ART. DEPARTMENT, 1874.

The illustrations of THE ALDINE have centres of Europe it is an admitted fact that its wood cuts are examples of the highest perfection ever attained. The common pre-judice in favor of "steel plates." is rapidly Fielding to a more educated and discrimi nating tastel which recognizes the advant g cof superior artistic quality with greater is ility of production. The wood-cale of THE possess all the delicacy and elabo rate finish of the most costly ste-l plate. while they offord a better rendering of the artist's original.

In addition to designs by the members of the National Academy, and other noted American artists, THE ALDINE will reproduce xamples of the best foreign masters, select ed with a view of the Lighest artistic su cess and greatest general interest. Thus the suleer bert THE ALDINE will, at a trifling cost, enjoy in his own home the pleasures

Every subscriber to THE ALDINE for the year 1874 will receive a pair of chromos. The original pictures were painted in oil for the publishers of THE ALDINE, by Thomas Moren, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "T'e West." One is a view in the White Mountains, New Hamphire; the other gives The Cliffs of Green River, Wyoming Territory. The difference the publishers of THE ALDINE, by Thomas in the nature of the scenes themselves is Flour, pleasing centrast, and affords a good display of the artists scope and coloring. I hectroplates, and are in size (12x16) and appear ance exact fac similies of the original presentation of a worthy example of America's greatest landscape painter to the sub-scribers of THE ALDINE was a bold but pecufierly happy idea and its successful realiza tion is attested by the following testimonial over the signature of Mr. Moran himself.
