## MERSEREAU OF SUNBURY HARD HITTER

Declared That Prohibition  
Was Cause of More Corrup-  
tion Than All the Liquor

SINCE CONFEDERATION

Messrs. Smith (Albert) and  
Dickson Also Made Some  
Very Timely Remarks on  
Provincial Matters Generally

(Continued from Page 1.)

Special to The Standard.

Assembly Chamber, Fredericton N. B., April 7.—The House met at 3 o'clock.

Mr. Birchall presented the report of the Committee on standing orders.

Notices of enquiry were given as follows:

By Mr. Hunter: As to the cost of Smith Brook Bridge in the Parish of Prince William, York County, and other particulars; also as to the amount expended on O'Brien Brook Bridge in the same Parish; also as to the name of the road Supervisor in Division No. 1, Parish of Manners, Sutton, York County.

Mr. Crockett introduced bills to amend the Fredericton Election Act of 1914, and the assessment Act of 1917.

Mr. Tilley introduced a Bill to determine the valuation for assessment purposes of the Portland Rolling Mills Ltd.

Mr. Magee introduced bills to authorize a fixed assessment for the town of Sackville; to repeal an Act relating to said town and to authorize it to borrow money for certain purposes.

Mr. Foster introduced a Bill to amend the Act relating to the right of soldiers to vote in Municipal Elections. He pointed out that the primary law for the St. John elections would take place on Monday next and the unanimous consent of the House had the Bill read a second time.

Mr. Campbell introduced to incorporate the New Brunswick Branch of the International Order of Kings Daughters and Sons relating to a certain trust.

Mr. McGrath introduced a Bill relating to the town of Newcastle.

The Budget debate was continued by Hon. E. A. Smith, Minister of Lands and Mines. (Mr. Smith's speech will appear in our issue tomorrow.)

The Hon. Minister was followed by Mr. Smith of Albert, who said his remarks would be made in the afternoon for he believed the people of the province wanted members of the Legislature to devote more time to business and less to talk. The Hon. Minister of Lands and Mines upon making one of the best speeches made by a head of a department.

He heartily endorsed the remarks of the Hon. Minister in reference to the late Agent General of New Brunswick, the late F. W. Sumner. He said that he had been a man always ready and willing to devote his attention to the affairs of the people of the province and he hoped as able a man would be appointed to succeed him and upon an adequate salary, for this province should have an Agent General permanently located in London.

The Hon. Minister had made reference to the Friel report and its statement that only 60 per cent. stampage was collected from the Continental Lumber Company. He wished to ask the Hon. Minister at this juncture if the stampage due from that company had been paid and what the balance was.

Hon. Mr. Smith: "The report of Price, Waterhouse and Company contains a statement to the effect that there is doubt as to whether certain stampage accounts ultimately will be collected in full, the particular accounts being:

Continental Lumber Company (refuse to pay), \$4,580.43.

J. L. Peck, 1917 charged (refuse to pay), \$1,557.43.

Sir William Van Horne estate (suits taken for recovery) \$6,070.25."

Mr. Smith, continuing, said the reply of the Hon. Minister showed that the magnates and the financial "wheels" were not paying their share. He would say that any man owning money to the province should pay it, and any Government not collecting such accounts was not doing its duty. He should have felt highly flattered by the reference to himself, made by the Hon. Minister of Public Works, but as far as that was concerned he was not ashamed to say that he was a member of the United Farmers of New Brunswick. If the Hon. Minister would look around him he would see one of his own party who was a member of the same organization. That member also would not be ashamed to acknowledge membership.

A Splendid Hair Grower and Wonderful Beautifier

Here is good news for all men and women whose hair is faded, dry, broken and scraggly—is falling out badly and whose scalps are covered with dandruff and itch like mad.

Your druggist can now supply you with the genuine Parisian sage (liquid form), which is guaranteed to quickly and safely abolish every sign of dandruff, stop itching scalp and falling hair and promote a new growth, or money refunded.

Thousands can testify to the excellent results from its use; some who feared becoming baldness now glory in their abundant hair, while others who suffered for years with dandruff and itching head get a clean healthy scalp after just a few days' use of this simple home treatment.

No matter whether bothered with falling hair, matted, straggly hair, dandruff or itching scalp, try Parisian sage—you will not be disappointed. It's a scientific preparation that supplies hair needs.

The first application should make your hair and scalp look and feel 100 per cent better. If you want thick, lustrous hair and lose of it, by all means use Parisian sage. Don't delay—begin tonight. A little attention now helps insure abundant hair for years to come.

