Forecast:—Moderate to fresh and becoming westerly, showery at first then clearing. Northern New England:—Fair Wednesday and Thursday; moderate temperature; moderate west winds.

AROUND THE CITY

BRITISH MAILED
The British mails close at 4 p.m. on Friday, Sept. 10, for the S. S. Minnedosa from Quebec.

BOARD OF HEALTH
On account of the fact that several members of the board were engaged at the Exhibition, the regular meeting of the Board of Health, scheduled for yesterday afternoon, was postponed until Friday afternoon.

NO MEETING HELD
There was no meeting of the W. C. T. U. held yesterday, as members were engaged at the Exhibition, which the union has charge of at the Provincial Exhibition.

LATE ARRESTS
Only two arrests for drunkenness were made by the police last night. So far the officers report little disturbance in the city, despite the fact that thousands of people are arriving and leaving the city daily.

PLEASED WITH VISIT
W. R. Sullivan, of Halifax, who is lecturing at the Maritime Regatta Monday, left for his home last night. He states that he is pleased with his visit and the attention accorded him by Commissioners Thompson, Frink, White and many others.

THE S. P. C. A.
A meeting of the S. P. C. A. will be held today in rooms of the Association, at which the mayor and representatives of the Board of Health will meet with members of the society to consider the future of the work in the interests of sick, suffering or ill-used animals.

ATTENDED TORONTO FAIR
Edward Walsh returned yesterday to St. John from a ten days' trip to Toronto where he visited the Exhibition. Mr. Walsh states that the big Toronto show is a very fine one, speaking particularly of the performance given by a number of beautiful trained horses.

ENJOYED FLIGHT
J. B. Jones, Jr., was among the first of the residents of this city to enjoy a flight in the bi-plane performing here in connection with the exhibition. The machine took off from Quinlan's field with the pilot and passenger aboard and circling the city a fine view of the city and surrounding country was obtained. Mr. Jones expressed himself afterwards as quite pleased with the scenery from 1,000 feet in the air.

NURSING SISTER WOODS VERY ILL

Her many friends in St. John and vicinity will be sorry to learn of a serious illness of Nursing Sister Margaret Woods, niece of H. W. Woods, post office inspector, at the military hospital, Esplanade, B. C. Word to this effect was received by her sister, Mrs. McKinney, wife of James McKinney, of the staff of allprates in the Canadian House, who has caused much distress among relatives and friends. Miss Woods made a notable record in the war. She went overseas with a McMill unit and served in No. 3 Hospital, Boulogne, for nearly two years. After that she served in several casualty clearing stations near the front. She was one of those chosen to accompany the Canadian troops in their victorious march into Bonn, Germany when the war was won. Some little time ago she was sent to a hospital in London, where she had quite recovered. She was then asked to go to Esplanade to take charge of the operating room in the military hospital.

English Company Reach Quebec

Walter Golding, manager of the Imperial Theatre, received a telegram last night from Quebec, informing him that the "Maid of the Mountains" Company had arrived there from England. This is a company of seventy-five performers and has played to a big business in the Daley Theatre, London, Eng., for the past five years. It has come to Canada and the United States to play in the Trans-Continental Theatre and will commence their trans-continental tour immediately. A start will, perhaps, be made in Halifax, and St. John will be favored on the last three days of this month. The company will then make its way westward, playing at the larger cities until it reaches Vancouver and Victoria, and then it will start on its return east, playing through the United States, starting at San Francisco, Cal.

Other large companies are coming from England, and while this has arrived at Quebec, just as soon as the steamships start on their trips to St. John, this city will prove the starting point for the productions, these placing the Loyalist city more prominently on the theatrical map.

TRUE BILL ON BOTH COUNTS BROUGHT IN HAMPTON COURT

Six Young St. John Men to Stand Trial for Manslaughter, and by Wantonly or Furious Driving a Motor Vehicle or Other Misconduct Caused Bodily Harm.

A true bill on both counts in the indictment, that of manslaughter, and by wantonly or furious driving a motor vehicle or other misconduct causing bodily harm, was brought in by the grand jury on the opening of the Kings County Circuit Court at Hampton yesterday against Harold Beverley, Jack Wilkinson, Charles Ross, John Kennedy, John Dean and Allen Currie, the six young men involved in the tragic automobile accident at Beaufort on the 28th of last April, which resulted in the death of seven year old Virginia Garret.

Out on Bail.

Senator George Fowler, of Sussex, appeared for all the accused, and Dr. W. B. Wallace, K. C., of St. John, conducted the case for the crown. By arrangement between counsel, and with the consent of the court, the case was stood over to Wednesday, Sept. 22, at 10.30 a.m.

The accused entered into recognisance each for two thousand dollars and George W. Fowler and Jarvis D. Purdy, provided sureties of one thousand dollars each for each of the accused.

