## NOVEMBER.

Like shrill lament of the decrepit year  
The wild geese wait their valedictory;  
The North Wind trumpets over land  
and sea.  
All Nature chants a monotone most  
dear.  
The fields of stubble now are dry and  
sear,  
Dead leaves are dropping from each  
quivering tree  
In shadows that drift o'er the mea-  
dow, hill and lea;  
The Autumn air is sharply crisp and  
clear.  
Of falling leaves, with ye the beauties  
fall  
Which decked the Summer's day; the  
Autumn's night;  
We hear with grief the voice of Nature  
call  
In ruthless tones the change from  
Earth's delight;  
We know that Spring will follow after  
all,  
And o'er our hearts' dead leaves strew  
blossoms bright!

Magazine.

self or to lose money.

came to St. John Tuesday, wishes to  
deny the statement that the men were

here. He says they were entertained  
in good style on board the Calvin Aus-  
tin until the departure of their train  
for Chipman.

Owing to the breaking of a trolley  
wire on Duke street this morning the

Some further inconvenience was caused  
by a car burning out near the depot.

## NEW GYMNASIUM.

Carleton Athletic Association Will  
Have Quarters in City Hall.

St. John is to have another  
gymnasium, and this one is to be on  
the other side of the harbor. For a  
long time the boys in Carleton have  
felt the need of a place in which to  
exercise and train themselves in  
gymnastics, and now the matter has  
been taken up in earnest. The mem-  
bers of the Carleton Amateur Athletic  
Association have put their heads to-  
gether and have decided that it is up  
to them to make a move. Carleton  
boys who wish to join gymnasium  
classes find it next to impossible to do  
so as they are compelled to come to the  
city for each meeting, and as the  
classes are for the most part man-  
aged during the winter months this causes  
considerable inconvenience.

In the matter of outside sport the  
Carleton association have done much  
during the past couple of years, and  
are entering upon the gymnasium  
scheme with as much energy as  
characterized their previous undertak-  
ings.

The large room on the lower floor of  
the City Hall, in Carleton, which has  
been unused for so long, has been se-  
cured and will be cleaned up. This  
room will be equipped as a modern and  
up-to-date gymnasium and according  
to present intentions while managed  
by the amateur association will be  
available for all who are willing to  
contribute towards the expense.

A meeting of the association will be  
held this evening at which future plans  
will be discussed.

## THAT HAZING MATTER.

Stanley B. Smith, who was arrested  
recently in Baltimore in connection  
with the death of a dental student of  
the Maryland University, alleged to  
have been the result of hazing, says in  
a letter to his mother that the verdict  
of the coroner's jury is not altogether  
satisfactory. Mr. Smith says the in-  
quest was conducted along somewhat  
strange lines, and that the police offi-  
cer who first entered the room of the  
dead man and who at the time made  
a statement that the room was full of  
coal gas, was not summoned as a wit-  
ness. Moreover, says Mr. Smith, the  
brothers of the dead student do not be-  
lieve that he died from the effects of  
hazing.

At the inquest Ephraim Stone, the  
room mate of the dead man, testified  
that they were initiated on that even-  
ing into the mysteries of the Chi Psi  
Psi Fraternity. They were not rough-  
ly handled, and both were in good  
health and spirits after the initiation  
was over. About three o'clock that  
night, witness said he awoke and felt  
as though his head was swelling. He  
called to Leon (the student who was  
found dead afterwards) who said he  
had the same sensation. He said that  
neither one had taken any drug before  
retiring and that there was no gas in  
the room.

## PROSPEROUS COAL COMPANY.

At a meeting of the directors of the  
Strathcona Coal Company held on Sa-  
turday last in Moncton, a second di-  
vidend of eight per cent. was declared  
payable first of January next. This  
company owns two square miles of the  
best coal producing areas in Cumber-  
land county, N. S., six miles from Mac-  
donald station, and has a well equipped  
colliery with a capacity to produce two  
hundred (200) tons a day could min-  
ers be secured. At present the mine  
is producing seventy (70) tons a day.  
The stock is largely held in Moncton and  
Sackville.

