-law regarding the operation of motor vehicles in the city be eliminated or amended so that the busses will be permitted to take care of the passengers during rush hours. The clause at present allows the busses to carry only the number registered as seating capacity. A letter to this effect from F. A. Campbell, president of the company, to the mayor and commissioners was read at this morning's committee meeting of the common council. Mr. Campbell said that his company was willing at all times to comply with the laws and regulations to the best of their ability.

Stay Home Friday Afternoon.

All who are not taking part in the work are urged to remain at home Friday afternoon between two and four o'clock to receive the visitors. Especially is it urged that all boarders who know they cannot be at their boarding places on Friday afternoon, give their names, and church connection or preference to their landlady or someone who will be at home, that it may be given the callers. A printed invitation to them from all the churches, synagous and Sunday schools of the city will be left for them.

Replying to the mayor, Commissioner
Bullock said he had still under consideration the matter of additional insur-

Douglas Avenue Pavement.

basins were in the area before the construction of the street. Dr. Frink said the trouble was more with the sewer than with the catch basins.

Commissioner Jones said the catch basins were near tide level and at high tide when a rain storm occurred there basins were near tide level and at high tide when a rain storm occurred there was likely to be trouble. He said the only remedy was the closing permanently of the flood gates at the Marsh bridge. He said the engineer was making a report on the matter

CHICAGO GRAIN MARKET.

cabbage stalk with four large and separate heads. This curiosity, which is on exhibition in Mr. Coes' store, King street, West Side, was grown in his own garden.

ARBITRATION.

The arbitration proceedings between the St. John and Quebee Railway Company and the owners of property near Westfield, expropriated by the company, was continued this morning in the provincial government weoms. Hon. W. B. Jonah, of Sussex, presided. The evidence of Alfred Rowley, from whom the company took some property from, was heard. Other witnesses in his behalf were W. C. MacDonald, of Halifax, Harry W. Schofield and Colin Macabonald. W. P. Jones, president of the railway company, represented them. Mr. Rowley was represented them. Mr. Rowley was represented by W. A. Harrison. The sitting of the board was continued this afternoop.

A CUSTOMS MATTER.

The department of Customs and Excise, Ottawa, has recently issued to collectors at the various ports a circular concerning the exportation of live plants to England and Wales. The letter says that on May 31, 1921, the Ministry of Agriculture and Fisheries passed an order prohibiting the importation into England and Wales of any "living plants" except seeds, such as fruit stocks, ornamental trees and shrubs, unless accompanied by a certificate of inspection. Any person contemplating the exportation of plants to the countries mentioned must also submit the approximate date on which they intend to ship and the number and variety of plants. The Dominion Entomologist, Department of Agriculture, Ottawa, will supply any further information.

The Hydro Supply.

Asked regarding the present situation regarding the city taking over the electric current from the Musquash hydro development, Mayor Schofield said that two weeks ago he had sent out an enquiry for K. H. Smith of the Nova Scotia commission for the purpose of looking into the matter further. As soon as he was available, it was intended to have a representative meeting to discuss the question and then ask the government for information that would enable the city to ascertain a definite estimate of the cost, etc. Several local bodies, he said, seemed to be getting interested in the matter, but at the present time the city had nothing in writing from the government which they might pass along to those enquiring. He referred to the visit of H. M. Kensit, who was here six weeks and prepared a report showing the cost of steam power at the local power house.

Blast Away Fart of Rock.

Work of sodding St. Peter's baseball park was started yesterday. It is the 'intention of Rev. Father Hogan to have the diamond resemble those in major league parks and the base lines and sections of the infield will be left skinned and filled in and rolled with clay and loomed soil. The outer section is also being sodded and rolled. Since the conclusion of the season hundreds of loads of earth and stone have been dumped in the centre and right field and the work of leveling to the fence is now going on. A portion of the rock will be taken off the side hill by the bleachers and will be used as a fill for the section in left centre and left field. It is expected that the field will be leveled to the fence in the near future.

When completed the park should be second to none east of Toronto. Improvements for the accommodation of fans is also being considered and will in all probability materilize before the advent time for the popular pastime next spring.

Douglas Avenue Pavement.

Commissioner Thornton referred to reports which had come to him that the new pavement in Douglas avenue was being broken through to allow the street railway to tighten some bolts on their line. He said it was time the council took action to prevent this disturbing of new streets.

Commissioner Frink said that an arrangement had been made between the road engineer and the power company whereby spaces were left at rail joints in the pavement to allow for this tightening up process after the cars had started running on the new rails.

Mr. Thornton said the report he had was that the concrete foundation was being disturbed.

Dr. Frink promised to look into the matter.

Regarding a complaint from F. E. Williams, that property in City road was being flooded, Commissioner Frink reported that there were four catch basins in the area referred to. He understood that the sewer was not sufficiently large to carry off all the flow. Only two catch basins were in the area before the construction of the street. Dr. Frink said