Charged the Jury.

In charging the jury, Chief Justice H. A. MacKinnon did not go into the evidence but instructed the jury that they were to determine for themselves from the evidence as given by the witnesses whether a true bill was to be brought in on one or both counts in the indictment.

The following witnesses appeared: William E. Gunter, Frank Cormier, Gilbert Davidson, Patrick Biddies-

combe, Ada M. Finley, H. Wilson Dalton and Harold Climo, Jr., all of St. John, and Benjamin Denison and George H. Colby, both of Renfrew.

The Jurors.

The judge instructed the sheriff to call forty more men for the petit jury.

The grand jurors were:—Huggard, W. H.; Langstroth, Stanley; Marvon Neville P.; Gilliland, Richard; Wainmaker, Willis H.; Elliott, Charles A.; Gidoui, A. J.; Cochrane, H. M.; Kenu, Chester M.; Titus, Walter C.; Mason, Warren S.; Foreman.

The petit jurors were:—Titus, Fred.; Marr, I. Bliss; Thorne, Mont G.; Cosman, Addington; Marchbanks, Fred; Holman, W. H.; Morton, F. G.; Robinson, Chas. H.; Snider, Howard W.; Crawford, Simon; Chittick, Claude; Fairweather, Leonard; Keith, Rainsford.

The Civil Docket.

The only case in the Civil Docket was taken up immediately after the postponement of the criminal case. It was that of Charles H. Hayes, plaintiff and Harry C. Heans, Carl A. Duffy, and the Coal Creek Lumber Co., defendants. Indies, Weyman and Haen, for the plaintiff, and Kenneth A. Wilson and Ralph St. J. Freeze for the defendants. There were a number of witnesses called in the case yesterday and it will probably engage the attention of the court for several days. The jury are Claude Chittick, Charles H. Robinson, I. Bliss Marr, Leonard Fairweather, Addington Cosman and Simon Crawford.

CANADIAN AVIATION SEAPLANE STATION FOR NEW BRUNSWICK

Captain J. A. Le Roy of Canadian Aviation Board, Picks on Navy Island as Suitable Place — Expects at Least Five of Machines Here Before Next Season.

Capt. J. A. Le Roy, of the Canadian Aviation Board, Ottawa, was in the city yesterday. The object of his visit was for the purpose of inspecting the neighborhood of the harbor, in order to find a suitable site for Canadian Aviation Sea-plane station in New Brunswick. Capt. Le Roy called on the mayor in the afternoon, and accompanied by His Worship and Commissioner Jones, drove to Indiantown. The harbor there did not impress Capt. Le Roy as suitable for his purpose. The party then drove to the west side and a beautiful view of the harbor was obtained from the vicinity of the Tower. From there the neighborhood of Courtney Bay seemed a most suitable site; but after a closer inspection, it did not appear to the captain as being adaptable to his purposes. Later in the afternoon the party enjoyed a sail on the Tug Neroid, in charge of Captain McKinney, from whom considerable valuable information was obtained regarding the action of the tides, as well as general

son-onast information. Going up the harbor by North Wharf, the attention of Capt. Le Roy was attracted by Navy Island, and the boat was headed in that direction. A full inspection of the island was made, after which he expressed himself as entirely pleased with this site. It seemed the most likely to meet all his requirements and he said that he would recommend it as the best possible site for the craft arriving and departing from this province in the course of their trans-Atlantic flights.

Capt. Le Roy said that when the regular schedule is arranged that there would be several sea-planes for this port. Before next season he expected that there would be at least five or six of these machines on the "wing." He also stated that when the regular schedule is arranged that there would be several sea-planes for this port. Before next season he expected that there would be at least five or six of these machines on the "wing."

THE VACCINATION DAYS FOR CHILDREN

Parents should remember that now the schools in the city have opened that the free vaccination clinic for school children is only available on Monday, Wednesday and Friday afternoons from 2.30 to 4.30 o'clock.

Dr. Mabel Hanington, who is in charge of the clinic, is also medical inspector of schools, and her duties in that capacity make it impossible for her to be at the clinic more often. In spite of the fact that the clinic has been open for weeks, and ample opportunity was given to parents in order that they might have their children vaccinated in time for the opening of the schools, nevertheless, the clinic was swarmed with children yesterday; but, of course, they were unable to be vaccinated.

HAVE CHILDREN ATTENDED TO

The mouth being the gateway to the body, both for food and respiration, requires the attention of mothers for babies and small children especially. Do we realize that 85 per cent. of the bacteria of all contagious diseases enter the system through the oral (mouth) cavity? Then let us have healthier babies and children by having the teeth, tonsils and adenoids attended to.

Mothers can have examinations for these ailments conducted by the Board of Health. The results of the examinations shall be forwarded to the parents and the Medical Officer for schools, which will facilitate loss of time for the inspection of mouths at the public schools.

