

FROM THE STATES.

BANGOR, April 11.
There is continued skirmishing about Yorktown. The Confederate position extends across the Peninsula from Yorktown to Warwick. This short line of defence enabled them to command all the roads of the Peninsula.

General Lee and Joseph Johnson are reported to be in command—Johnson at Yorktown and Lee at Warwick.

General Magruder is said to have reserves at Williamsburg.

Deserters reports state the Confederate force at 80,000—thirty being reinforcements from the line of the Rappahannock.

On the Peninsula and about Norfolk the roads are in a horrible condition, but preparations are pushing forward for assaulting Confederate works. It is reported that one important position has been already gained.

Lord Lyons and Secretary Seward have a treaty in hand which, if enforced, will speedily extinguish the Slave trade.

N. Y. MARKET.—Superfine State \$5 to \$5.50; Extra do. \$5.10 to \$5.25.

April 12.
The steamers Merrimack, Yorktown and Jamestown appeared off Newport News yesterday, capturing three small vessels.

The Merrimack came towards the Monitor and Stowers, latter fired five rounds. Merrimack fired once and with consort returned to Craney Island.

Pursuit of enemy in Petersburg battle extended but little distance. During the fight Price and Van Dorn's army reinforced the Confederates. Federals lost about two thousand men prisoners.

Fortress Monroe reports indicate preparations for determined resistance to Federal advance.

Confederates can bring 100,000 men to the defence, composed of the slaves of the army, and have hundreds of guns on their works.

Bill abolishing the Slavery District of Columbia passed the House, 93 to 39.

April 14.
Confederates have been largely reinforced near Yorktown within a few days. Balloons reconnaissance also revealed this and many additional guns placed in position.

Reported that all Confederates have left the vicinity of Fredericksburg for Richmond and Yorktown, and not over five thousand between Gordonsville and Richmond.

Large reinforcements have also gone from Norfolk. Skirmishing frequent.

A assault on Savannah, Ga., expected on April 8th. Union pockets within 8 miles.

Gen. Mitchell's occupation of Huntsville, Alabama, cuts off great Southern Railway artery.

He accomplished it by an incredible forced march, taking 200 prisoners, 15 locomotives, &c.

Van Dorn's army still in Arkansas. Merrimack reported aground.

Johnson, Provisional Confederate Governor of Kentucky, was killed in Petersburg battle.

FROM THE SOUTH.

The Southern people evidently looked upon the army gathered at Corinth under Beauregard as sure to win a great victory when led to battle. No efforts were spared by Beauregard to render his army invincible. Incompetent officers were set aside without the least hesitation, and soldiers who had failed in the hour of trial were sent off. The Southern papers beautifully anticipated a terrible defeat of the Federal troops. A correspondent writing from Memphis to the "Chronicle" says:

"Our forces at Corinth and elsewhere are well arranged to take advantage of a victory which we expect will surely crown our exertions. We have now an army more formidable in all respects than any we have yet had. Beauregard, since he came West, has been very laboriously and successfully engaged in bringing order out of disorder, and courage out of dismay. He has re-organized the whole army by displacing the timid and cowardly, and those who had been tried and found wanting. Pillow and Floyd are entirely without command, and Breckinridge has only a small brigade. General Polk has been stripped of his command, and many others of the like stamp. I might mention. He has arranged all his numerous cavalry so that he avails himself of their utmost capacities, where generally they are worse than useless. Some of them, as Morgan and Forrest, keep constantly harassing the Yankee pickets, and getting in their rear. They are acting as spies."

The rebel papers give no statement of the number of troops concentrated at Corinth, but say that troops were constantly arriving. Another weakness.

The August (Ga.) "Chronicle" of March 18, has the following paragraph:—

"Merrimack, No. 2.—There is now building nearly ready at one of our gulf ports, an iron ship of about 250 feet in length, and 50 feet beam, will be supplied with a number of engines and boilers, and when she gets ready it is supposed she will be quite equal to Merrimack No. 1."

The "Chronicle" says that the trial trip of the new gunboats Morgan and Graines, built at Mobile, was made on March 5.

The Mobile "Register" of March 20 announces the arrival of the steamer Egonia, under English colors, with 35,000 stand of arms, including 12,000 Enfield rifles, about 60 tons of gunpowder, and immense stores of blankets, shoes, accoutrements for artillery, medicines and other articles.

The fall of Norfolk, moved by the stirring appeals for men to fight for the South, and any officerholder who will go to the war—that is, if the work is such as can be performed by them. The fair one says that they can for the most part write neatly, plainly, and rapidly, they do not see why they should not do the work as well as any man. They sympathize deeply with those gentlemen who have been called upon to do the work of the war; they know their only desire is to buckle on the sword and go forth."

Provincial Parliament.

Fredericton, April 10.
The Loan Bill has been before the House all forenoon. Anglin opposed it on essential grounds as the Revenue Bill, urging that with economy and retrenchment the loan was not necessary; he urged the collection of balance due by Deputy Treasurers, and to Crown Land Department. He complained of Tilley's contracting a loan and drawing £3,000 without authority; and said perhaps he had done a great deal more.

