The stomach is the vital center of the body. It is the organ from which all other organs are fed. A weak stomach means a weak man. There never was a

strong man with a weak stomach. What is called "weak stomach" is in general a diseased condition of the stomach and other organs of digestion and mutrition, which prevents the proper digestion of the food which is taken into the stomach, and so reduces the nutrition of the body. When all food is taken away the body. When all food is taken away the body starves. When the food eaten is only digested and assimilated in part it only nourishes the body in part, and so the body is partly starved. And this starvation is felt in every organ of the body dependent on the blood which is made from food.

The great variety of the cures per-formed by Dr. Pierce's Golden Medical Discovery is due to its remarkable power to heal diseases of the stomach

and allied organs. It cures through the stomach diseases seemingly remote, but stomach diseases seemingly remote, but which have their origin in a diseased condition of the stomach and the other organs of digestion and nutrition. "Weak" heart, lungs, kidneys and weak-ness of other organs is cured with the cure of the weak stomach.

The more I doctored the worse I got utill six years passed. I had be-come so poorly I could only walk in the house by the aid of a chair, and I got so thin I had griven up to die, thinking that I could not be cured. Then one of my neighbors said, 'Take Dr. Pierce's Golden Medical Discovery and make a new man out of yourself.' The first bottle helped me so I thought I would get another, and after I had taken eight bottles I was weighed and found I had gained twenty-seven (27) Da in about six weeks.