In the United Farmers, and he should not be a reason why either his hon. friend or himself need change their seats in the House. The Hon. Minister also had expressed the wish that he (Smith) should exercise influence over a certain section of the press in regard to its reference to the United Farmers' movement. In reply he could state that he had no influence over the press, but as far as the newspapers representing the two political parties in New Brunswick were concerned he could see no difference in their attitude toward the United Farmers. None of them were supporting the farmers as they should. If ever the time should come when he would enter the newspaper business, he hoped that he might be as successful as the Hon. Minister had been.

Hon. Mr. Veniot: "Well, I did not make a failure of it, and I did not have to get out of the business."

The speaker said the continuation of the vacancy in the representation of Carleton County was a piece of political trickery. If the Government felt cordial toward the United Farmers, why did it not open that country? He had noticed that the Hon. Minister of Public Works had spoken before the farmers and dairymen association in Fredericton, his speech being chiefly along the line of self-glorification. One statement which he made was to the effect that not 100 farmers in the province paid \$5 in road tax.

Hon. Mr. Veniot: "What I said was over \$4."

Mr. Smith said that he had thought the Hon. Minister had said \$5.00 and had looked the matter up, finding that in Albert County more than 100 farmers paid \$5 road tax. The remarks had placed the farmers in an unfair position. During the session, reference had been made to water power development. It certainly would be a good thing, but should be watched carefully. If a million dollars was to be spent at once, it should not be for the purpose of merely furnishing electricity current to the cities and other centers of the province, but the farmers should have a chance to benefit by it. He had had the privilege of seeing what hydro-electric development had done for rural districts in Ontario. As far as roads were concerned, at such money had been spent in Albert County and in all cases full satisfaction had not been received. He could cite the case of road being built on 1 1/2 miles for road work when similar work was available in an adjoining field. This was on account of political motives. The Hon. Minister does not enter into his department. He had seen four men loading gravel into a cart, and then sitting down to wait for the cart to return. As far as agriculture was concerned the Hon. Minister was concerned the Hon. Minister of Agriculture had spoken upon the subject at great length. It was the same story, but a longer and a little drier each year. He claimed great accomplishment, but the true foundation of his work had been laid by the Minister of Agriculture in a former administration. Hon. J. A. Murray. The Compensation Act had proved of great benefit to many and he was glad that it had been made to apply to the lumbering industry, to which it should have applied the first year. The Act was not working at all. He had seen the remarks of the Hon. Minister of Lands and Mines in his administration. The Act should be managed under the department, with a competent labor man at its head. The House itself was not a proper representative House without a labor representation. He had wished to unduly prolong the debate, and he hoped that during the balance of the session Hon. members would display the same characteristics which had been shown by the Hon. Minister for Lands and Mines in the course of his address.

Mr. Mersereau said that one particular reason which had impelled him to take part in the debate on the budget was his desire to make some remarks in connection with the Department of Public Works. The other departments had been dealt with remarkably well by their respective heads. It appeared to have become customary for speakers to reply to their immediate predecessors, so he would refer to the remarks made by the hon. member for Albert. Like him he belonged to the United Farmers and had represented his county at the convention held at Woodstock. He was proud of the fact, and in fact made it a point to represent his people in a good movement. The farmer of the day was being made the recipient of advice from all kinds of people who could raise neither chick, child nor crop. To his mind the farmer who was needed was the long-hour one. The six or seven hour farmer was not the kind. He was like the man who married the girl without courting, useless. He might have some criticism to direct toward the government and might be as fortunate as his hon. friend from St. John city (Tilley) in whose criticisms of his leader he resulted in his being promoted to the post of financial critic. Possibly if he (Mersereau) criticized the government which he supported he might be advanced at least one row of seats. The hon. member from Albert had accused the Hon. Minister of Public Works of blowing his own horn. To that hon. member he would say that if there was a man in the Dominion of Canada entitled to do so it was the Hon. Minister. It was true that the department of public works had a deficit, but he (Mersereau) would not call it that, for there was something to show for it. He knew that within ten miles of Fredericton in his own county of Sunbury, there were two bridge structures which would account for half of the deficit. Money had been spent there by the old government which had left a rotting structure which finally had parted in the middle. The situation was placed before the present minister, who had come in person to the scene, accompanied by his chief engineer. The minister told the people that the bridge appropriation was exhausted but that he would take immediate action to have the bridges replaced. The result was that there were two fine structures, which were worthy to be called permanent, which were being used in a country where the people might well be termed pioneers. The roads built by the present minister of public works had been criticized as not being permanent, although called that. As far as Sunbury county was concerned he would say that the roads built by the present minister of public works had been there such as had never been built since Confederation. To the examination of public works (Smith) he would say that he (Mersereau) had in

his district the same men who had worked on the roads under the preceding administration. There was a man, a peevish man who had occupied the position for years. Under the former government that man had received \$100 for so and every other day following a letter asking him not to stand the money.