Tilley said, No.

Boyd suggested the issue of Treasury notes.

Tilley said it would be most injurious to the credit of the Province with Harings, and replied at some length to Anglin.

Much interrogatory and explanatory debate between Kerr and the above named speakers.

Mr. Williston and Costigan spoke against Loan Bill. McPhelin doubted Mr. Selles moved three months postponement. Tilley and Crocker spoke in favor. Bill carried by following Division. Yeas: Speaker, Tilley, Smith, Watters, McPhelin, Steadman, Hathaway, Penney, Meade, Stetson, Haywood, Landry, Young, McPhelin, Skinner, Crocker, Ferris, Lindsay, Munro, Chubb, Jordan and Gilman, 22. Nays: Kerr, Williston, Vail, Costigan, McPhelin, Selles, Allen, Scott, Giesse, Dillaway, Anglin, S. H. Gilbert, W. J. Gilbert, Fisher, Boyd, 19.

April 11.
McPhelin moved for Address for correspondence between Government and Deputy Treasurer at Newcastle, previous to last election.

Medical Bill passed with amendments.

McPhelin gave notice of motion censuring Government for paying Elijah Clarke money lost in mailed letter.

Crocker gave notice of motion to do away with the fishing privilege and allow members a moderate specified sum for postage.

Costigan moved for Address for Correspondence between Florence Fournier and John Costello Victoria County, and the "Board of Works, relative to the claim of Nagair Marcure."

His Excellency the Lieutenant Governor came down and gave his assent to the Revenue Bill.

Progress made in the Bank Bill.

Grimmer's Resolution to confine Crown Lands advertisements to the Royal Gazette, and printing blanks and reports of Departments to Royal Gazette, or public competition, agreed to.

April 14.
The Bill relating to the erecting of a City Hall, St. John, agreed to.

A Bill to provide for the levying of assessments and collecting rates in City of Fredericton, agreed to.

House in Supply have new fruit from under discussion.

FROM NEWFOUNDLAND.

DESTRUCTIVE FIRE AT CARBONAR.

The steamer *Ossip*, arrived at Halifax on the 8th, from St. John's Newfoundland, which port she left early in March last, but owing to the large quantities of ice on the coast, was compelled to return to port several times. She left Trepassy on Saturday last, and Burin on Sunday. Capt. Guilford reports the coast of Newfoundland blocked up with ice. The prospects of the Sealers are very bad. A number of vessels bound to St. John's were at Trepassy and Burin and jammed in the ice off Phoenix Bay. Some of the vessels in the ice were drifting to the southward.

The "Newfoundlander" of the 24th says:—

"The business of the session is now so far advanced that the Legislature, we believe, will be prorogued this week."

The residence of the Rev. Mr. Harvey, Port de Grace, was burnt down on the night of the 13th of March. The family had just time to escape in their night clothes.

A fire broke out on board the brig, *Gen. at Harbour Grace*, on the night of the 16th March, and before it was got under a great portion of the vessel, with her spars, masts, pumps, &c., were destroyed. Three of the crew, named Knox, Hogan and Walsh, who were asleep in the fore-castle, were burnt to death. The vessel was waiting for a change of wind to proceed to the Seal fishery, having ad her supplies on board, which were much damaged.

A destructive fire broke out at Carbonar on the morning of the 10th March, in a shop occupied by McKay & Co., as a dry goods store, which with seventeen or eighteen other houses, was consumed. There was about £24,000 insurance on the premises.

One of the Lunenburg steamers scales is off Bay-de-Verde, fast in the ice.

The *Gazette* of the 11th March says that the continued prevalence of north easterly winds has had the effect of so closely packing the coast with drift ice that the sealing fleet has been unable to get to sea. The wind changed on the 11th.

From the Evening Globe, April 12.

RETRENCHMENT.

The Legislature, in a fit of economy has thought the necessity make some retrenchment in the public expenses. One would suppose that those hon. gentlemen who have been crying out so much about "retrenchment" would begin with themselves. We expected, of course, to see them give up their coaches, to cut down their contingencies and surrender at least one third of their pay; but no! with a sort of characteristic meanness, they begin with the Press. Well, it is a small potatoe affair any way, and we wish hon. members much joy for all the credit they will get for their very patriotic movement.

We lift a spot to the same large and comprehensive system of retrenchment propounded; but all that is done is to cut down the public advertising. We admit that it was all right and proper, and that it was time to "reduce the expenses," but we do think it was very small and mean and contemptible to begin with the printers, when so much more might be saved if hon. gentlemen began with themselves. We trust that the pruning knife will be applied to other departments as well as to the one we have just referred to.

