Major Thompson Gives the Times a Piece of Unwritten History.

Many Canadians have read the fierce attacks which were made on the war office by a section of the London press through the discovery that some of the invalided Canadian soldiers in London were short of funds, and were forced, in consequence, to sleep out in the parks. The inward history of how these powerful influences came to be set at work, however, are known only to a limited few. Major Boyce Thompson, quartermaster of the team which went to Bisley this year from Canada, is one of the few, and he told a Times man all about it a few days ago, on the occasion of his

visit to Victoria, en route to San Fran-"I was sitting in the tent of General Major, "when a number of young fellows from Toronto, who had been serving at the front and had been invalided home, came to call on me. As soon as General Eaton understood who they were he insisted that they come in, and at once engaged them in conversation and otherwise treated them with the greatest kindness. Incidentally, during the conversation, I asked after the other invalided men, and my visitors mentioned that some of them had 'gone broke' and had been sleeping out in the parks of Lon-

"General Eaton was "all ears in a minute. He became greatly exercised by the news, and after my visitors had left he would talk of nothing else. He insisted that something must be done at once to remedy what he considered nothing short of a military scandal, and intimated that he would immediately take steps to have the matter righted, adding that I must help him.

be to bring the matter to the attention fore they, would make a move, and the the Prince about it:" " Now to those unfamiliar with the mar-

vellous force which the heir apparent exercies in the political and semi-political affairs of the Empire this might seem a very weak suggestion, but Gen. Eaton knew exactly what such a step would involve. He knew that once the Prince of Wales manifested an interest in the Canadians and a desire that more attention should be paid them, that the most influential factors in the life of London would be enlisted, and that more would be accomplished than if all the military chiefs in London had made representations on the subject to Pall Mall. Besides, General Eaton was a personal friend of the Prince, having been at one time an equerry of his, and thus was peculiarly fitted to secured his

co-operation. The plans of the colonial and Imperial