Mr. Smith (Carleton)—"Under my department?"

Mr. Mersereau—"Under the government which you supported. You weren't there long enough to do anything."

Mr. Smith—"I was there long enough to make a start."

Mr. Mersereau said he was not in the confidence of the government in the matter of the vacancy in Carleton county's representation, but he would be perfectly frank and say that it was not good policy, nor good politics, to not good policy, nor good politics, to allow a seat in that county to remain vacant. He regretted the Hon. Minister of Public Health was not in the act, for he wished to refer to the administration of the Public Health Act. When that measure was under discussion he had said that the act would be a good one for town and city, but not for the country, but he had come to the opinion that it would be a good act for the country, but he had used every word to the effect that it was a bad administration. In his own County of Sunbury the act was not popular, and some administration was much needed. The municipal council had turned down the bill, presented under the act, which had a total of \$3,000, \$1,920 of which was for salaries, the secretary, although having not more than half a mile away, did not show sufficient interest to go before the council and make an explanation. He believed there was no more conscientious minister than the Minister of Public Health. Personally he had done what he could, but had found it impossible to do anything in a country with officials who would not give the action administration. As far as the Hon. Minister of Agriculture was concerned he would say that he had used every reasonable and possible effort to assist the farmers. For some farmers nothing could be done for they would not allow anyone to assist them. His own opinion was that the efforts of the department should be made through agricultural societies. If a farmer would not join an agricultural society, nothing could be done for him. The hon. minister regardless of politics would say that he could add the noble calling of farming.

The Compensation Act had been highly commended, particularly by the hon. member from St. John, who had preserved the high tone of the debate. He could say the same for the hon. leader of the opposition, who in his addresses appeared to him. Excessive use of tobacco had been mentioned to the high level from which he had departed at the last session. The objection to the Compensation Act was raised by the hon. member from Albert, who considered most flimsy and was merely by a politician. The act was one of the best pieces of legislation introduced in the House since Confederation. There was another matter of overwhelming importance to which reference had been made by the hon. member from St. John (Potts). That was prohibition. It was a great issue. Politicians were afraid to discuss it, but it should come when it would have to be dealt with. He wished it understood that he had no objection of any of the men who were engaged in the administration of the act. They were doing their duty. The act itself, however, was the most infamous, unfair, and un-British measure ever introduced into the statute books. Personally he had transacted legal business in connection with this act and found it was so bad that lawyers had refused to conduct a defence under it. There had been instances of medical men fined for the use of prescriptions to which they had been forced to add the name of the hon. member from St. John (Potts). "They say the liquor is bad, too."

Mr. Mersereau—"I cannot say—I don't drink myself."

In conclusion the speaker thanked the House for attention, and said his intention had been to let the hon. members know that the "backbenchers" still were there.

Mr. Burchill presented a report from the corporations committee.

The House rose at 6 o'clock to meet again at 8 p.m.

## Loggieville

Loggieville, N. B., April 6.—Despite the threatening storm of the 3rd Easter Sunday dawned bright and fine. Services appropriate to the season were held in each of the churches. There were large congregations. In Knox church the programmes were of noteworthy character. Rev. F. W. Thompson delighted and inspired all who heard him with messages of rare power and eloquence. The special selections by the choir were particularly good, and elicited many favorable comments. The morning numbers were, "The Risen King," and "Easter Morn is Breaking"—the latter being a duet nicely rendered by Miss Muriel Macdonald and Miss Vera Mace. The evening numbers were, "Behold the Stone is Rolled Away," and "O'er the Easter Hills," were especially good. At this service a mixed quartet composed of Mrs. J. F. Clark, Miss Florence Harvey and Messrs. Simpson and Horlath sang an Easter carol, in a most pleasing manner. Pretty potluck platters were arranged around the pulpit platform gave a seasonable and attractive appearance to the church.

