PPOVINCIAL NEWS.

ALBERT CO. Mr. and Mrs. Joseph Wood, who have been living in Arizona for the past two years, have returned to their former home at Albert to reside permanently.

The finding of the foreign coin, as mentioned in my notes of recent date, has recalled a bit of tradition, whose authenticity is vouch for, and which, beyond doubt, accounts for the discovery of the money. Many years ago, in the days of the early settlers, one Peter Bishop, who has been working for Capt. Dudgeon, one of Shepody's earliest seafaring men, was paid off by the captain in Spanish gold (doubloons), which were quite frequently een in those days.

One morning after starting for the woods Mr. Bishop, when a short dis-tance from home, found that he had four of his doubloons, which were worth some \$16 each, in his pocket, having forgotten to leave them at the ouse. Fearing he might lose the carefully placed it in a crevice in the sank of the brook where he was walking, and covered it with some stones, intending to get it on his return. He must have neglected to pro perly mark the spot, for never after-wards was he able to find the gold. For years after different parties ed, but searched in vain. The money seemed as securely hidden as the treasures of Capt. Kidd. The property changed hands many times, and is now in the possession of Ches-ley Smith, whose little boy a few days ago found the gold coin referred to which is, beyond a doubt, one of the quarters of a century undisturbed. The locality talkes exactly with that mentioned in the traditional story. As there are, presumably, three others of the gold pieces still remaining, a re-newed search will doubtless be made for these quite valuable relies of the

Hampstead, May 19 .- Hampstead ost its oldest resident the other day by the death of Mrs. Catherine Vanwart, widow of Jacob Vanwart.. She was born in December, 1817, and was consequently in her eightieth year of age. She became a Christian in early life and was a faithful follower of her Saviour ever since. She was baptized by Rev. Samuel Huett and joined the F. C. B. church here about sixty-four years ago. Her house was always a home of the ministers of the gospel. Since her husband's death, about thirty-four years ago, she has lived with her son Wilfred on the old homestead. She leaves one son, four daughters and four brothers, besides grand and great grandchildren and a large number of relatives. Her funeral took place this morning from her son's residence, at ten o'clock and proceeded to the F. C. B. church, where the sermon was preached by Rev. George W. Foster, pastor, after which her remains were interred in the F. C. B.

KENT CO. Richibucto, May 22.—The liquor ommissioners met at the Kent hotel again yesterday in connection with the application of Pascal Herbert, and after some discussion they refused to give him a license. The commiss ers have acted very peculiar in this matter. Alt the meeting last week one of the commissioners made a charge against Herbert for selling without license, and the meeting was adjourned until yesterday, when the commissioners were to prove the charge. Yesterday the matter was never referred to by them, but they came forward with an objection that Herbert's application was not in ac-cordance with the law. Inspector R. A. A LARGE REFRIGERATOR Capable of Holding Two Hundred Quarters of Beef.

The large refrigerator erected by Kane & McGrath in the Market building, just to the right of the Germain and is the centre of a great deal of in-terest. This refrigerator, which is of the dry air system, is large enough to store 200 quarters of beef at one time. In the first room on entering from the street is an abattoir scale. The meat when taken in is suspended on an iron rail, which when the door of the cold storage room is opened, is seen to be connected by means of switches with five different iron rails running the full length of the room— 36 feet. The switches are very simple in construction, and once a quarter of beef has been hung on the rail in the outside room, it can be pushed with very little effort to the farther end of either of the five long rails, which run parallel after leaving the switches. The timbering of the room was weight to be sustained on these fron

When a Sun man entered the cold storage room on Saturday the tem-perature was 37 degrees. It had been down to 34. Over 29 tons of ice were in the tanks above. The cold sir comes down at one side and the warm rises at the other. There is no damp ness. Several carcasses of beef were hung up and thirteen more were

taken in during the day. This refrigerator should prove of very great benefit to the market dealers, and be a good thing for the

consumers of meat as well.

The switches, which make handling the quarters of meat so easy a task were invented by a St. John man, J. Duncan, now of Boston, who has them patented and is making a fine thing out of them.

The exercises of closing week begin on Friday, 28th inst., with the outdoor sports in the afternoon and the freshman and afternoon and the freshman and sophomore elecution competition in Lingley hall in the evening. On Sunday the Rev. Ralph Brecken, D. D., will preach the Baccalaureate exercises of the Ladies' college, and on Tuesday evening the university bers seventeen, and contains three young ladies—Miss Louise Webb, Windsor; Miss Ada Killam, Yarmouth and Miss Grace Paisley, Halifax. Alfred S. Rogers of Truro stands at the head of the class and will win the alumni honors and deliver the vale-

The usual attendance of visitors is expected, and long ago some of the most desirable boarding places were engaged. Unless unforeseen duties prevent, his honor Lieutenant Goverpor McLelan will be present as the guest of J. S. Black. The governor is an alumnus of the old Academy and a life-mebmer of the Alumni so-

ciety.

Miss Minnie Bluck of Bermuda arrived recently and will remain for some time with her sister, Mrs. B. C.

The friends of the president and his amily will be glad to hear that Mrs. Allison, who has been so long and so seriously ill, is making some progress

toward recovery.

Harold Borden of the senior class, who is to be one of Mr. Laurier's body guard in his trip to England, cannot wait for convocation, but will leave for Toronto as soon as his examin-

ions are finished. A committee of the university fac-ulty has been occupied during the winter in working out a scheme for some contemplated changes in the course of study. It is expected that when the new calendar is issued there will be among other changes, an-nouncements of more extended courses of study in classics, English, French and German for those who wish to pursue these during all four years of their undergraduate work, without undertaking the extra labor of an

MINERAL WEALTH IN CANADA.

William Briggs, the Toronto publisher, has in press a small volume on the "Mineral Wealth of Canada," by Professor Willmott, M. A., B. Sc., of McMaster University. The work is designed as a guide for those desirous of knowing something of the mineral resources of the dominion. It is writ-ten, as far as possible, in an untechnical way, so that it will be easily understood by the general reader. the same time numerous references to more detailed work will make it a useful guide to those seeking fuller information. The origin, occurrence and uses of the various minerals are clearly stated. Tables are given showing the mineral production and impertations, and comparing Canada with other nations. The work is very opportune and should prove valuable to teachers of chemistry and geo-graphy and to all interested in the resources of this country.

FOREIGN ECHOES.

Rice is being exported from India in spite of the famine, according to London Truth, 75,000 bags being shipped in one week to Mauritius, while the people of the neighboring districts were appealing to England for food. Pavia's famous Carthusian monastery, the Certosa, which for many years has been used as an art museum, is to be used once more, in part at least, for divine worship. Mass will be said daily in the chapel by secular priests, as the monks have been dispriests, as the monks have been dis

Bark Swansea of Windsor, Capt. Sanford, proceeded to sea Monday, bound for Buenos Ayres. She takes a cargo of 615,181 feet of lumber, stowed by Capt. John Crosby of Yarmouth. She has 61,000 feet more under deck than she had en her last voyage from Dorchester, N. B., and she has the largest cargo on board that she ever carried. Capt. Sanford has given Capt. Urosby a high recommendation as a stevedore.—Yarmouth Herald.
