CANADA GIVES WHALING LICENSES TO CANADIANS

Capt. Townsend Made Catspaw in Political Mare's Nest Evoked by Messrs. Barnard & Robertson and Abetted by R. L. Borden

Victoria Tory who shipped to his disaster, owing to their inability to friends, the opposition here, a political profitably utilize the whale products, blunderbuss in the shape of "disclosure" material regarding Pacific whaling licenses, forgot to label it "loaded." that the tide turned the other the thing exploded in the hands of the ed in the Pacific Whaling Company opposition marksmen, and what was held by Victoria citizens, repreintended to take its place in the scan- senting nearly \$150,000. dal category was abruptly transferred to the cemetery of withered hopes.

But it did not die without disclosing ed, when he went to Victoria last

the fact that there are some gentlemen | summer he found that there were Nor in Victoria who, to make political capital, are ready to assail the action of the government in encouraging a Victoria who, to make political capital, are ready to assail the action of the government in encouraging a Victoria who, to make political capital wegian gentlemen on the ground wattern that they would bring a Norwegian gentlemen on the ground wattern that they would be considered to the second that the second that they would be considered to the second that t

About two months ago A. A. McLean, Conservative member for Queen's, P. E. I., placed upon the order paper a list of questions relative to the grant-ing of whaling licenses in British Columbia. He had evidently been delegated to make the inquiries by the leader of the opposition, who, of course, in turn was primed by a police ourse, and the police ourse, and tical friend in Victoria, whose identity will reach lifesize proportions on the anvas as this review proceeds.

A feverish thirst for information such as that of Mr. McLean invariably pre-faces a Tory attack of some sort, and yesterday when it sputtered forth nobody was surprised. But what most sensible people will naturally want to know is why did not Mr. Borden, on chalf of his devoted party friends in put up somebody other than the question of whaling licenses for British Columbia waters?

of the department of marine to inone factory could operate, from fifty Fisheries act did not give the minister that much power. He then attempted to show that the Pacific Whaling Comrany enjoyed a monopoly of the whaling industry in British Columbia, and nation, citing the application of Capt. Townsend as an ir stance. The captain, he said, at the request of a friend, in December, 1906. btained an option for a whaling site, and had six months in which to cor plete his arrangements. He fulfilled the necessary departmental require great deal, engaged a firm of attorneys to conduct his negotiations with the department. Those attorneys were Messrs. Barnard & Robertson—the for-mer of whom, Mr. McLean neglected to state, is president of the British Co-lumbia Conservative Association,

The department, Mr. McLean contin ued, informed the captain's representa-tives in Victoria that before granting the license they were anxious to ascertain that it was not to be used for speculative purposes, and inquiries would be instituted. Capt. Townsend required \$100,000 to establish the undertaking and had raised \$40,000 or \$50,000

in British Columbia. McLean's narrative with a query as to who would control the majority of the capital and forced the admission that Norwegians "who do business in Lon-

Proceeding, Mr. McLean said that to him if his principal associates were foreigners. But this was merely the ostensible reason, said the Prince Edward Islander—the real reason was cense to a friend, the Pacific Whaling

pical Tory deliverance. The whole ob as clear as a pikestaff. "The ministe wanted to give the license to a friend, the Pacific Whaling Company." That sounds so characteristically opposition-like that it will bear repetition; it also sounds ridiculous, coming from a man Hon. L. P. Brodeur, minister of ma-rine and fisheries, and Hon. Wm. Templeman, minister of inland revenue, relied on behalf of the government, and shooting. after they had finished the opposition case was annihilated. Mr. Templeman was acting minister of marine and fish. last year, and was seized of the facts. McLean as not-truly a very | 10.

important difference. posed of the charge that a monopoly of the whaling industry was being fostered in British Columbia by pointing G. A. Huff, of Alberni, and Dr. F. Hall. mariner, he explained, in June, 1907. tory license for Campania Island, off Some months previous to this-in Occific Whaling Company, put in an application for a whaling factory license for Banks Island. These islands being of each other, there was a conflict of

But there was a substantial differ plicants. The Pacific Whaling Com aging director, were the pioneers in the been notified that the Bank of Moned the possibilities of whaling in Brit-

Mr. Adams arrived vesterday and since then roughly over the situation a progress made by the city dering of plant and support the work on Smith's hill r is firmly convinced that this year that Victoria will be a shortage of water at any ing the twelve months.

Mr. Adams is quite pos statements in this regard an ly positive as to the abso sity for the Smith's hill re matter from what source eventually gets its supply Goldstream or Sooke. Th is necessary, not only on of economy, but also as a neuring the best possible retribution and for fire prot

Mr. Adams said that he r the people of Victoria wo from a water shortage thi it could not be helped. satisfaction was to know would not have to suffer way another year. At pres had an abundance of water not get it into the city a distributed. The new sy remedy this one. When it ation the city would be supply of at least 2,800,000 24 hours, which, with metered, as it would be, a city of between 45,000 an ple even in the driest When seen at the E where he is staying, Mr. pressed his satisfaction winer in which the details i with the new distribution being carried out. From aiready let and the tender for, there was no questi but that the new plant pumping machinery and bution pipes as well as

other piping would be read tion before the sumr next year, and from the reservoir that would a early next year, thus ens supply of water, even laying of all the mains w limits was not comple Even, however, if all the within the city limits w the city would have an a ply of water on hand and he supplied with a need for domestic and sp poses, as well as for fire As the matter now st had let the contracts for for the system within t and for all the valves, connection with it and in for the steel riveted; for bringing the water it voir from Elk lake and portion of the distributi hich it would be used a the electric pump for th station to force the water posed high level tank on nue. The tenders for part of the machinery, compound pump for the farm station, would be in so that after that the the system would be on the time that it would t pipes and do the other no.
The contract had also be with the least possible

Describing the new sy work to be done, Mr. Ad the Smith's hill reservo to the whole scheme, It means by which a prop could be secured. A loc reservoir, where a suffi for one could be secured, by water works enginee tial to a water works that means could be stant and even supply times of the day and ni times of the year at a It was an unquestion amount of water used a sons of the year varied might be expected in ample that there would more water used in the in the winter, and at of each day during the ence showed that about much water was used function of a distribut to equalize this, so far a from the source of supp Otherwise it would have piping and pu