The recent heavy rain and warm sunshine has caused our snow to rapidly disappear. Wheels are once more in evidence and from the present indications the season is advancing by leaps and bounds.

There is still much sickness in town.

Death removed one of our aged citizens this week. Mrs. Ellen Johnston, widow of the late Donald Johnston, was called to her rest on Saturday last. The funeral was held this morning, burial in St. Andrew's Roman Catholic Cemetery. For about two years the deceased had been in failing health, but her death came rather unexpectedly. She is survived by three sons, William of Fredericton; Dan of New Brunswick; and P. at home; also one sister, Mrs. Miller of Newcastle.

William Scott, who was taken to

## CUTICURA HEALS ECZEMA

All over baby's face. Came in with blisters and then formed a scald scale. Began using Cuticura Soap and Ointment. Used one cake Soap and one box Ointment when he was healed.

From signed statement of Mrs. Albert Ellis, Wetzlar, N. S.

For every purpose of the toilet Cuticura Soap, Ointment and Talcum are supreme.

Soap 25c, Ointment 25c and 50c. Sold everywhere. Try it today. Write to Cuticura, Lowell, Mass., for sample without cost.

## SHEEP BREEDERS' ASSN. ORGANIZED

The New Brunswick Sheep Breeders' Association was organized last week at Sussex. Officers were elected as follows: A. E. Trilles, Salisbury, president; Burdon Goodwin, vice-president; A. C. Taylor, Salisbury, secretary-treasurer; A. Payne, West Bathurst; Burdon Goodwin, vice-president; George King, Sussex; Stanley Wilson, Rolling Dam; E. W. Spianey, Windsor, Carleton County; E. W. Wallace, Penobscus; A. E. Trilles, Salisbury, directors. The Association takes the place of the Maritime Sheep Breeders' Association so far as New Brunswick is concerned. It will encourage sheep raising, and co-operate with the Department of Agriculture.

## Too Much Tobacco

After Forty-Five Suicidal, Says Doctor

Immoderate use of tobacco after forty-five is suicidal, says Dr. Hirschfeld, eminent medical author, and other doctors agree with him. Excessive use of tobacco is bad for anyone, and how much you can stand can only be told after it is too late if you have smoked too much. Better to quit, and here Nicotol will help you. Get a few Nicotol tablets from any druggist and let them drive the craving out of you. If you want to resume after seeing how much better you feel without tobacco you can do so any time. Nicotol is sold under a positive money-back guarantee. It costs you little to quit and nothing if Nicotol fails.

Note: If you know you are smoking too much, Nicotol will help you reduce the quantity and show you how easy it is to quit altogether. Ask your druggist about the success of Nicotol, have returned and can be trusted to tell you the truth.

The Hotel Dieu Hospital, Chatham, for treatment, is reported improving.

The Misses Vera and Halley Lockery, who spent the Easteride at their home, have returned to Fredericton and Point de Ste. respectively.

Miss Annie Dealy of Dalhousie, spent a few days of the past week at the home of her mother, Mrs. Stephen Dealy.

William Savoy had the misfortune of having a finger on his left hand broken, some days ago.

Mrs. Will Potter and little son are visiting relatives in Richibucto.

Miss Helen Matthews of Burnt Church, is a guest at the home of Mrs. William Matthews.

Miss Blanche O'Hearon has gone back to her school, having spent two weeks in town, called here by the illness of her sister, Mrs. A. D. Gillis.

Mr. and Mrs. Robert Dickson have moved into the home vacated some months ago by Fred Kelly.

Miss Annie Fraser and Miss Florence Harvey are able to be out again after being confined some days.

Mrs. Perley Darnley of Chatham, recently visited friends here.

Miss Etta Matthews and Miss Jennie Matthews, who are engaged to be married, were in town for the holidays.

Mrs. Robert McDonald is a guest of Mrs. Alex Campbell.

Mr. and Mrs. Campbell Russell are rejoicing over the arrival of a daughter.

Miss Elsie McLean, who was in town for several weeks, has returned to her home in Napan.

Mrs. J. N. McLean, who is visiting at the home of her aunt, Mrs. Gillis.

Messrs. Robert McDonald, Peter Macdonald and J. N. Clark, who were ill for several weeks, are now able to be out.

The annual wood frolic in the interior of the Knox Church, was held recently, but, on account of the lateness of the season, and the poor condition of the hauling, only about half the usual quantity was obtained.

Mrs. F. P. Loggie is visiting out-of-town relatives.