ALL EXHIBITION VISITORS SHOULD VIEW THE SUPERB DISPLAY OF FALL WEARABLES NOW SHOWING AT THIS STORE.

An exhibit par excellence of the most fashionable garments for the present season's wear. Whether it be tailored Suits, Cloth Coats, Fur Coats, or Modish Waists, be sure that here you will find the very pick of the world's best makers.

F. A. DYKEMAN & CO., 50 Charlotte St.

NO WORD FROM HON. MR. MEIGHEN

Preparations for the Election Battle Are Proceeding Rapidly While Waiting.

Unchanged in any way to the by-election status in St. John-Albert. The Hon. Mr. Wignmore, the government candidate, is still awaiting word from Ottawa as to the exact date of the appearance here of his leader, the Hon. Arthur Meighen, premier of Canada, and his colleague, the Hon. U. C. Bantyn, the minister of marine and fisheries.

So far no public meetings have been announced by either candidate, but preparations are well advanced, it is understood, on the programme for the short battle.

Dr. Emery, the Liberal candidate, has not made any statement of policy yet, but the views of the Hon. Mr. Wignmore on the issues of the dominion and his policy for the city of St. John have been stated on many occasions.

WOLVES ESCAPE FROM PARK CAGE

Became Excited When Porcupine Made a Call—They Broke Through Wiring.

A porcupine that had escaped from its cage early yesterday morning and excited along to the wolves' cage excited two of them to such a degree that they broke through the wiring surrounding them. An endeavor was made by Joseph Tebo, caretaker of Izzy Lake, to capture them, but they took to the woods. He summoned the police and chase was given. It was deemed necessary that the wolves would have to be shot, not only because of the danger to human life, but also because their nostrils and mouths were so full of the quills of the porcupine that one would never be able to extract them. The party came up on the animals, and one of them was dropped, and several shots were put into the other one, but they did not strike a vital spot and he escaped into the thicker growth. Mr. Tebo and a party searched all afternoon, but they were unable to find the wounded wolf. The search will be continued this morning. It is presumed that the wolf was badly wounded and crawled into the undergrowth and has probably bled to death.

The porcupine, the cause of all the trouble, is back in his cage. Another addition to this family was made yesterday, making three in all at the park now.

Everyone should see the exhibit of the INTERPRETIVE POUNDRY COMPANY, especially their new Pipeless Furnace which is attracting a great deal of attention. The principle on which this Furnace is constructed has grown very popular, embodying as it does the latest and best ideas known in the heating trade. The Pipeless has the advantage of being simple to operate and inexpensive to install. No one interested should fail to look it over while the Exhibition is on.

Imperial Theatre Packed With Visitors

That visitors consider the big and handsome Imperial Theatre one of the sights of St. John and to enjoy its programme with special orchestral music one of the delights of a trip here, is certainly evidenced by the immense crowds thronging the King Square resort day and night since Exhibition started. The programme now showing is one of two bumper bills selected for Exhibition visitors. Anita Stewart in the famous old racecourse play "In Old Kentucky" is a most enthralling seven-reel picture and the orchestra plays it up with a specially written score. Tomorrow Charlie Ray will be the feature in a comedy entitled "Paris Green." Shows at 2 o'clock, 3.30, 7 and 8.30. Admission for the matinee 10c. for kiddies and 15c. for adults. Night 15c. and 25c.

EASEL MISSING.

Loaned to a society in the city for an evening, a heavy oak easel. Please call M. 1740.

La Tour Flour Booth A Strong Favorite With Visitors To The Fair

At once pleasing and instructive, especially to the housewife, the pretty booth of the Fowler Milling Co., Ltd., is eliciting many favorable comments from visitors to fair, and should be visited by all who realize the importance of knowing just how to select the right flour to make the best bread.

Much taste has been displayed in the booth decorations, and bags and barrels of La Tour Flour are attractively arranged, with large display cards which tell tersely the many strong points of La Tour Flour, so much a favorite, not only for bread, but for cakes and pastry of every description.

The firm's manager, Mr. A. L. Fowler, and members of his staff are in attendance, and will be pleased to answer all questions.

Novel mementoes are presented to callers at the La Tour Flour Booth which should be visited by all who are privileged to attend the exhibition and who can be assured of a most cordial welcome by the millers of La Tour Flour.

Novel mementoes are presented to callers at the La Tour Flour Booth which should be visited by all who are privileged to attend the exhibition and who can be assured of a most cordial welcome by the millers of La Tour Flour.

rain, notwithstanding the northern lights appeared in the sky during the evening and provided a very good substitute for the exhibition display of fireworks, which were cancelled because of unfavorable weather conditions.

SULTRY TEMPERATURE
The temperature last night was quite sultry after the day's decompos-