## WORD FROM BLAIR.

H. E. Wardrop yesterday received  
a communication from Hon. A. A.  
Blair, enclosing a letter from Hon. W.  
S. Fielding. The letter says in re-  
gard to the diversion of traffic to Hal-  
ifax, that the I. C. R. will co-operate  
in any effort to use the I. C. R. termi-  
nal in St. John for goods over that rail-  
way. The Allan line asked the I. C. R.  
to do everything possible in increasing  
the freight shipments from Halifax,  
and this will be done not only for Hal-  
fax but for St. John if desired.

## SOUTH AFRICAN SERVICE.

Rumors That it will be Discon-  
tinued are Denied—Sailings  
Arranged for this Winter.

A rumor, originating in Montreal,  
has reached the city to the effect that  
the steamship service between South  
Africa and Canada is to be discon-  
tinued for lack of business. Messrs Wm.  
Thomson & Co., who represent in this  
city the Furness and Elder-Dempster  
companies, whose steamers run regu-  
larly between Canada and South Africa,  
place small stock in the rumor. They  
have already been notified by the  
management of the lines which they  
represent of the following sailings:

## FURNESS LINE.

Orana . . . . .Dec. 13.

Wyandotte . . . . .Feb. 13.

Orana . . . . .Apr. 13.

## ELDER-DEMPSTER.

Monarch . . . . .Jan. 13.

Melville . . . . .Mar. 13.

The scheduling of these sailings en-  
tirely disproves the rumor, and there  
is no faintest possibility that the  
South African service will be a bit less-  
ened this winter. It is, however, ad-  
mitted in shipping circles that the  
trade to South African ports at the  
present time is somewhat dull, but will  
probably revive its former vigor with  
the commencement of the winter port  
business.

## POLICE COURT.

Some Sorrows—Tales of Woe Were  
Heard This Morning.

Maria Ferrie has troubles of her own  
and last evening especially her burden  
was greater than she could bear. Maria  
explained all this to the magistrate this  
morning. "It's no use your honor. I  
was good and drunk, but I was dis-  
couraged. I've got troubles of me own.  
Every time I get a good place some-  
one tells the missus what I was. They  
always come one ready to tell, an' last  
evening I was terribly discouraged." She  
had been trying to drown her  
sorrow, but succeeded only in floating  
it and was sent in for two months.

Five other drunks took what was  
coming to them. Joe Murphy, seemed  
surprised when asked if he had been  
jagged, and before he could recover  
was on his way to jail. Two months.  
James Lenihan had nothing at all to  
say. Another two months.

The other three were talkers. John  
Rutledge wanted to be let go. He  
hadn't troubled the court for eight  
or nine years and considered this a  
pretty good record. It was good for  
ten days. John Emberley, who comes  
from Newfoundland, had added prof-  
anely to intoxication and said that he  
guessed he had been a pretty bad case  
last night. The boy guessed right the  
very first time. His sentence was  
twenty days, but the magistrate had  
a soft look in his eye. The last of the  
half dozen was a colored sailor from  
the Pallas who was let go on request  
of an officer from the ship.

## WHAT WILL THE I. C. R. DO?

May Bring Grain This Year and May  
Not.

It is not known yet definitely if the  
I. C. R. facilities at this port are to be  
used this winter in connection with the  
winter port business. If the Donald  
line uses the pier, it is believed  
that their steamers will be supplied  
with grain brought over the I. C. R.  
This, however, as yet can only be con-  
jectured.

L. R. Ross, terminal agent for the I.  
C. R., said this morning that the I. C.  
R. elevator may possibly be used this  
winter to handle grain, but he could  
not say whether the grain would be  
brought over the I. C. R. or the C. P.  
R.

It is known for a certainty that grain  
is to be carried over the I. C. R. to ac-  
commodate the Allan line steamers at  
Halifax.

## LADIES ASSAULTED.

Between nine and ten o'clock last  
night two young ladies who were going  
up Rodney wharf were accosted and  
assaulted by a man. They were luck-  
ily able to get away without very much  
from Newfoundland, had added prof-  
anely to intoxication and said that he  
guessed he had been a pretty bad case  
last night. The boy guessed right the  
very first time. His sentence was  
twenty days, but the magistrate had  
a soft look in his eye. The last of the  
half dozen was a colored sailor from  
the Pallas who was let go on request  
of an officer from the ship.