## Appetite Keen and Bowels Regular

You can relish your meals without fear of upsetting your liver or stomach if you put your faith in

CARTER'S LIVER PILLS

Foul accumulations of bile, which poison the blood are expelled from the bowels and headache, dizziness and nervousness, sleeplessness and female weakness.

## PAPER STOCKS FIRM ON MONTREAL MARKET

Other Stocks Also Showed Considerable Advances.

Montreal, April 7.—The paper stocks again led the market today with Brompton in first place, followed by Spanish River and Laurendide, while elsewhere on the list Steel of Canada led the entire market in activity with 5/16's share, but the very strong morning advance was more than sufficient to leave the list with net gains predominating.

Brompton closed at 87, being a half point up from yesterday; Laurendide reacted 1 1/4 points, after a new high of 101 1/2, closing 1 1/4 points up at 100 1/4. The Spanish River reached new highs, the common at 99 1/4 and the preferred at 142, a rise of 2 1/2 points, except Waynamack which lost a small fraction.

Steel of Canada sold up to 86 1/4, and the close at 85 represented a net gain of 2 1/2 points. Dominion Steel was relatively quiet and Ontario Steel advanced 1 1/4 points net to 68.

When WET, YOU SHOULD NOT TOUCH ELECTRIC LIGHT

No electric appliances should ever be placed where a person in a bathtub can reach them. Such is the assertion of Dr. A. Zimmermann in the Presse Medicale (Paris) in commenting on the death of a colleague. Electroshock has taken place with a current of only 110 volts under such circumstances.

The reason is that the water on the hands and body provides exceptional favorable conditions for conduction of the current. It is not safe to use even an electric light, heater or bell when in the bath. Dr. Zimmermann cites recent cases as follows:

A woman killed by holding an electric light in one wet hand while turning a water faucet with the other; a woman killed by wiping with a wet cloth the current distributing apparatus for an electric heater; a man receiving a severe shock by taking hold of a chandelier while holding an electric light suspended by a wire.

It is very dangerous to change an electric bulb when the hands are wet or the floor is wet; a slip or defect in the insulation may cause a severe shock or even death.

## WALL STREET NOTES

(Market Summary by Private Wire to P. E. McCurdy and Co.)

New York, April 7.—Stock market declares stock dividend of 25 1/3 per cent on common stock payable May 5 to stock of record, April 15.

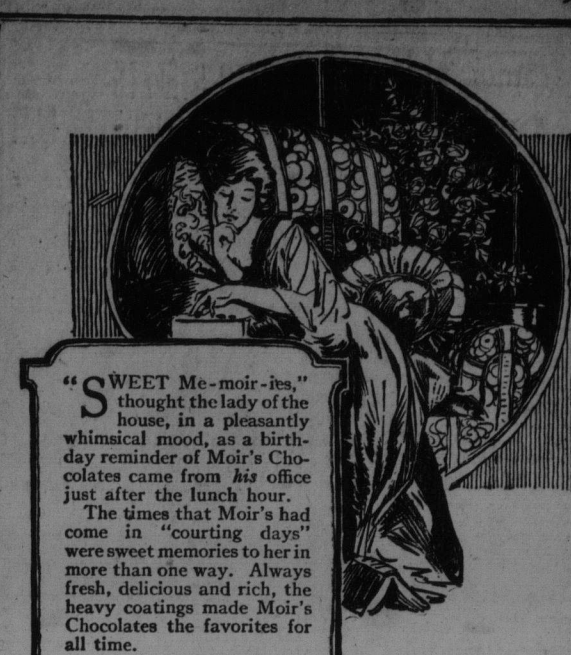

Brinkley says the first quarter of 1920 was a record breaker in earnings.

Allan A. Ryan's plan under which short interest in St. Paul Motor can settle with him includes no price, this being left to a Stock Exchange committee which shall act as intermediary between Ryan and Stock Exchange houses.

The arrival of \$10,000,000 gold here yesterday makes the total of \$32,070,000 from London on present movement.

National Lead Company earned \$14.46 in 1918.

Twenty industrials up 1.34; twenty rails up .40.

"SWEET Me-moir-ies" thought the lady of the house, in a pleasantly whimsical mood, as a birthday reminder of Moir's Chocolates came from his office just after the lunch hour.

The times that Moir's had come in "courting days" were sweet memories to her in more than one way. Always fresh, delicious and rich, the heavy coatings made Moir's Chocolates the favorites for all time.

MOIR'S, LIMITED HALIFAX - N.S.