April 12.
A letter received by John Bourne, Esq., M. P. P. from a gentleman in the County of Kent says:—I am happy to be able to inform you that I have, in company with another person, found seams of gold bearing quartz in the Metamorphic rocks in this county, one specimen of which has been pronounced by all to be exceeding rich. We had some trouble in laying bare the stone in which it was found, as it was covered by about six feet of ice and snow. The lead is by no means a small one."

April 13.
Gold ore from New Brunswick—Gold has been found in New Brunswick. A very fine sample has been taken from the drain that the Water Company are sinking, about three miles from town. It has been found 30 feet from the surface. [News Room State, Halifax.]

ST. ANDREWS, APRIL 16, 1862.

During the past week several persons from the various Parishes in the County were present at the Court and through them the general feeling with reference to the duty on Molasses, was expressed. Mr. Grimmer's vote on the question was freely canvassed and highly approved by persons of every shade of politics. One of the gentlemen present observed that "he had no hesitation in stating that the Constitution might rely upon him (Mr. Grimmer), as a member who would protect their interests, and as an honest and industrious legislator; that he had the ability to express what he thought, and would steer a straight forward course."

The gentleman who made these remarks, is a man of great political influence, and one whose interest at an election is sufficiently powerful to place any Candidate of even small popularity, in the Legislature. Last these observations may be considered as an intimation on the part of the members, who considered the duty of two weeks, we deem it but proper to state that their votes on the question were not altered. Mr. Boyd's remarks as given in the published reports, are appreciated, indeed they correspond word for word with his letters written before the question was debated in the House.

April 14.
The Woodstock Journal says that a man named McHugh and another prisoner made their escape from the goal of Carleton Place a few nights since, by opening a hole through the wall, a matter, it seems, of no great difficulty.

The friends of the Hon. J. W. Johnson, the venerable leader of the Opposition in the Nova Scotia House of Assembly, intend to present him with a Testimonial amounting to \$5,000.

Married.

Though darkness has passed from the earth, yet a sign is being made for the faithful! Where are the faithful and the faithful? And where are the faithful and the faithful? And where are the faithful and the faithful?

THE "Schr. Only Son," Capt. Cogwell will leave St. Andrews on or about the 10th May next for Lanchburg Gold Fields. Passengers will have an opportunity of returning by same vessel, which remains for two weeks. For Passage apply to CAPT. D. COGSWELL, April 16, 1862.

GOVERNMENT ADVERTISING.—Mr. Grimmer's resolution to confine the Crown Land advertisements to the Royal Gazette, has passed the House and will be generally ap-

proved of by the people as a measure of retrenchment, and will have the effect of silencing the report that certain papers are subsidized by the Government. We believe that those journals which have hitherto supported the Government, will still do so, without Crown Land advertising, which is not so "fat" a job as people often imagine.

The Military Bill is long enough in its conscience to satisfy the military ardour of our Provincial soldiers. We have not space to give even a synopsis of the Bill. It divides the Active Militia into three classes exempting certain officials from service, and the whole Province is divided into two classes: Active and Secondary. Officers holding Commissions prior to the passage of the Act are to hold their commissions, subject however to being cancelled by the Commander in Chief. The Companies of the 1st Class may be called out six times during the year for drill. Ammunition is to be furnished by the Province.

We have much pleasure in publishing the following resignation, at the request of Capt. Whitlock's Rifle Company:—

ST. ANDREWS VOLUNTEER RIFLE COMPANY.
Resigned.—That the thanks of the Company be given to Edward Wilson, Esq., for his kindness in allowing us the gratuitous use of his store as a Drill Room; that the Secretary enclose a copy of this Resolution to Mr. Wilson, and that the same be published in the Saint Andrews Standard.

H. FORTY, J. H. WHITLOCK, Captains.

St. Andrews, 1st April, 1862.

In copying from the Chief Superintendent's Report on Grammar Schools, in our last issue, we made a mistake which we regret, and take the earliest opportunity of correcting. Instead of the Charlotte Grammar School standing "second" as stated by us, according to the order in which it is placed, we are happy to learn, that the School which is designated as one of the four which are "good," is really the first among them, and that the order in which they are placed in the Report is alphabetical.

CONCERTS.—The Band of the 15th Regt., at St. John, have been giving Concerts for various charitable Societies. The performances are highly praised:—the Band is said to be one of the best in the service—and that is saying a great deal, but nothing more than they deserve.

ST. ANDREWS NEW BRUNSWICK.—We learn from the *Bangor Evening Times*, that the Steamer *New Brunswick*, chartered by Government to join the Hornet expedition having been released, has arrived at New York where she is undergoing some repairs.

The steamship *China*, which sailed from New York for Europe on the 9th, contained \$621,000 in specie. Dr. Russell, of the *London Times*, was among her passengers.

The *Woodstock Journal* says that a man named McHugh and another prisoner made their escape from the goal of Carleton Place a few nights since, by opening a hole through the wall, a matter, it seems, of no great difficulty.

The friends of the Hon. J. W. Johnson, the venerable leader of the Opposition in the Nova Scotia House of Assembly, intend to present him with a Testimonial amounting to \$5,000.