## HORSE DROPPED DEAD.

A horse owned by William Long, of  
Carleton, and hauling a sloven with  
twenty chests of tea, fell dead on the  
ferry docks between nine and ten  
o'clock this forenoon. The horse, while  
coming up slipped and fell and died  
without a struggle. In falling the ani-  
mal's head struck the stringer divid-  
ing the docks and this may have been  
the cause of death, although the blow  
did not appear sufficient to prove fatal.  
The carcass was shortly afterwards re-  
moved.

There are some who claim that the  
horse's death was due to hearing of the  
new ferry boat.

## ALLEGED FORGERY.

It is understood that certain promi-  
sory notes negotiated by the late Hiram  
T. Finley and now held by the Bank  
of British North America will be con-  
tested.

James Clayton, of Brussels street, has  
received notice that a note of his for  
an amount in the vicinity of thirty dol-  
lars will fall due in a few days. This  
note Mr. Clayton declines to pay on  
the ground that he never signed it and  
that it consequently is a forgery.

It is also said that there are other  
notes in existence bearing Mr. Clay-  
ton's name, which were not signed by  
him.

Point, will leave for California next

## PROBATE COURT.

In the probate court this morning  
the proceedings of proving in solemn  
form the will of the late Enoch B. Col-  
well were resumed. Charles E. Col-  
well and Bertha L. Colwell, his wife,  
who had lived with the deceased some  
five years previous to his death, were  
examined in support of the will. The  
judge decided that a prima facie case  
in support of the will had been made  
out, but at the request of J. B. M. Bax-  
ter allowed the case to stand over un-  
til Monday, the 20th of this month,  
in order to enable him to consult with  
next of kin living out of the jurisdic-  
tion. J. Douglas Hazen, K. C., ap-  
peared for the executors and J. B. M.  
Baxter for Mrs. M. Thompson, next of  
kin. John Kerr, K. C., proctor.

## NEW FIRE ALARM BOX.

The first of the new fire alarm boxes  
was installed this morning by the su-  
perintendent of the fire alarm. It will be  
known by the number 131, a number  
not hitherto on the list. It is the latest  
make of the non-interference type. The  
box has been placed at the corner of  
Elgin and Victoria streets, North End,  
and the key to it has been handed over  
to George Carvill, who resides just op-  
posite. The box has been switched on  
to the main circuit and is ready for all  
practical purposes.

## POLICE NOT ANXIOUS.

The Star yesterday contained a para-  
graph about five sailors deserting from  
the steamer Neimond lying at No. 3  
berth, and stated that the police had  
been requested to look out for these  
men. The officers of the steamer evi-  
dently hold the opinion that the St. John  
police have no need to do so, but secure  
the country in search of missing sea-  
men, for this morning anxious en-  
quiries were made as to whether any of  
the officers had searched the outlying dis-  
tricts, especially in the direction of  
Mispec. They hadn't.

## BUSINESS EXTENSION.

D. McArthur is making extensive al-  
terations in his premises, 84 King  
street. The entire second flat has been  
remodelled and will be devoted en-  
tirely to tops, dolls and fancy goods. Mr.  
McArthur has found it difficult in the  
past to fully accommodate his many  
customers at Christmas. The remodel-  
ling of the second flat will give custo-  
mers a better chance to buy and also  
to see the display of fancy goods. The  
change will give about 300 additional  
feet of counter room.

## NAVAL DESERTER.

It seems as though scarcely a ship  
can come to St. John but some of the  
crew take advantage of the opportu-  
nity to desert. The police have been  
fortunate in this respect, and as yet only  
one seaman has left the ship. His name  
is Walter J. Perrigo, an Englishman,  
rather under medium height, brown  
hair, blue eyes and smooth face. He  
left the ship without leave last night  
and was this morning posted as a de-  
serter, his description being sent to the  
police.

## BODY BROUGHT HOME.

The remains of Mrs. Alex. Brown,  
who recently died at the home of her  
sister in Lancaster, Mass., arrived in  
the city today on the Boston express  
and was removed this afternoon to  
Fairfield. Mrs. Brown, who was 75  
years old, died suddenly of paralysis.  
She is survived by nine children, of  
whom J. H. Harvey Brown, the well-  
known merchant of this city, is one.

## GREAT LOSS TO THE C. P. R.

(Special to the Star.)

VICTORIA, B. C., Nov. 13.—The fa-

the loss will be heavy.

The new hotel was to be built on  
made land, near Victoria, granted to  
the C. P. R. for the purpose. It was to  
be one of the finest in Canada.
